REVELS IN REAL ESTATE

Col. Sam. Holmes Blossoms into
a Wealthy Land Monopolist.

Is now Negotiating With a New York
Syndicate With a View to Leasing
His Acres.

"I own 5,000 acres of land in Do-
ver; yes, sir, 5,000 acres," said Col.
Sam. Holmes this morning, and he
dwelt fondly on the 5,000 as he ut-
tered it. It was evidently a new ex-
perience for the genial Colonel to be
a wealthy land owner.

"I never knew how much land I
owned until yesterday when John
Holmes, Robt. Pritchard and myself
went out to my farm at Mitchell's
Bay. The water has gone down and
left a half-mile of land tacked on to
the rear of my farm. It is all pure
white sand and as hard as a board.

"There were 20 rigs driving on my
new farm and as many bicycles. The
ground is well packed and makes
splendid wheeling.

"I expect to make lots of money
out of my farm this year. You see,
some of it is marshy; so I am using
that part of it for raising wild rice.
Then a company in New York is go-
ing to start a frog farm at the Bay.
I have offered them the use of my
farm and if they accept I will make
\$2,000 a year out of the frogs."

And the newly acquired land owner
sat down to this kit all over.

WORSHIPPED IN DECOLLETE GOWNS

Ladies Furnish a Novel Spectacle at a
London West End Church.

London, April 29.—A novel spectacle
was presented here last evening, men
and women attending a West End
church in evening dress. Dr. Gray,
the incumbent of St. George's, in Al-
bemarle street, has instituted special
late services for fashionable people,
who profess that going to church even-
ings. Many women attended in de-
collete dress, with theatre wraps. Dr.
Gray found it necessary to explain
that it was not, as supposed, an even-
ing dress service, but still there was
no reason why people should
not attend in evening dress if it was
convenient for them to do so. It is
possible that the innovation will be-
come fashionable, especially while it
is a novelty.

St. George's is the chapel where
Thackeray immortalized the Rev. Mr.
Hodgkyn in the "Newcombes."

Louis G. Evans, of the 90th Batt.,
was fined at the Winnipeg Police
Court for neglecting to attend drills.

WAS SUDDENLY TERMINATED

A Case Postponed Owing to a
Rather Peculiar Reason.

Ottawa, April 29.—A suit at the assizes
came to a sudden termination Saturday.
Joseph Marshall was suing Samuel
Armour, a contractor, for the death of the
former's son, Wm. Marshall, who was killed
in an excavation made by Armour.
When the court adjourned for lunch the de-
fendant was in the box. His Lordship
omitted the usual precaution to the jury
that while out for dinner they were not to
talk to any one about the case, nor discuss
it among themselves. His Lordship went
back to give the jury the warning, and
found that the defendant was explaining his
case to them with ardor. When the court
resumed the judge refused to proceed
further, and sent the case over to the au-
tumn sittings.

A FLOUR SAVER.

John Piggott & Sons, of this city,
have secured the Canadian right to
manufacture and sell what is known
as the Davidson detachable and finish-
er, a patent flour attachment, and
intend to manufacture them on a
very large scale.

They secured the right on January
2nd and have since then given it sev-
eral good tests, which have proved
very satisfactory, showing that it is
a good thing, and have not yet had
one word detrimental said against it
in any way.

It is claimed for this machine that
the flour it recovers from the bran
and shorts will pay for the price of
it in one month. It requires so little
floor space and power that it can be
set in places where no other machine
for similar work can be put.

They have not yet decided whether
they will manufacture them here or
at Chatham, but in either case will
have to double their staff where they
make them and enlarge their factory.

A WARLIKE FIND.

Ex-Ald. John Liddy states that Mr.
McLaren, the Mitchell's Bay stage-
driver, told him that Mrs. McLaren
had found an old flint-lock shot gun,
made in 1812, a rifle, a jack-knife
and an old hand-made axe just off
Tick-a-Tack Point at Mitchell's Bay.
Mrs. McLaren found the arms in the
sand exposed by the low water. Ald.
Liddy says that there must have been
axe-ident there at some time, and
that the boat had evidently upset.
