

Look for the rooster on the roll

32

Get samples of the roofing that has the crowing cock on the wrapper. **WE WILL GLADLY SEND THEM** to you. Soak them in water. Rip them apart and examine them, detail by detail. Study the long-fibred wool base. Note how the ASPHALT is forced into every shred of the material. Then consider that Toronto's most modern fireproof sky-scraper—the Standard Bank's new and splendid home—is roofed with

Brantford Roofing

It meets every fire-test. It survives wear-tests no other roofing can possibly stand. Yet it costs no more than paper-base, quick-decaying kinds!

SEND NOW FOR BOOK AND SAMPLES

Sit down and say (on a post-card, if you like) "SHOW ME." We will prove to you that the roofing YOU want bears the trade-mark that appears here. Write us to-day.

The Deering Binder Picks up Down and Tan- gled Grain

On the Deering Binder the guards are so placed that the machine can be tilted to cut close to the ground without pushing trash and stones ahead of the knife. This means that the Deering Binder picks up down grain.

The Deering Reel can easily be adjusted high, low, forward, or backward, to save grain in all conditions, short, tall, standing, down, or tangled. It can be shifted quickly to push short grain and green undergrowth from the guards to the platform canvas.

The Deering Binder is equipped with a third packer. It reaches up close to the elevator and pulls down the grain to the other two packers, preventing choking at the top of the elevator. The new Deering breast plate is designed to permit the needle to enter without pulling straws through the breast plate on to the bill hook. This also eliminates choking at this point.

The third discharge arm is a very effective aid in throwing out

the bound sheaves and assists in separating the tangled grain of the bound sheaves from the unbound grain on the binder deck. The binder shifter lever is directly in front of the driver, and convenient to operate.

There are many other features of Deering Binders which you ought to know about. The Deering agent in your town will tell you all the facts. If you prefer, write direct to the nearest branch house below for catalogue. Deering mowers, rakes, and other harvesting and haying machines and tools are as efficient as the binders. Ask to see them.

I H C Service Bureau

The purpose of this Bureau is to furnish farmers with information on better farming. If you have any worthy questions concerning soils, crops, pests, fertilizer, etc., write to the I H C Service Bureau, and learn what our experts and others have found out concerning those subjects.

Buy a Wagon That Will Last a Lifetime!

It is not an uncommon thing for a T.-K. Handy Wagon to be used 20 years without a cent of expense for repairs. But up-keep cost is the least of its virtues, for this wagon combines more practical adaptability, convenience, durability and actual earning power per dollar invested than any other wagon on the market. It makes farm work easier and more profitable. Investigate!

TK

Handy Farm Wagons
and Wide Tire Steel
Wheels

Equip your wagons with T.-K. Wide-Tire Steel Wheels and eliminate all possibility of accidents on rough and rocky roads, delays and need of lightening the load over sandy and muddy stretches. These wheels are flawless in design and strong as a steel bridge, yet weigh no more than wood. They lighten the draft on horses from 25 to 50 per cent., and are the greatest savers of time and labor that a farmer can employ.
