

PROSPECTUS
OF
The Wellington Gold Mining Co.
OF MADOC, (LIMITED.)

To be Incorporated by Letters Patent under the provisions of the Act 27 and 28 Victoria, Chap. 23, and amendments thereto.

Capital Stock \$200,000, divided into 40,000 Shares of \$5 each, of which \$100,000 is reserved for Working Capital.

DIRECTORS.—Hon. John Carling, M.P.; Adam Crooks, Esq., Q.C.; John Crawford, Esq., Q.C., M.P.; Thomas Lailey, Esq., Merchant; A. M. Smith, Esq., President Royal Canadian Bank. Manager and Superintendent, Hugh R. Fletcher, Mining Engineer. Secretary and Treasurer, H. S. Ledyard. Solicitors, Messrs. McMurray & Rae. Bankers, The Royal Canadian Bank.

This Company is organized for the purpose of developing the mineral resources of ten acres upon the Richardson Ridge, being part of the West half of Lot Number Eighteen, in the Fifth Concession of the Township of Madoc, and for the purpose of smelting or otherwise preparing for market the ores of all kinds of metals and minerals, together with the acquisition and disposal of all lands, mines and ores, that may be found of advantage to the interests of the Company.

The property of the Wellington Gold Mining Company of Madoc is situated upon the West end of the Richardson Hill, and a continuation of the Quartz lead, upon which the celebrated Richardson Mine is located, passes through the entire length of the property, and gives facilities for mining upon 890 feet along this lead.

Another Quartz lead also extends through the entire length of the property, which is supposed to be a continuation of the vein upon which several mines on the Moore Farm are situated, namely, the Eldorado, the Moore Mine, The Royal Canadian, the Excelsior Mine and others, and the property is bounded on the East side by the Richardson Farm, and the Territory of the Union Mining Company.

The land of the Wellington Gold Mining Company possesses many facilities for mining operations; it lies upon a hill of such elevation that no trouble will be experienced from water, and upon the North side there is every convenience for a good dumping ground.

The discovery of the Richardson Mine was made owing to the appearance of purple copper ore upon the surface, and there are portions of the Wellington Company's property upon which are even richer shows of copper ore than at the Richardson; and as this property is situated upon the same hill as the Richardson Mine, having the same geological formation, and the same quartz leads continuing through it, there is no reason to doubt that the property of the Wellington Company will, when developed, rival in richness even the celebrated Richardson Mine.

Some samples from the Richardson Mine having recently been tested by Scott & Taylor's Crushing Mill, at El Dorado, 26 ounces of fine Gold of the value of \$546 were obtained from four and a half tons of quartz, giving \$121.33 as the average yield per ton, and a ton of quartz from the El Dorado Mine has produced an ingot of Gold valued at \$53.85.

Mr. Benjamin Lombard, of the Richardson Mining Company, states that he caused two assays to be made of samples from the shaft now sunk upon the property of the Wellington Company, to the depth of twelve feet, which yielded respectively \$36 and \$62 of Gold and Silver to the ton, and from five pounds of average ore taken from the shaft, Mr. Wyckoff, Assayer, of Madoc, returned \$22 of Gold and Silver to the ton, and as these assays were all made from specimens taken from the second lead upon this property, which is not a continuation of the Richardson Mine lead, and comparatively near the surface, no stronger evidence need be adduced of the exceeding richness of the leads upon this location.

It is proposed to continue the shaft already commenced, and also to run a tunnel through the hill, which will at once show the extent and number of mineral veins traversing the property, and thereby give great facilities for working them, and obtaining the ore therefrom in large quantities.

Developments will speedily be made upon the hill in addition to the work contemplated by the Wellington Company, as the Richardson Ridge Gold Mining Company are about to sink a shaft upon adjoining territory.

One Dollar per Share to be payable on application, and the remaining \$4 per Share in four equal monthly payments from November 9th, 1887.

Applications for Stock and other communications to be addressed to the Secretary.

Briton Medical and General Life Association,

with which is united the
BRITANNIA LIFE ASSURANCE COMPANY.

Capital and Invested Funds.....£750,000 Sterling.

ANNUAL INCOME, £220,000 STG.:
Yearly increasing at the rate of £25,000 Sterling.

THE important and peculiar feature originally introduced by this Company, in applying the periodical Bonuses, so as to make Policies payable during life, without any higher rate of premiums being charged, has caused the success of the **BRITON MEDICAL AND GENERAL** to be almost unparalleled in the history of Life Assurance. Life Policies on the Profit Scale become payable during the lifetime of the Assured, thus rendering a Policy of Assurance a means of subsistence in old age, as well as a protection for a family, and a more valuable security to creditors in the event of early death; and effectually meeting the often urged objection, that persons do not themselves reap the benefit of their own prudence and forethought.

No extra charge made to members of Volunteer Corps for services within the British Provinces.
