

an Endowment Fund, such as is recognized as necessary in connection with any institution of this kind, in order to the permanent maintenance of additional professorships, and the increased effective force of the whole foundation. They have been induced to believe that such an appeal will be favorably regarded and will meet with a liberal response ; but in order that it may be made with more confidence, they desire to be in a position to show not only the fact that the College is and has been since its incorporation doing effective work, the scope and character of which may be widened and perfected, but that it has the warm sympathy and practical support of the churchmen of the Diocese ; and may also feel that the fund for the general purposes of the College will be so well provided for, that the purpose of such special endowments shall not be defeated, nor their benefits minimized by an insufficient general support.

The Council ask of each member of the Church of England in this important Diocese a careful consideration of the whole matter, and a liberal response in proportion to his ability, and they are the more confident in their appeal, not only from a knowledge of the general welfare of the Diocese and the condition of substantial wealth and prosperity which generally obtains, but that they also believe that the responsibility incident upon such condition is becoming more widely and practically acknowledged. They embrace this opportunity of appending a list of those who kindly subscribed towards the erection of the recent additions to the College Buildings, and of thankfully acknowledging the timely assistance.

Subscriptions towards the current expenses of the College, addressed to the Bursar, Mr. V. Cronyn, London, Ont., will be thankfully received and their receipt duly acknowledged by mail and in the Church or College journals.
