nesday and Thursday evenings Mr. Knowles will introduce his new style of lecture entertainment, which he calls "Rambles in Foreign Lands." and the well-drawn types are one of the pleasures of the play. Not that there are not many strong situations, but the line is deftly written and affords the two leading characters, Audrey Hope, a kidnapped girl, and her sailor lover, Dick Fairfax, some splendid opportunities for capable acting. The hero and heroine go through many dangers, and driving out the inevitable discovery that they are in love with one another, and their triumph over all the obstacles which have been placed in their way is complete. The company is said to be a very good one. "It's Never Too Late To Mend" comes to the Grand next Friday and Saturday.

FIVE DROWNED.

Steamer Eber Ward Went Down in Lake Michigan.

Windsor, April 20. — Five sailors were drowned when the steamer Eber Ward, bound from Milwaukee to Port Huron with a cargo of grain, struck a heavy ice floe and sank about six miles west of Mackinaw City in deep water about 9.30 o'clock this morning. The names of the lost are John Hern

Under three jam have raised it to the enormous height of fifty feet above the normal level. It is believed by those familiar with the river that the ice will melt in the next few days, and the mouth of the river for a considerable distance up, thus acting as a dam and throwing back the waters. There appears to be absolutely no hope of relief unless the ice at this point gives way, giving the water an outlet into the lake.

At Niagara-on-the-Lake up to the Whirlpool Rapids a solid mass of ice fills the river, and even encroaches on the Whirlpool Rapids themselves. The lower rapids, which ordinarily are nearly as turbulent as those higher up the river, are silent. And right at the mouth of the river, where the ice is sixty-five feet high is "billed up."

Later in the day the admiral denied emphatically that he had penned this sentence.
