CANADA FOR T

By Dr. C. G

There have been the last few years Canada is receiving than previously. N favourable signs the proportion, too larg fruit growers and realize the importan bees on the farm, the garden, and the ducts. There are o they may not be av bees are valuable a and orchard, never bees if they knew ho tinue. This fact is the large number o continually being re of most of which is a like to keep bees an if you would tell me what to do." This chief object the answ tions. It is not inte haustive account of a but a guide to those of bee-keeping is lin no previous knowledg branch of agriculture been written as a gui but also with the des number of bee-keepers of Canada by indicati of bee-keeping and the interest of farmers an its advantages.

Briefly, the advanta
