HOLLOWAY'S PILLS.

Copy of a Letter from His Grace the Duke of Portland *to* Mrs. Ann Melish, *(one of his Tenants) whom His Grace was pleased to send as a patient to the Proprietor of this Extraordinary Medicine.*

Madam,

If Mr. Holloway will undertake to Cure you perfectly, when the Cure is complete, I will undertake to pay him £2 10s. You may show him this Letter.

(Signed) SCOTT PORTLAND.

Welbeck Abbey, May 31, 1842.

Copy of a Letter from the Most Honorable the Marquis of Westminster, K. G.

Lord Westminster has just received Mr. Holloway's Medicine, for which he returns him his best thanks.

Eaton Hall, Cheshire, Feb. 12, 1842.

THIS INESTIMABLE MEDICINE, being composed entirely of Medicinal Herbs, does not contain any mercurial, mineral, or deleterious substance. Benign to the tender infant or to the weakest constitution, prompt and sure in eradicating disease from the most robust frame, it is perfectly harmless in its operations and effects, while it *searches out and removes Complaints of every character*, and at every stage, however long standing or deeply rooted.

OF THE THOUSANDS *Cured by its agency*, many who were on the verge of the grave for a considerable period, (by *persevering in its use*) have been restored to HEALTH AND STRENGTH, *after every other means failed.*

ALL DISEASES, (and whatever may be their symptoms, however they may declare themselves, yet one cause is common to them all, viz : a want of purity in the blood and fluids) are cured by this Wonderful Medicine, which cleanses the stomach and bowels, while its Balsamic qualities clear the blood, give tone and energy to the nerves and muscles, invigorate the system, and strength to bone and sinew.

THE AFFLICTED need not give himself up to despair, as one without hope, but let him make a proper trial of the Mighty Powers of this astonishing Medicine, and he will soon be *restored to the blessings of Health.*

McKibbin's
Improved Sheathing, Dry Hair, Roofing, and other Felt.

IMPROVED SHEATHING FELT,

For covering Ship's Bottoms, &c.

The advantage this Sheathing Felt possesses over any other materials hitherto offered to the public, are such important improvements, as will recommend themselves, on inspection, to those ship-builders who have been in the habit of using Felt.

"In all the oldest Vessels discovered, the Hair was perfectly fresh, although the timber was in a state of decay. * * * The worm never penetrates through an inner sheathing of Hair. * * * The strong and adhesive inner sheathing has proved mainly instrumental in preserving vessels from sinking, when the outer sheathing or caulking have failed or been destroyed." [Teatise of the Institution of Civil Engineers.

IMPROVED DRY HAIR FELT,

For Steam Boilers, &c.

Dry hair felt is justly considered indispensable for the exposed parts of Boilers, Cylinders and Steam Pipes, by those who study economy in fuel, and is now becoming in general use in all large Establishments, and on board steamers.

THE IMPROVED ROOFING FELT

Is peculiarly applicable as a substitute for Slate, Zinc, Tiles, and other materials used for roofing for its economy, lightness, and durability.

AN IMPROVED IMPERVIOUS FELT,

Which, for the inside of walls, will be found an efficacious remedy for dampness, etc.

McKibben's Improved ROOFING FELT.

IS peculiarly applicable as a substitute for Slate, Zinc, Tiles, and other articles used for Roofing, from its Economy Lightness and Durability. The disadvantages attending other materials used in roofing, preventing, in Agricultural Districts, many useful houses and sheds being erected, or rendered water proof, it is submitted that the *Improved RoofingFelt* will in a great measure and in some instances altogether obviate them, and prove most serviceable, from its lightness, durability, and impermeability to water and damp, in covering Houses, Cattle sheds, Pork shops, &c., and for the sides, as well as roofs, of light structures for Plants, besides its economy in repairs, the timber where it is used may be so light as to save its whole expense ; it requires no other coping and may be applied by any person of common ingenuity, being Flexible and Portable, also it is free from breakage, and the expense of carriage is inconsiderable, in comparison with slates, tiles, &c., &c., it is not liable to contraction like Zinc.

Sold in sheets 32 inches by 20 at 7½d each, (being less than 1¾ per square of 100 feet) with printed directions for applying them.—In cases where Buildings and Warehouses require new shingling the Patent Roofing Felt will be found more permanent, and a sure preventative against Fire.
