THE ADVANTAGES

of a good ready roofing over any other covering are well known. Ready roofing is less expensive than shingles, sheet-metal or slate—it can be laid in a fraction of the time and with a fraction of the labor—and it is fire-proof. But, make certain of getting a *good ready-roofing* when you are buying.

SAMSON ROOFING

is made to meet the requirements of particular buyers—the people who investigate thoroughly and make *sure* of the quality of everything they purchase.

It is also made to be sold under a guarantee.

Write for our booklet "The Roofing of Farm Buildings"—and you will understand why *Samson Roofing* stands every test. 6

DICK LEVER PLOW WHEELS

OUR LEVER WHEEL Attachment will fit nearly all plows. This Attachment is superior to all others, in that, by the lever you can change the depth of the furrow and in finishing the last furrow, you can throw the land wheel up over the plowed land, whilst with other wheels you have to unscrew a set screw and take off the land wheel in order to finish the last furrow. Another advantage is, the land wheel is opposite the point of the share, thus allowing the plow to go down and take up low places. The wheels are easily adjusted to the width of the furrow.
