"THE RACER"

THIN BACK, LANCE-TOOTH, CROSS-CUT SAW

THE MAPLE LEAF RACER AND LANCE CROSS-CUT SAWS are now sold in all parts of the world. The quality of these saws is unequalled. Their excellence is wholly due to their superior temper, the process of which is kept a profound secret by Shurly and Dietrich, the manufacturers of these saws. One of the best evidences of their superior quality is that other saw manufacturers put on the market as close an imitation of these saws as they are able to produce, and represent it to be as good as the Maple Leaf saw. They run their saw upon one name until the public become familiar with its inferior quality, then they change the name, in order to humbug the public another season. All of which is the very best evidence of the superior quality of the Maple Leaf saw, as it is not the custom to counterfeit a poor article. These counterfeit saws can be bought for, the dealer, of course, endeavors to sell them at nearly the same price, thereby realizing a larger profit. And some of the more unprincipled dealers, in order to sell the counterfeit saw, will tell untruths of various kinds regarding the quality of both the genuine and the counterfeit. Good goods are always cheap; poor goods are dear at any price. A saw like a knife will not cut fast unless it will hold a keen cutting edge. Price \$1 per foot. Manufactured only by
