## Lowell, Mass.

We have had a very mild winter—a little snow, which of course did not last long on account of the warm weather. There is no snow at present. There has been plenty of work through the winter months, all the manufacturing industries have been very busy. Cotton goods being the principle manufacture. The automobiles have been running all winter. There has been very little sickness since the first part of the winter when the epidemic of scarlet fever was raging. There were over 800 cases but the snow storms and rain purified the air and by the skilful work of the health department it was driven out. Being a citizen of New Brunswick myself I appreciated the mild winter very much and the different privileges that I enjoy in the city that we do not get in the country. But of course we have several in the country that we do not enjoy here and I think when we even it up there is no place like home, no difference what country it's in.

## Charles Flanagan.

The death of Charles Flanagan occurred at his home on Feb. 12. He had been confined to the house for several months by cancer of the stomach. He was 54 years of age. He leaves a widow, a step-daughter, Mrs. George Nicholson, two adopted children, John Boone and Rose Taylor of Connell, and aged mother who feels her loss most keenly, four sisters and two brothers. Mr. Flanagan was a member of the

Free Baptist church and was constant in his attendance at worship. The services were conducted by Rev. C. W. Walden.

## Twitching of the Nerves

A Distressing Symptom of Nervous Exhaustion Cured by Dr. Chase's Nerve Food.

Mrs. John McKellar.

What sympathy you feel for anyone whose nerves twitch and jerk, and what resolves you make to never allow your nervous system to become exhausted, until paralysis of some form claims you as a victim. The only way is to watch the warning symptoms, such as sleeplessness, headache, indigestion, tired feelings and irritability. By the prompt use of Dr. Chase's Nerve Food you can feed the feeble, wasted nerves back to health and vigor, restore the vitality of the body, and prevent serious disease.

Mrs. John McKellar, 11 Barton street east, Hamilton, Ont., writes: "I was injured some years ago, and that left me with a broken-down nervous system. I could not sleep, and suffered from twitching of the nerves and disagreeable nervous sensations. I then began using Dr. Chase's Nerve Food, and can say that I never had any medicine that did me so much good; in fact, I am entirely cured of my old trouble. The Nerve Food not only strengthened the nerves, but also built up my system in every way." Under date of Aug. 29, 1912, Mrs. McKellar writes, confirming her cure, and states that she has had inquiries from many people who had heard of the great benefits she obtained from Dr. Chase's Nerve Food.

## Spectacles!

Our trade in Spectacles was never so satisfactory as it is now. Our old iron-clad guarantee insures perfect satisfaction to every customer.

One lady told us she spent \$17.50 trying to get glasses to suit her. She came here and got a pair that gave her perfect vision—the price was only \$4.50.

We can afford to sell cheaper than those who have to pay travelling expenses and depend on the spectacle trade for a living. That stands to reason, for when we are not fitting glasses we are doing something else equally profitable.

We absolutely guarantee to satisfy every spectacle customer or pay back the money.
