

TO AID TRAVEL OF WOMEN IMMIGRANTS

Government Arranges for
the Wearing of Badges to
Show Destinations.

A scheme that is intended to prevent mistakes and facilitate the forwarding of unaccompanied women and girls from their Canadian port of embarkation to their Canadian destinations has been arranged by the department of immigration and colonization, and will henceforth be adopted for all such passengers arriving on Canadian Pacific ships at Montreal, Quebec or St. John. In order to prevent confusion when all passengers are hastening to leave the ship, and to prevent inconvenience to women and girls, it has been arranged that the matron aboard the ship shall supply each unaccompanied woman with a small ribbon for use as a special means of identification. This ribbon will be worn at the time of landing.

A red ribbon will identify those proceeding west of Ontario and a blue one those destined for that province. Passengers proceeding to any other point will wear white ribbons. When there are special government parties a yellow ribbon in addition to the red one will designate a party for Saskatchewan; a sky blue in addition to red for Manitoba, and brown in addition to red for Alberta. Any woman requiring hotel or hostel accommodation will wear, in addition to the color showing her destination, a green ribbon. Upon their arrival at a Canadian port the ribbons will aid the Canadian conductress taking charge of the party to divide immediately those for various destinations, so that there will be little delay.

In addition to a staff of stewardesses on all Canadian Pacific ships there is also a matron whose special duty is to attend to the welfare of women and children traveling alone. The Women's Division of the Department of Immigration and Colonization co-operates in providing conductresses for unaccompanied women, who are given special attention when immigrants are leaving their ship on arrival at a Canadian port. They entrain at once for Winnipeg or the Pacific Coast while those for Ontario go to Toronto, and are sent on to their destination from there. Special cars are allotted to these women, and they receive sympathetic care from the trained conductresses who accompany them.

Quebec, March 11.—Two bequests of \$10,000 each, for the Jeffrey Hale Hospital, Quebec, and the Western Hospital, Montreal, and a bequest of \$25,000 to his son-in-law, Mr. James P. Craig, of Montreal, "in memory of our joint loss," are among the provisions contained in the will of the late Major-General Sir David Watson, which has been probated in the Superior Court here.

All stocks, bonds, life insurance and cash in banks are to be securely reinvested under the terms of the will.

FUNERAL HALTED AT THE GRAVESIDE

The Disposal of a Body Once
Thought to be That of a
Moncton Veteran Under
Consideration.

(Toronto Mail and Empire.)

Receiving word that the body about to be buried by the York County Patriotic Association in Prospect Cemetery yesterday morning as that of Frank Wallace McLaren, of Moncton, N. B., was not McLaren, the burial service was discontinued, and the body removed to D. M. Johnston's undertaking parlors. Mr. Johnston said last night that the body would be taken to the morgue today, when the city would probably dispose of it.

The man in question was killed on the G. T. R. tracks between York and Simcoe streets a few days ago. From an active service button found on a remnant of the coat worn by the man, which contained a regimental number, it was believed that he was McLaren. But a dispatch from Moncton yesterday afternoon stated that McLaren had returned to his home there. McLaren is a returned man, and lost his service button some time ago. It must have been picked up by the man who was killed.

Pimples, blackheads and boils—fresh yeast rids you of them

It is well known that pimples and blackheads (acne) and boils are often caused by errors of diet.

Fleischmann's Yeast is now being recommended for these embarrassing and painful skin troubles because fresh yeast corrects the errors of diet which cause them.

The purpose of one important used yeast extensively and found it invaluable in curing boils." When 17 cases of pimples were treated with Fleischmann's Yeast at hospitals in New York and Philadelphia the results were remarkable. A typical case was a young man who had suffered from pimples for three years. He ate three cases of Fleischmann's Yeast daily. In five weeks the eruption had cleared completely.

If you are troubled with pimples or boils, begin at once to correct them by using 2 or 3 Scales of Fleischmann's fresh yeast daily before or between meals. Boil Fleischmann's Yeast—the familiar tin package with the yellow label. Place a standing order with your grocer for Fleischmann's Yeast.

MURDER TRIAL IS POSTPONED

Juryman at Owen Sound was
Alone with Another Man a
Few Minutes.

Owen Sound, Ont., March 11.—Because a juryman had been left unguarded a few minutes and had been spoken to by an outsider during that time, Mr. Justice Logie dismissed the jury in the McMillan murder case and ordered a new trial at the next assizes. James Foster, a juryman, had registered at the Queen's Hotel, and the sheriff had made arrangements for the jury hearing the case to be put up at the Seldon House. Foster was taken to the Queen's Hotel in charge of a constable and allowed to go to his room alone to pack up. While there Captain Barton followed him up stairs and the two were alone together for a few minutes. Foster said no conversation had taken place.

"I am not suggesting any impropriety," said the judge, "but the law says that in capital cases the jury cannot separate for the very reason they may be, unconsciously or unconsciously, influenced by their friends. Under these circumstances, I see nothing for it but to discharge the jury and traverse this case to the next assizes."

Turning to the jury, Justice Logie said: "Gentlemen, you are discharged. I regret that this country has been put to such expense unnecessarily. Some of you may be county councillors, and, if so, I trust you will see that in the future some provision must be made for juryman who are locked up over night."

CULTURED EGYPTIAN CAUSE OF UNREST

Not Common People Who
Make Trouble, Says D. M.
Carruthers.

(Toronto Globe.)

"The real trouble in Egypt arises from the educated Egyptian, and not from the people generally," said David M. Carruthers, who arrived in the city yesterday after a two-month tour of the Mediterranean.

"The government of the country is suffering from what Dr. Carruthers called 'the uncivilization of office,'" continued Mr. Carruthers, in an interview with The Globe. "The cultured Egyptians, many of whom have passed through the universities of Britain and America, are subjected to the condescension of the aristocratic Englishman, who looks at him through his eyeglass and regards him as a nigger."

Mr. Carruthers, however, expressed his admiration for the results of British rule, as compared with that of the French.

"One has only to visit Algiers and see the Arab quarters in the city, and then take a trip to Cairo and inspect the Arab section there, to realize the difference between French and British rule. I was delighted with the Arab quarters at Cairo, but was disgusted with those of Algiers, which were with-

TAXATION IS HEAVY BURDEN IN OLD COUNTRY

London, Feb. 22.—(Associated Press, by Mail).—Wages of the British workmen are cut more than 25,000,000 a week in 1921, says the British Board of Trade. The reduction affected more than 7,000,000 workers and was almost equal to the increases in pay which had been granted in 1919 and 1920.

KIDDIES IN STAMPEDE FOR LOST TREASURES

(Toronto Globe)
A veritable El Dorado has been discovered by school children of the Earlscourt district and a regular Klondike rush is under way. Yesterday some boys grubbing about the Earlscourt Park rink found quantities of treasure lost by skaters during the winter and now released from the ice by the thaw. One lad is now the proud possessor of \$1.95, a penknife, a brooch, and various other valuable items too numerous to mention. It was he who found the first nugget, but spoiled his fortune by spreading the news abroad. The search spread to Oakwood Park rink, where more valuables were "unearthed."

tax, amount to \$400,000,000 sterling. This burden is borne by fewer than 2,500,000 persons. The sum now levied in income taxes is almost twice as much as the whole national revenue in 1914.

The number of unemployed continued to increase during the last month. A statement issued by the American Chamber of Commerce in London shows the severe declines in British trade last year. It gives British imports in 1921 as only 74.3 per cent. of their volume in 1919, while exports were only 49.8 per cent. of those of 1919.

In the last three months of 1921, however, a steady increase is noted in exports of coal and manufactured goods.
