VANCOUVER TEAM RETURNS.

FOUL TERMINATED FIGHT.

The fight Wednesday between Bob Mc-Call and Ed. Barry, which took place in the Delmonico theatre, was brought to a sudden close last night about the middle of ed States in 1895, and went to Henley the fourth round. The fourth round had opened with more than usual vigor, and a heavy onslaught was made by Barry upon his antagonist. When the men locked Barry in a most unsportsmanlike way fouled McCall with his knee. McCall dropped records of the pitchers for the season closed, which have just been made bodd, immediately decided the fight in t closed, which have just been made was by President Lucas, of the Pacific favor of McCall.

tional League. Nichols, formerly of neouver, who dropped dead in Spokane, Whether the latter was hurt to any extent or was feigning, was a question in the minds of the spectators. The act of the leader. Out of 24 games pitched Barry, however, was none the less to be condemned, whether his opponent was being .833. He was well known in oria, his pitching being much admired seriously injured or not. Those present expressed themselves thoroughly satisfied with the decision. As Barry retired to his corner Chief Langley, who was at the ring leave the city in consequence of his un burg, Pa., Oct. 27.-The wrestling

ASSISTING PIONEER FARMER.

Owing to the necessity of breaking the first game will be played on Saturday, the new land, the lack of capital and the disies of this sort in operation in the Terri-tories, situated at Calgary, Innisfail, Edmin, Saltcoats, South Qu'Appelle and Grenfell in the Territory of Assiniboia, and at Prince Albert in the Territory of | sured Saskatchewan. Three of the creameries formerly managed were closed by the department in 1902, owing to the lack of sufficient patronage. The failure of the farmers in these districts to support the farmers in these districts to support the creameries does not appear to arise from any lack of confidence in the dairy business, but simply because they are now in a position to go into stock raising and grain growing, and because they prefer the latter means of livelihood. The changes of the past few years have altered the aspect of farming operations in many parts of the Northwest. Last year five carloads of butter from the government creameries were exported to Great Britain, one carload was sold for the schooner nad been engiged in the lumber business and was a fine carrier. The scene of her wreck is a point notorious for its many disasters, and a vessel once ashore there has little or no show of escape, as may be inferred from the remarkably quick time in which the schooner Wempe Bros, went to pieces. In connection with the wreck which has just occurred, an interesting point is raised by navigators. It is whether in event of the Wanderer having been able to float the vessel could she have legally taken her across to the American side without going through any customs formality. The customs regulations makes the act of rescuing lives or proposition. Like a great many other pioneers when he first landed on Vancouver when he first landed on Vancouver when he first landed on Vancouver. Saskatchewan. Three of the creameries aipments were also made to China, Japan and the Yukon. The remainder was disposed of in local and British Columbia markets.

Up to October 1st of this year the output of butter from the government creameries exceeded that of last year by 100,000 pounds. The increase has been mainly in Alberta. This year all the outter has been taken by the markets of Western Canada, or has been exported to the Orient, none having been shipped to Great Britain. The exhibit of Canadian dairy products at the great Japanese exposition at Osaka was an excel-lent advertisement, and has already borne fruit; three new customers for but-

Collecting Eggs. In connection with the system of year creameries, the department has adopted will give a good account of itself. Al. the plan of collecting eggs from the though a little light, the team understands farmers of the Territories and holding that unless active steps are taken shortly it is doubtful if the teams will come together for the adoption of a series of games. What militated against the success of the league last year is feared again this year, and that is the travelling expenses. At the meeting of delegates from the clubs interested, which will probably is necessary and that they had appointed him honorary advising greenkeeper.

In this connection it might be stated that the play well enough to retain the championship for another year.

There is no one better known in the the new by-laws aim at making the auspices of the association absolutely clean exhibitions. The necessity for the dauptions of the first season, and has improved ever since, but greater improvement is noticeable in the play well enough to retain the championship for another year.

"The McKechnie cup represents the sent Rugby championship of British Columbia, and is one of the finest please of the eggs this year than ever before. The umbia, and is one of the finest please of the eggs this year than ever before. The meeting of delegates from the clubs interested, which will probably the play well enough to retain the champions the play well enough to retain the elam in storage. It worked well the play well enough to retain the champions the play will enough to retain the champions the play well enough to retain the play well enough to retain the champions the play well enough to retain the play w The Rugby champions since 1889 are as all the eggs he supplies. No driver will accept the eggs without the number be-Year, ing on. These eggs are held at the creamery for a short time and then sent in refrigerator cars with the butter to 1891-92 the storage at Calgary. There all the 1892-93 eggs are examined and classified by an expert, who has the egg lists in front of him, and every farmer is credited with the exact number of each class of eggs e has sent. The department advances 1896-97 fifteen cents per dozen on the eggs at the time they are received, and later the farmer gets the balance according to the land to the breaved family.

1898-99 fifteen cents per dozen on the eggs at the time they are received, and later the farmer gets the balance according to the by His Honor the Lieutenant-Governor.

The funces large and acquaintances, and pathy of the whole community tended to the bereaved family. classification. This year the average price to the farmer will be just about twenty cents per dozen for the season. bable that the first two teams will take part in a provincial league, if one is organized. The Nanaimo Mosquitoes are also ners by a narrow majority. The decisive termediates and the United juniors at the dozen were handled and the town of Calsergt. Wood, Fred. Richardson, J. G. PERSONAL

H. J. Cennett, a mining man, is among the guests at the Dominion hotel. He has been engaged for the past few months in assisting in the development of claims on Mount Malahat, near Shawnigan Lake, These properties, he says, give indications of great promise, although the work so far has not been as satisfactory as might be desired. Mr. Bennett in a recent trip o Alberni visited many of the mining properties there. From what he saw, he states that Alberni will be the most important mining camp of Vancouver Island in the near future. What is wanted is a railway to open up the country. One of the finest copper properties of the province has recently been discovered near the centre of the Island. It is situated on the side of a horse shoe shaped mountain. The distance of the property from Alberni and its inaccessibility make development to any extent Schooner Wempe Bros., which was practically impossible iven on the rocks at Bonilla Point on
