to Make Immediate Arrangements. The meeting of the Merchants' Exchange club held yesterday afternoon was very largely attended. Chairman Thomas R. Smith reported that a most satisfactory arrangement had been made with the directors of the board of trade building for premises for the club. He reported also that the provisional com-

mittee had received a list containing the names of 187 subscribers, and that 18 names had since been added. From this number, however, would have to be deducted eleven subscribers who were nwilling to pay \$1 a month subscription instead of 50 cents. The chairman felt confident all the subscribers would pay the entrance fees and subscription in ad- at 8 o'clock. vance as soon as called upon to do so. He then asked that the provisional committee be discharged, which was done with a vote of thanks.

The election of members of the general committee resulted as follows: T. R. Smith, C. E. Renouf, W. H. Ellis, H. E. Connon, Gustav Leiser, C. A. Goffin, G. H. Barnard, Col. R. Wolfenden and H. D. Helmcken. The following were recommended to this committee as trustees for the club: George Gillespie, D. R. Ker and A. R. Milne.

The committee was instructed to start the club as soon as subscriptions could he collected, and the matter of increased entrance fee was settled as follows: "Each subscriber will be called upon immediately to pay \$5; if there is any delay, new applicants will come in at the \$5 rate until two hundred subscrib-

ers are found; after that the entrance fee will be \$10 to all persons wishing to join the club." The list is still open, and any gentleman wishing to join should send his

name in to the secretary.

They registered there two days previous to the arrival of Mr. Finlayson, Sr. The register shows that young Finlayson did not go under an assumed name. In bold handwriting appears "Jas. Finlayson and wife, Astoria. Ore." It is not known whether the runaway couple are married, but it is known that they will both return to Astoria by the City of Kingston this evening in company with Finlayson pere. back. The young woman is well known in Astoria and is considerably older than Finlayson, but has the requisite charms to captivate such a heart. She is goodlooking, rather stout, but shapely, and has a fine carriage. Mr. Finlayson, Sr., the Canadian Pacific agent at Astoria and the family are well known in that

## CHINA CREEK MINES.

Prospects Described-Settlers' Roads-Abundance of Snow.

Alberni, Nov. 13.-There has been much rain during the week; some of the roads are now in a nice state. Several lengths during last summer were supposed to be covered with gravel, but i has all melted into mud, and money wasted.

We see a great deal in the newspapers about the gold mining here. Col. Baker has bonded two claims for a cer tain sum; if they turn out well Col. Baker was here last week, and has left his son to look after his interests here in his absence. The trail to the mines, upon which some \$600 has already been expended (part of which is a contract just finished) has now to be finished by day labor. Any amount of money apparently is available for the purpose, but when any of the settlers here want roads made to their farms, and there are several who have not a proper they are told there is no money But of course they are not in the government. Snow is now very deep on the mountains, and all assessment work has been stopped on the claims.

The Japan Sails.

The steamship Empress of Japan, Captain Geo. Lee, R.N., sailed for Yokohama at 9 o'clock last night. She had 422 Chinese from Vancouver, 126 from Victoria and the following cabin passengers: Mr. and Mrs. G. Armitage, Engand; Bishop Bickersteth, Japan: Mrs Bickersteth, Japan; Rev. M. Blolock. Notwithstanding the large attendance at the sale of work which opened yesterday in the lecture room of the Metropolitan Methodist church, the members of the ladies' aid society had numerous articles to offer for sale to-day. The success which crowned the affair yesterday induced a larger number of ladies to attend to-day. The sale of work was conducted by Mrs. Wier, the president, and the secretary, Mrs. Jenkins. They were ably assisted by all the members of the society. The booths were in charge of Mesdames Earle, Hooper, Teague, McCullough, Griffin, Pickard, Watkins, Dee, Siddall, Archibald, Wier, Raynor, Colwell, Armstrong, Bullen, Sargison and Sherit, and Misses Jennie McCullough, Josie Spencer and Elford. Last evening the Sunday school choir, assisted by Miss Drury and Miss Fox, presented a musical programme. Misses Lizzie Watkins and Sadie Dur-

Candidates for Mayor. Hon, Robert Beaven will be a candidate for re-election for mayor at the elections to be held in January. It is understood an endeavor is being made by several gentlemen, among whom are some of those whose names have been mentioned as candidates, to induce R. P. Rithet to allow himself to be nominated. A dispatch was this morning sent to Mr. Rithet asking him to become a candidate, but so far no answer has been received. Although he has refused several times to become a candidate, some of his friends are of opinion that he will this time consent to stand. The requisition asking Mr. Teague to stand is being largely signed.

The Walla Walla's Passengers.

comes to hand with the record of a brave deed in South Africa by Captain J. J. Walsh a native of Windsor Nova Scotia. The Echo says: "The British and African Steam Navigation Company's royal mail steamer Volta, which arrived yesterday at Havre from West Africa, reports that at Assinie, a French protectorate, a French commandant and his troops narrowly escaped massacre Some disaffection had occurred among the natives and the commandant of the place went up the Assinie river with a following of about thirty Senegalese soldiers. Soon after the troops landed in the town they were made prisoners, the natives getting possession of the rifles of the men and even the revolver of the commandant. Just at this time, however, a trading launch belonging to a firm of Liverpool timber merchants at Assinie was ascending the river in charge of their agent, Captain Walsh, who had with him a Winchester rifle. On becoming aware of the peril the Frenchmen were in he swam to the bank and opened fice on the natives. In a few minutes fifteen of the natives had fallen and the others sought shelter. No End of Talk about the Proposed Restoration.

Washington, Nov. 13.-A gentleman supposed to speak ex cathedra for the administration on the Hawaiian situation told the United Press reporter today that when all the facts in connection with the policy outlined in Secretary Gresham's letter were made public, there would be a revulsion of the present popular criticism of the administration's when it will be made. New York, Nov. 13 .- Memorial services in honor of the late Edwin Booth C. P. Huntington. The appointment were held this afternoon in the Madison a receiver for the Thurber, Whyland square concert hall. An assemblage comprised of men and women prominent in the world of art and letters crowded the hall to its utmost capacity. The exercises, under the auspices of the Players' club, commenced with the dead march in "Saul," by the Symphony orchestra, directed by Walter Damrosch, Then Jospeh Jefferson, Booth's successor as president of the Players' club, made an introductory address. Professor Geo. E. Woodberry read a eulogy. This was followed by Tchaikowsky's overture, "Phantasie Hamlet." Parke Goodwin then read an address. Mendelssohn's nocturne, "Midsummer Night's Dream," was then rendered. Then followed an address in Italian by Signor Tomasso Salvini, a translation of which was read by Henry Miller. Henry Irving also spoke, and Gounod's slumber music, Romeo and Juliet," concluded the programme.

London, Nov. 13.-Right Hon. Lord George Hamilton, first lord of the admiralty during the last Conservative administration, in speaking at Harrow on Saturday, said: "If Great Britain is deprived of command of the sea a large portion of the people will be reduced to a state of permanent destitution. Foreign nations are making great naval progress, and unless we make an immediate and determined effort we shall be at a disadvantage next year. I hope the government will soon intimate its readiness to prepare to meet the new wants of the navy, if not it will be the duty of parliament to make them show their hands."

Liverpool, Nov. 13.-James Kier Harlie, socialist member of the house of commons for the south division of Westham, addressed a meeting of the socialists at Liverpool to-day. In the course of his speech he announced that he would shortly introduce in parliament a bill providing for the nationalization of mines. Fifty millions of pounds, he said, would represent the capitalized valne of the coal pits in Great Britain. The state could raise a loan of this amount at 2 1-2 per cent, and take over the mines.

All that can be said is that the agonies in flicted have hardened the hearts of the wretches who have inflicted them and excited the pity and detestation of civil-

ized people. It is impossible to imagine an argoment in favor of this barbarism-the savagery of science. Nothing can be said

its defence. What the gladiatorial show was to the Romans, what the Inquisition was to the Catholic church, vivisection is to the se entific pretenders of to-day. Back them all was and is the same infamous spirit. The gladiators were foreigners. the victims of the Inquisition were here ties, and those that suffer the agonies vivisection are animals Is it possible that what we call civil-

ization is a veneer or a varnish? Does the tiger or serpent of cruelty crouch coil in the hearts of men? It is bad enough that we kill animals for food; horrible enough that life feeds

But there is almost an infinite difference between vivisection and sudden, painless death, between the man who kills quickly and the vivisector who tortures as

long as nerves can feet. With great force and feeling, with hot and indignant words. Mr. Peabody in hi eloquent speech denounces these scientifi criminals. In justification of his words he gives the facts within his knowledg and experience. It is to be hoped that millions will read his brave and tende words for the poor victims and his denut ciations of the criminals. Most people are in ignorance of the real facts. They generally suppose that the animals erated on are under the influence of ethe or chloroform. As a matter of fact, th at the stock exchange were more than vivisectionists care nothing for the pa they inflict. Pity is considered as child ish-as something liable to interfere with scientific methods. How monstrous, how terrible it all is; how fiendish, and yet is pretended that all these horrors are

flicted for the sake of man! A physician, a surgeon, should not only have a good head, but he should have good heart. He should sympathize with his patient. The doctor who practices vivisection has a heart of stone. He unfit to have the care and keeping of life. He is a kind of wild beast. has made useless experiments upon living flesh of the helpless. He has committed thousand crimes without an in telligent purpose. Of what use is i find out how long an animal will after it has been flayed? Whether can survive the loss of a kidney, o lung or of part of its brain? should the same cruel experiments be the poor animal first be made insensible to pain? There are no words strong enough, bitter enough, with which to ing of vivisection-of its cruelty and cowROOTENAY CRO
