

More than one best?

When you ask your grocer to send you the best flour, he sends you—his best. When you know the best flour and order by the name, the choice is not left to the grocer. Many grocers handle

Royal Household Flour

as their leader. They have found it the safest flour to recommend because its results are sure and its purity is unquestioned. If your grocer's best is not Royal Household, insist on his getting it for you. The benefit will be mutual.

YOUR DISPOSITION.

It is a Factor in Making or Marrying Your Beauty.

There is no more potent beautifier than disposition. If those who spend time and money in an anxious pursuit of good looks at the hands of professional beauty makers would devote just a portion of this time to the cultivation of a beautiful disposition results would be even more gratifying.

A happy way of looking at life is the best eye brightener and a calm that defies disturbance the most potent complexion lotion.

It is said of a certain young actress that she has discovered beautifying possibilities in the reading of poetry. She selects a certain kind to produce the particular expression she wishes, but all good poetry she finds conducive to the cultivation of beauty.

It is perfectly true that our reading is reflected in our face. The thoughts produced by reading noble sentiments finely expressed are mirrored in our features quite as surely as are the less lofty emotions produced by poring over flabby, excitable, morbid or injurious reading matter.

If you don't believe this contrast the serene, thoughtful expression of a lover of good poetry with the face of one who habitually feeds on "yellow" literature.

What you read and what you think helps to make your disposition. And your disposition largely makes—or mars—your beauty.

KITCHEN COMFORT.

Have a Place to Rest While You Are Compelled to Wait.

Be sure to have an easy lounge or chair in the kitchen, where you may spend a few waiting moments between meals, as it were, in rest. If you cannot afford to buy a lounge especially for that purpose make one. This is easily done. Get two long boxes from the dry goods store. Place them end to end and nail together. Make a mattress and fill it with any desired material. Shredded stumps are clean and excellent. Over this drape any kind of cover to suit the fancy. Be sure to get something that can be washed and ironed. Red and white bed ticking is pretty and desirable and never fades and when laundered looks as good as new. Make a pillow to match. Now, while you are watching the cakes, bread, pies and the like remember there is your lounge. Rest. Do not say you have no time. You have to wait for your baking to be done. Why not rest while you wait? You will be surprised how much refreshment you gain even for one minute's relaxation upon this improvised lounge.

THE HOME DOCTOR.

Swelling pimples with turpentine will often heal them quickly. Remove the cause by hygienic living.

Don't go for the medicine bottle until everything else has failed. Let nature, which means fresh air, do the work of cure.

An old fashioned remedy for sore throat that is said to be quite effective is a salve made from a strip of bread soaked in milk. The salve can be placed with a red-hot seal.

If a pan of cold raw onions is placed in a room in which there is dysentery they will absorb the poison and prevent the disease from spreading. The onions should be renewed every day.

For severe stomach ache wring a square of house flannel out of boiling water, fold into a soft pad, lightly sprinkle a small teaspoonful of turpentine over it and apply as hot as possible. This is also excellent treatment for chest colds.

Unjust Partiality.

Frances, a girl of thirteen, was destined by her mother to be a fine musician. While still a little child she was taught to read the notes and her tiny fingers were placed on the keyboard. Year in and year out the child was obliged to practice, and she acquired a measured amount of skill, but her playing was wooden and spiritless. In due time her mother said to her, "What do you expect to be when you are grown-up?"

The girl sighed. "When I am grown-up, mother, if I have a house of my own the first thing I shall do will be to order the piano chopped up for kindling wood. I want to be a doctor."

As time passed musical studies were dropped, and duly Frances went to the medical college. At last she was allowed liberty to grow in her own proper direction. She is a successful physician, treating nervous disorders with rare sympathy and understanding. Margaret E. Sangster in Woman's Home Companion.

The Great North Country

Nimrod was a mighty hunter, but had he hunted in the "Highlands of Ontario" he would have been a mightier one. Nimrod hunted for glory, but those who go into the several districts of Northern Ontario hunt for game. Those Indians who made the first canoe of birch bark long ago, were our greatest benefactors. The children of these Indians know the canoe, and they know how to use it, and they know just where the moose and deer are to be found. They will be the best guides you ever had. "The Muskoka Lakes," "Lake of Bays," "Maganetawan River," "French River," "Temagami," "Georgian Bay" and several other districts in this Great North Country abound with deer and moose. The best hunting on the American Continent is offered here. Write the undersigned for copy of "Haunts of Fish and Game," an illustrated publication issued by the Grand Trunk Railway System, giving all information, game laws, maps, etc. J. Egyptian Cloth.

The cloth of the old Egyptians was so good that, although it has been used for thousands of years as wrappings of the mummies, the Arabs of today can wear it. It is all of linen, the ancient Egyptians considering wool unclean.

The Snow King.

Gustavus Adolphus was the snow king, from the fact that his dominions were termed the Snow Kingdom.

Crowns and Heraldry.

In heraldry nine different varieties of the crown are recognised as insignia of rank—the oriental, the triumphal or imperial, the diadem, the obdual crown, the civic, the crown vallery, the mural crown, the naval and the crown celestial.

British Standard Measures.

The standard measures of Great Britain are preserved in the archives of parliament.

Maize.

Maize is Indian corn. Crushed maize is known in Ireland as "strabout," in Italy as "polenta" and in America as "chimy." It is less stimulating than wheat. Corn flour is a preparation of maize. Crushed maize boiled with milk, sweetened with sugar and dashed with cream is one of the most fattening foods.

The Digit.

The digit, a Hebrew measure of length, was a little over nine-tenths of an inch. It was taken from the second joint of the right forefinger.

Pansies.

Pansies, ever since Shakespeare's time and perhaps for ages before, have been symbolic of thoughts or remembrance. Two or three poets, 100 years earlier than Shakespeare, mention the flower as having this symbolism.

Buckle's Literary Monument.

Buckle devoted nearly twenty years to the collection of materials for his "History of Civilization." He wrote only a portion of the introduction, which remains a great monument to his literary and philosophical teachings. If the work had been finished on the same scale as begun, 100 volumes would not have sufficed.

Four Leaved Clover.

In some parts of Ireland the presentation of a four leaf clover by a young man to a young woman is considered equivalent to "popping the question."

Venezuela.

The summer season in Venezuela lasts from November to April. The winter season lasts from April to November. The climate of the temperate part of the country is the finest in South America, the most equable and the most salubrious outside of Peru. The women of Venezuela are of the Spanish type and are celebrated for their beauty. The language of the country is Spanish.

Believed.

"You seem to be in a particularly happy frame of mind this morning, Mr. Wadsworth."

"I am. For several months past I have had a suspicion that my private secretary and my stenographer were in love with each other."

"And have you found that you were mistaken?"

"Yes. He came to me last night and asked for my daughter."—Judge.

School Board Meeting

A special meeting of the public school board was held on Monday evening.

Respecting the over-crowded condition of the first form, a letter was read from Inspector Kinney advising that a fifth teacher be engaged. This course the board decided to follow.

It was authorized that about 18 tons of coal be purchased from Mr E. J. Purcell.

The property committee was instructed to have storm windows attached to all the windows of the school.
