CHARLOTTETOWN.

Storms Are Causing Usual Trouble.

rrains Moved With Difficulty-Winter Boats Tied Up-Passengers Tied Up.

CHARLOTTETOWN, P. E. I., Feb 6.-After one of the fiercest snow fights in the history of the road, the whole railway line is now open, though much of the road is through snow cuttings from ten to fifteen feet deep. Should further heavy storms follow, it will be almost impossible to move the trains. One of the large new locomotives became badly disabled during the fight. The engine was thrown from the rails some unaccountable means. But the winter boats are still tied up and will remain so until a heavy southerly wind clears the ice now blocking Pictou harbor. Many passengers after waiting at Pictou for more than a week have gone back to Tormentine and crossed by the ice boats. In the meantime our mails are arriving fairly regularly via the Capes route.

The annual meeting of the Local Council of Women was held on Saturday afternoon. Among the matters receiving the attention of the Council during the year were the establishment of a Book Lovers' Library in Charlottetown, a reform in the treatment of boys confined in our jail, and the necessity of a truant officer in our schools pressed home upon the board. The following officers were appointed: President, Mrs. Gardiner; vice-presidents, Mrs. Bayfield, Poole, Campbell, Bruce, Moore, Coffin, McCready, and Misses Finnessey and Pippey; corresponding secretary, Mrs. Gordon; recording secretary, Miss Anderson; trea-

At the annual meeting of the Charlottetown Temperance Alliance the fellowing officers were elected: President, D. Schurman; vice-president, G. E. Full; secretary, J. D. Seaman treasurer, F. S. Moore. It was pointed out that in 1877, the last year licerses were granted in Charlottetown. there were 729 convictions for drunkenness, while in 1904, with two general elections, there were only 175 convictions. It was resolved to ask the government to make some further amendments to the act, tending to its easier enforcement.

...S A SURPRISE

mick's Promotion to the Paris Embassy.

ST. PETERSBURG, Feb. 12, 11.40 p m.—The official announcement of Ambassador McCormick's promotion to the Paris embassy is received with surprise and regret in diplomatic and official circles here, where it had beer understood that Mr. McCormick probably would retain his present post during the coming administration. Tele grams of congratulations began reaching the American embassy last night and today Mr. McCormick received the felicitations of many of his colleagues of the diplomatic corps. While naturally gratified by the manifestations of President Roosevelt's confidence con although he is not personally averse for London via Havre. to the change on account of the climate, Ambassador McCormick is loath to sever his many relations here and withdraw from such an interesting field at this time. The post of ambasador to Russia, at no time a bed of roses owing to the peculiar conditions

ficult during the eventful two years of | po Mr. McCormick's stay, requiring the exercise of tact and judgment of a tic, from New York; Ivernia, from high order. American interests clashed Bo sharply with those of Russia before the war, when Secretary Hay was earnestly fighting for the preservation of the integrity of China and the policy of the open door, and since the outbreak of hostilities there have been disputes over contraband and other questions. The difficulty of Mr. McCormick's position prior to the beginning of hos- from Boston.

tilities was distinctly increased by the sentiment prevailing in America fav- from Boston orable to Russia's adversary but largey by the maintenance of exceptionally cordial relations with Foreign Minister Lamsdorff and other officials. Mr. McCormick was able to conduct | for Tusket. the negotiations and resolve the varlous issues without friction, accomplishing at the same time the most difficult task of practically dispelling Russian distrust of the attitude of the American government Mr. McCormick also discharged the delicate mission of presenting the Kishineff petition, although it was fore-doomed to Bartram, for St Johns, Nfld. rejection; and last spring with better the recognition without discrimination of passports issued to American Jews, a matter which Russia has now favor ably decided in principle, the first ap plication being the incorporation in the recent German commercial teraty of a clause specifically permitting freedom of travel of Jewish commercial travellers. He also negotiated the corporation treaty and within a fortnight has induced Russia to recede from a counter proposal offered by her

as a substitution for Secretary Hay's original arbitration treaty. Mr. McCormick probably will leave for Paris the middle of March. Several weeks will be required to put affairs at the embassy in order for turning over to Mr. Meyer, the new ambassador, and making an extended round of official farewell visits to members of the imperial family and of the courts, members of the diplomatic corps, ministers and other officials. Mrs. McCormick will come at once to St. Petersburg to join in the formal adieux.

IN HARD LUCK.

George Munro Has a Broken Arm But No Money or Food.

A rather touching case of hardship came to light Sunday evening, when George Munroe, a young man about 19 years of age, sought protection in the central police station.

Muuroe, an Islander by birth, lives the misfortune to break his arm when Beacon of that place stated that Munroe was drunk at the time, but this has since been proven false. He was sent to the hospital in this city, and was discharged two days ago, but was Newport News; sch Oakley C Curtis, cautioned by the doctor not to use his arm. He had very little money, but expected to hear from his people shortly. He spent two days and nights at the Salvation Army Home, but yes-

terday his money had all run out, and Sunday evening he went to the police station, having had nothing to eat since breakfast, that being the army breakfast of a roll and cup of coffee. The officers gave him the usual shelter and also sent for some lunch. They report Munroe to be a bright, respectable youth, and it is evident that such hard times have not been common to him. It is likely that the U. S. consul will be appealed to, in order to get Munroe home. He says he would be all right could he get as far as Boston.
