E. A. Bluba has returned from an enjoyable trip to New York.
With surprise and great regret the intimation was heard Wednesday morning that death had come to Capt. Samuel O. Crowell, marine superintendent of Pickford & Black's steamship lines. It was hard to realize. He was a most quietly efficient man, very unobtrusive, and he out of his avocation and his associations, was not at all much in the public view, except during a long active career, as many who were less important factors in the movements of the time, auxiliary to the nature of the business in which he was engaged.

At the North End Rink Monday night, had all attributes of success, and the small attendance of spectators was the only drawback. There was excellent ice, magnificent decorations, first class music, and a good show on the ice, but not more than 150 spectators there. The carnival have been requested by request there were many in the same costumes as on the 1st at occasion. Altogether there were about 500 skaters in fancy dress. The Leinster regiment band had a splendid programme, including selections from the Runaway Girl and Chimes of Normandy; and the 1st R. C. A. band also played delightfully a programme of taking selections. Those who were present greatly enjoyed the evening.

The death occurred at an early hour Tuesday morning, after an illness of about a week, of John Duffy, the well known fish dealer, formerly of the firm of Brackett & Duffy. Mr. Duffy came to Nova Scotia from Ireland about fifty years ago and for a few years fished out of Halibut Bay. There he used to act as a sort of agent in the city for the fishermen in the vicinity of Herring Cove, and later on embarked in the first business buying from the fishermen when they came to the city.

"Doctors failed to reach my case and advised me to try a higher air."

There is no greater irony than a recommendation of change of climate to those whose circumstances make change of climate impossible. How many a sufferer in such a case has wistfully watched the flight of the south-seeking birds, and cried with the Psalmist, "Oh that I had wings." But suppose you can fit the climate to the lungs. That is what has been found possible by those who have used Dr. Pierce's Golden Medical Discovery. It so purifies the blood, removing the clogged and poisonous conditions favorable to disease, that the whole body is strengthened. With new strength comes new power, and disease is resisted and thrown off.

There is no alcohol, whisky or other intoxicant contained in

Dr. Pierce's Golden Medical Discovery.

"I feel that I owe a debt of gratitude to you for preparing such grand remedies for chronic diseases especially, which the doctors failed to reach," writes J. B. Staples, Esq., of Barclay, Osage Co., Kans. "I am a railroad agent, and four years ago my work keeping me in a warm room and stepping out frequently into the cold air gave me bronchitis, which became chronic and deep seated. Doctors failed to reach my case and advised me to try a higher air, but, fortunately for me, a friend also advised me to try Dr. Pierce's Golden Medical Discovery, and by the time I had taken the first bottle I was better, and after taking about four bottles my cough was entirely gone. This was a year ago last winter, and again last winter I took about three bottles to prevent a return of the trouble. I have found no necessity for seeking another climate."

Dr. Pierce's Pleasant Pellets are powerful aids to the cleansing of the clogged system. By all dealers in medicine.

The Annual Fever.

We're hunting a house—do you know of one with bath and a furnace and closets and gas; Well, clean and neat and plenty of sun, And a plot in front having lots of grass? A garage where traps can be stored away, And a nice backyard for Bobbie and Sue, And a barn for the horse and oats and hay, And a summer kitchen and woodshed, too.

We're hunting a house—and it must be where The children can easily walk to school; Not too far out from the Court House square, But still the location must be cool. The paper and paint must be fresh and clean; The place in the best condition be. Perhaps you've a house that should be seen, Please tell us where we can get the key.

We're hunting a house—as the one we're in For fully a year has sheltered us, Hence now it is time that we begin To have our annual 'moving' fuss. The season is here and a vague unrest Has driven the people for hundreds and, So we will change to a neighbor's nest— And others will enter the one we've had.
