

7. SIGNALS

(a) Equipment

- (i) Delivery of Canadian made No. 11 Wireless sets has started and will reach 30 per week by 15th September.
- (ii) Thirty Wireless sets C.18 are being completed at C.S.E.B., Ottawa, for use at C.S.T.C., Barriefield, and Eastern and Western Canada O.T.Cs.

(b) Communication

- (i) Three highly qualified wireless operators have been selected from Corps Signals Overseas for attachment to the British Air Ministry Station to study British methods. On completion of this training, the operators will be posted to the Ottawa Radio Station. Improved cooperation between the British Air Ministry and the Canadian Army will result.

(ii) Traffic - Ottawa Radio Station
