of detectives and every other means possible.

"If I could only get my boy," says Dr. Oberg, "I would be willing to forgive everyone who helped in his abduction, but if I don't get him I intend that the world shall know who helped to get him away from me."

Dr. Oberg claims that one of the women came to her on pretence of desiring osteopathic treatment and managed to establish herself on friendly footing with the doctor.

The other woman, Dr. Oberg says, was introduced to her in social way and in the course of conversation both women managed to secure considerable information of the addresses of Dr. Oberg's friends, and were particularly anxious about learning the exact train on which Dr. Oberg was to leave the city for Mattapan, where she intended spending the Christmas holidays with her little boy. NEW YORK SUNDAY

Ten Deaths From Heat Occurred-Summer

Resorts Saved Many Lives.

NEW YORK, July 13—Yesterday's intense heat of 93 degrees was appreciably diminished by cool breezes during the early morning, causing the mercury to drop below 80 degrees. At 9 o'clock the temperature stood at 79 degrees with a humidity of 62 degrees. Weather bureau officials promised cooling showers before the end of the day With ten deaths and numerous prostrations Sunday, the city was saved from an avalanche of victims by the fact that all who could do so, passed the day at the seashore or mountain resorts.

BAD-TEMPERED VOICES.

Kind hearts are more plentiful than persistently kind and gentle voices, and yet leve loses much of its power when the voice is sharp and hard. Try, therefore, most earnestly to acquire the right tone in speaking, and guard yourself carefully from falling into careless and bad habits of voice.

Often a sharp voice shows far more ill-will than the heart feels, but people do not know that the speaker's "bark is worse than the bite," and they believe him or her to be ill-tempered and disagreeable.

So watch the tone in which you speak and take care that it is gentle and sweet. A kind voice is like music in the home.

The first move in the direction of cheaper fire insurance in St. John was made today. At the regular meeting of the board of underwriters a resolution was passed reducing the schedule by twenty five cents per hundred dollars on comercial risks. This is to be effective from June 30ht.

Today's reduction, which has long of fire protection. While this phase of the question was not gone into very deeply, the remarks made indicated that the speakers looked upon the proposition in a not unfavorable light. Ident. Shackleton and party left London July 30, 1907, on board the Nimrod, a steam barkentine. Shackleton is an officer of the British Navy and before leaving London, King Edward bestowed upon him the Victorian Order, He was a member of the British Antarctic Expedition of 1902-03 under Captain Scott, and with hig commander and another member of the party accomplished a sledge journey with dogs to a point £2 degrees 17 mins, south latitude. Peary reached a point \$7 degrees ix minutes north on April 21, 1906.

Shackleton took with him a specially built motor sledge which he hoped to use in his Polar expedition and a number of Siberian ponies in addition to a pack of dogs. Peary will use only Eskimos and dogs.

Before leaving London Lieut. Shackleton was presented by Queen Alexandra with a British flag to carry with him on his southern dash, About the same time the daughters of the American Revolution gave Commander Peary a beautiful flag, made of silk, consisting of the Stars and Stripes surrounded by a broad field of white, to carry with him to the north.
