

sooner the better—to supply all Catholics of the Canadian West with a copious number of learned, zealous and devoted priests. The only possible means, to attain this sublime end, is the speedy erection of a good first class Catholic College. And this is what we have in view. This is our aim. You must help us along, and you will certainly do so without gainsay. Without money, and a lot of money, this cannot be done. We are not dismayed. We know that God and the good people are with us.

We take great pleasure in announcing to day that the contributions towards this worthy cause experienced a material increase during the past week. We are now anxious to see the big leap next week, when it will be a delight to register the various Christmas Collections that will be taken up in the churches of St. Peter's Colony to-morrow.

In these days of ever raising prices on merchandise any merchant with ordinary intelligence and a fair amount of capital is sure to succeed. **But how about you, Mr. Farmer?** Is it fair that you should be compelled to sell your products at the price offered, and buy your goods at the price demanded? If not, then why do you "stand for it"? These are just the injustices which the G. G. Ass'n. is trying to remove: The place to begin building a strong National Association is your local. Shall we not prove to all our opponents that we are not "Soft Drink men" but men that "Do the work", determined to fight for our motto

"Equity and Justice to All"

While we are HIGHLY GRATIFIED with the results of our present campaign for a stronger local, our aim is to get every member of this community interested.

Co-operatively Yours

ANNOUNCEMENT

To The Public At Münster And Vicinity

I wish to announce that we are again opening for business in the general merchandise line and shall in the future endeavor to serve our patrons as we have in the past.

I first of all, wish to thank our old customers for their many expressions of sympathy in our recent loss by fire and their many acts of kindness and help rendered to enable us to rebuild our store quickly. While our loss of property and the consequent loss in time and business was great we hope to overcome same by the co-operation and help of our customers and friends and the material support of the public in favoring us with their trade, thus enabling us to re-establish our business at Münster and thereby making it mutually beneficial both for ourselves as well as the Town of Münster and the Public in the Vicinity. A town and a community without a First Class store to supply the needs of the Public is at a great disadvantage. We are endeavoring to supply the needs of the Town and Vicinity with a first class store building as well as a complete stock of up to date merchandise and we are making every effort to accomplish this.

The cost of material and work of construction, in these times of high prices are heavy, and the Capital required to stock up a first class store is great.

In order that we may be able to meet these expenditures we are compelled to ask all our friends, who are indebted to the retiring firm of Woell-Mainzer Co., Ltd., to pay such sums as due them promptly, as the money is urgently required by us. We urgently request all our friends knowing to be indebted to us to act promptly on this so as to enable us to successfully meet our requirements.

We know that it is rather inconvenient at present to dispose of your grain, on account of the restrictions on shipping of grain and that it is hard to dispose of same. However we feel satisfied that you will make every endeavor to meet our request in the very near future.

We would not make this appeal if we were not compelled to do so by circumstances over which we had no control and which was our misfortune.

We invite you to call in and look over our new store and stock and we shall endeavor to merit your business by straightforward and courteous treatment at all times.

Respectfully Yours,

LEO J. WOELL
