FALL THE TIME TO FENCE!

A very successful farmer says that he has found it much better to put up fences in the fall, from the time when harvest is over until the ground is too solidly frozen to set posts. Posts set in the fall keep more solid than those set in the wet, spongy ground of spring. The rush of farm work is not so great as at spring seeding time. Then, if it is Page fence you put up, it will not drift snow during the winter as the old board or rail fence will. It will be a satisfaction to you to see how well your Page fence goes through the winter, when you compare it with the makeshift wire fences.
