TOWN DUMP IS PUBLIC NUISANCE.

In the Appellate Court of Indiana, the city of Newcastle, in that state, was recently found guilty of maintaining a nuisance in the nature of the "town dump." The judgment was that, while a town was charged with the duty of preserving the health of its citizens and was within the bounds of its governmental functions in providing a suitable place in which to deposit garbage, yet it might not deposit such garbage at such place in a careless and negligent manner, thus causing a nuisance, nor negligently permit it to escape upon the lands of another to his damage, also, that a municipal corporation has no more right to maintain a nuisance than an individual has, and for a nuisance maintained upon its property the same liability attaches against it as against an individual.

ZANZIBAR.

Zanzibar, now figuring as a possible pawn in an Anglo-German deal, has not come into the British Empire without paying a heavy price in blood and treasure. The island of Cloves was visited for the first time by the British fleet during the Napoleonic scare era, but since then we have kept the upper hand. Very uncomplimentary things have been said about the people of Zanzibar. Prof. Drummond found the island in 1888. "Oriental in appearance, Mohammedan in religion, Arabian in morals—a cesspool of wickedness, fit capital for a dark continent." But the British residents appear to have a good time—big dinners, golf tennis, and cricket. The local cricket team, indeed, can be beaten only by the combined strength of the British fleet, "once a year, and sometimes not even then."

GETTING ORDERS.

Business Manager: Well, how many orders did you get yesterday? New Salesman: I got two orders in one place. Business Manager: That's the stuff! What were they? New Salesman: One was to get out and the other was to stay out.
