Familine.

It Relieves Pain. Good for Swollen Limbs. Physicians Prescribe and use it.

Mr. H. R. Stevens—Dear Sir: I have lately witnessed decidedly good and striking effects of your FAMILINE in case of Erysipelas of nearly three years standing. When I first saw my patient, a lady of some 50 years of age, she was complaining of a severe swollen condition of her feet; the skin was tense and angry-looking painful on the alightest motion and likely to burst at any moment. She had tried many remedies without relief, and my first treatment failed in its effect. I suggested that the feet be painted with FAMILINE morning and night, and then enclosed in soft cotton dressing. When I saw her last about three days ago, the pain had wholly vanished, the swelling reduced to almost the normal condition and the inflammation subsided. With proper care as to diet and slight constitutional greatment, I think she has nothing to fear from her old disease in the tuture. future. I ought to state that I was led to try FAMI-LINE in this case simply on the recommendation of my wife, who had been pleased with its effect in a severe case of burn, also in a painful backache, resulting from a settled cold. Notwithstanding that it professes to be a "proprietary" arther, I cannot conscientiously deny its admirable compo-

For Croup and Sore Throat. Mr. H. R. Streynis-Dear Sir: I have had your FAMILINE in constant use in my family for the many complaints for which it is recommended, the chief of which, in my familie of fous small children, seems to be Croup. Were it not for your Family Balsam, I should hardly dare close my eyes in sleep. It instantly relieves Croup; also is an excellent medicine for Coughs and Sore Throat. Too much cannot be said in praise of it. I have recommended it to many others, who have tried it with equal good results.

Our rulers have come to think in milions. They have lost all respect for mere hundreds of thousands, and as for thousands of dollars, they are quite too trivial for account. For instance the proposed expenditure for 1881-82 as against that of 1880-81, is more than a nillion of dollars. That is more than the annual revenue of the Province of New Brunswick as it was before Confederation. Think of it. The revenue of a Province done away in the mere "toting up" of the figures and scarcely causing a moment's thought. But the people pay for all this, and the time has come, when to many a poor farmer on the sterile hillside, burdened with a blighting mortagage, that if he pays he starves. Could such a man, honest, industrious, economical but poor, come for a day to Ottawa and see how his rulers lavish away his hard earnings, he would record his vow to-day and his vote hereafter to sweep away the most extravagant and corrupt Government that

We have now the best of authority for stating that the resignation in question has been forwarded to Ottawa and been accepted by the Government.
