—In making our statement in last week's issue in reference to the Act of the Ontario Legislature making better provision for the widows of husbands dying without a will. We should have said that it is only in case there is no issue that the widow gets the benefit of the one thousand dollars mentioned. —The noted Holmes murder trial commences a week from Monday, 28th inst. There are eight witnesses summoned from Toronto. Detective Guyer feels confident that he has secured sufficient evidence to convict this foul fiend. His murders that are positively known, number four and are as follows: Benjamin Pitezel and his three children Alice, Nellie and Howard.

—There is more freight left off at the Mildmay station than at any other station on the line. Mildmay is also the best shipping point on the Southampton branch. Business men will find it to their advantage to located in this go-a-head little town. This is one of the liveliest business towns in western Ontario. The shipping facilities are unexcelled, the railroad being very convenient to the town.

—If you intend having an auction sale this fall it will pay you to get your bills printed at this office. We never yet failed to draw a crowd with our attractive posters. See the auctioneer and secure your date and let us do your work. When we print the bills we give you a free notice in the paper, which alone is worth the price of the bills. We are noted for our promptness. Bring along your list and get your bills home with you.

—Now that the harvesting season is over, it will pay our farmers to place their implements under cover before the fall rains descend. There are a number of farmers who are careless in this respect. Any implement that is left out in the rain and sunshine alternately soon becomes useless. Supposing a merchant was to leave his goods out in all kinds of weather, how long would they last. This is a subject that should occupy every farmers' attention.

—In conversing with a builder the other day in reference to the erection of a skating and curling rink 200 feet by 80 feet, he estimated that the cost of building would only be about \$200. Now supposing twenty persons should join themselves into a joint stock company at \$10 a share, the amount would soon be raised and Mildmay would soon have a skating rink. The cost would easily be eradicated in one season by issuing season ticket and carnivals. The cost of keeping the ice in proper shape would be trivial. There are places of about 500 and 600 of a population supporting a skating rink, why should not Mildmay be able to do so. In the summer time the building could be used as a gymnasium. Mildmay has a large number of young people who must have somewhere to spend their winter evenings. Skating and curling is grand exercise.

—We received a copy of the Montreal Daily Star this week which is a grand paper and is equal to any of the Toronto dailies. The subscription price is away down.

—L. J. Sarjeant, general manager of the G. T. R. has resigned his position and accepted the vice-presidency of the Wabash system. Chas. M. Hays is the new general manager.

—Joseph Schuett has had the poplars, which have stood on Main street for so many years, cut down this week. It has improved the looks of the town, greatly, making the view more clear from one end of the street to the other.

—John Hessebauer, who formerly kept the boot and shoe shop, now conducted by John Hunstein, has formed a partnership with J. J. Lembke of Walkerton. He moved his family to that town last week.

—J. Schuett & sons, thinking there were not blacksmith shops enough in town, have fitted up the building on the property lately purchased by them for a blacksmith shop. They intend to do their own iron work henceforth.

—The private banking concern of S. Barfoot of Chatham, has gone into liquidation. A large number of farmers in Kent county are deeply interested. Mr. Barfoot has been in business for some 25 years. The estate will pay dollar for dollar.

—Any person purchasing \$1 worth of goods for cash has a chance of winning a beautiful silver tea service, valued at \$18. Second prize, portrait and frame, worth \$3.50. These articles are now on exhibition at our store. Herringer & Scheffter.

—That farmer must have had a hard time of it plowing amongst those large boulders. Why don't he get a stone boat and haul them into heaps, and not have those folks stumbling over them," said a commercial traveller to his driver as they passed a field near Tavistock where several people were working. "Them's potatoes that he's plowin' up, not boulders," said the driver, "and them other folks is a gatherin' of them."—Tavistock Gazette

—That must be good land Bro. Green.

—Business men who are in partnership but those whose partnership has not been registered have reason to fear trouble. It may be news to some that they are liable to a fine of \$100 for doing business without having their declaration of partnership registered in the county registry office, and this applies not only to the firm, but to each partner therein. For 50 cents a partnership or dissolution can be registered, and in the cases of the direct business men it is probable they are ignorant to the law in respect to the penalty. There are no saving clauses in the act, which distinctly says the fine is \$100 for those firms whose partnerships are not registered within six months of their formation.

—In looking over the Whitby Chronicle last week we came across an article in the Port Perry correspondence in which it was stated that a Mr. Pew from Welland was in town negotiating with the business men in reference to running an electric railway from that town to Kincardine, a distance of 150 miles. Mr. Pew estimated that it would cost \$5,000 per mile to lay the track and \$1000 per mile to lay the over head trolley wire. If this project is carried out the new line will cross nine or ten different railway lines in that distance. This would be a grand thing. From the correspondent's tone of writing we think that the new project will be a go. Of course there has been no legislation passed yet granting the company a charter, but that will come in the near future. If the company take Mildmay in on their route their line will be a success without a doubt.
