ADAMS TELLS HOW HE DEFEATED DETROIT.

"Mooney", Gibson was Presented with a \$400 Watch by President Barney Dreyfuss at Pittsburg—Detroit's Mistakes.

PITTSBURG, Oct. 20.—Charles (Babe) Adams in a statement issued yesterday explained how he defeated Detroit three times in the world's series. "My success in pitching can be attributed to the slow drop ball. I discovered in the first game that Detroit could not hit this kind of ball to any extent. When they would connect it would be a short hit to the infield, and Pittsburg has an infield which can take care of such hits. The slow drop I alternated, first out and then in. It went to the outside of the plate beyond the reach of the batter, and the ball was within hitting distance, the ball was low and its slowness caused a false estimate of the strength required from the batter. In such a quick fact as batting a false estimate is a dangerous thing for the batter. The ball which went inside the plate and dropped at the same time was the most effective I used. Detroit could do nothing with that at all. "But I did not overwork the drop ball. To do so would have been to lack control. Gibson sized up the batters and we knew when it was safe to put them straight over the plate. Detroit has a good batting aggregation, and it was necessary to take every precaution with them. The Tigers' rallies in several games demonstrated this. To lose control during one of these rallies would have meant the loss of the game. The most trying times while I was pitching was when Detroit showed one of those famous spurts of strength at bat. I worked harder than ever and was fortunate enough to hold control. The balls that went straight over the plate were generally hit by Detroit. Occasionally one was wallpoted to good effect, but in the main we knew when there was to be a hit and the infield and outfield acted accordingly. "MOONEY, GIBSON'S \$400 WATCH Pittsburg, Oct. 20.—George Gibson, the big catcher of the world's champions, had intended leaving yesterday for his home in London, Ont., but he received word that he was not wanted there until Monday about noon. Monday, he is told, will be "Gibson's Day" in the city, and he is asked to land there about mid-

day, when the town will have closed up to do honor to the greatest backstop the world ever saw—George Gibson. The famous young Canadian, who did so well to win the pennant for Pittsburg and the world's championship for the American League, was last night made the recipient of a \$400 watch by President Dreyfuss, of the Pittsburg Baseball Club. Mr. Dreyfuss at a banquet singled Gibson out, and in a neat speech asked him to accept the watch. Dreyfuss said plainly in the presence of all the team that Gibson's work had been the most phenomenal and steady he had ever known, that without him Pittsburg could never have won the pennant. Gibson was taken by surprise completely, but afterwards rose and did what most ball players can never do—made a clever, clear, ringing speech of thanks to Dreyfuss, to his team mates for their support in the fight, and to the people of Pittsburg for their kindness. The speech of Gibson was cheered for two minutes by the banqueters. Manager Clarke, who has now won his fourth pennant, shared honors with Gibson, getting a watch from Dreyfuss.

DETROIT'S MISTAKES. Joe Jackson, sporting editor of the Detroit Free Press, a reasonable and rational writer, takes a philosophical view of the situation. He says: "Now that it's all over the impartial observer will be forced to admit that there isn't enough difference between the strength of the two clubs to be worth mentioning, and that it was a toss of the coin which would win the series. Adams was Pittsburg's salvation. Mullin stood between Detroit and seven defeats. The Tigers hit well, ran the bases intelligently and fielded satisfactorily in the closing game, after a bad start. "After it's all over it's easy to point out where mistakes were made. Had Willett been started in one of the games that Summers pitched Detroit probably would have won the series. Summers did not bother the Pirates, while they could not hit Willett. The latter, however, was sent into one game after it was lost, and did not get into the other until its ninth inning. Mullin pitched two fine games and Donovan one. Adams was the only Pittsburg pitcher who looked good. Detroit made six runs off Camnitz on Monday, but lost the game, and its chances for the series, through Summers' bad start.

LIVE STOCK. The railways reported 125 carloads of live stock in the city market, consisting of 211 cattle, 1,650 hogs, 996 sheep and lambs, 141 calves, and 8 horses. The quality generally of receipts of fat cattle was common to medium with a very few choice cattle amongst them. One prominent cattleman said there were not two choice loads on sale. Considering the heavy deliveries of cattle, there was a fair trade, all of the best being readily bought up at good prices for this time of the year. The premium to medium cattle were slow sale, but a steady trade prevailed, and nearly everything offered was sold. Butchers—Geo. Rowntree bought 665 cattle, besides the northwest shipment, which amounted to 600 or a total of 1,265 cattle for the Harris Abattoir Co. at following prices: Steers and heifers, \$3.60 to \$5.10; a few exporters, \$4.80 to \$5.80; cows, \$1.50 to \$4.35; bulls, \$2.30 to \$4.25; feeders, 1,050 to 1,170 lbs., at \$4 to \$4.50; feeding bulls, \$2.60 to \$3.30. Stockers and Feeders—Mr. Murby bought 100 cattle and quotes prices as follows: Best steers, 900 to 1,050 lbs. each, at \$4 to \$4.50; best steers, 800 to 900 lbs. each, at \$2.50 to \$3.85; good stockers, 500 to 700 lbs. each, at \$2.75 to \$3.25; common stockers, \$2 to \$2.25. Milkers and Springers—Trade was good, prices ranging from \$40 to \$75 each. Crawford & Hummsett bought 100 milkers and springers on order at \$60 to \$75 each. COBALT STOCKS. The mining market in Toronto was somewhat inactive yesterday, with price changes narrow. Kerr Lake scored a small advance and La Rose again showed weakness. The other issues were dormant. Shipments of ore from Cobalt camp last week totalled 947,446 lbs., or 473,721 tons, divided among eight mines. The feature of the week was the continued heavy shipments from La Rose, which has passed the Nipissing in the matter of tonnage for the year. Nip having held the premier position for months. It will be noted that the list contains a new name, the Keeley, which is a Lorraine property, as is the Wettlaufer. Shipments for the year to date total 46,462,733 lbs., or 23,231.36 tons.

A HOT SPOT.

Island So Hot One Couldn't Stand on the Ground. Boiled Gull's Eggs in a Pool—Volcano Beneath. Seattle, Wash., Oct. 20.—Remarkable reports of conditions in Bogoslov Island, which has been named Incandescent Island, by sailors, was brought here yesterday by officers of the United States revenue cutter Perry. Within a few miles, which skirts one side of the island, the water by test registered 210 degrees Fahrenheit. Clouds of smoke and steam arose from small fissures and within the lake a small spot of land reflected a translucent glow as though an active volcano existed a short distance beneath. At many points on the island the earth was so hot that the visitors were unable to stand upon it. In a pool gull's eggs were boiled. The officers on the cutter also observed a disturbance of the earth on Pskov Island that may indicate an early eruption of the volcano of Pskov. Smoke and steam were visible several miles at sea.

POPE SAW IT.

Balloon Flew Low Over the Vatican Gardens. Rome, Oct. 20.—One of the Italian military dirigible balloons came from Brasciano to Rome, a distance of 19 miles, in 30 minutes to-day. The dirigible executed evolutions over the city and passing over the gardens of the Vatican was seen by the Pope, who was talking his daily walk at the time. The Pontiff stopped to watch the evolutions and admired the gracefulness exhibited. The dirigible flew so low that its occupants could be clearly distinguished.

BLEACHED BONES.

Skeleton of Girl Dead About a Year Found in Long Island Woods. New York, Oct. 20.—The bleached skeleton of a young woman, partly covered by shreds of linen, which once were part of her clothing, was found to-day in a lonely stretch of woodland near Islip, L. I. The coroner found nothing by which the identity of the young woman could be established. Close to the skull was a thick mass of blonde hair, tied with fragments of a big, girlish bow of ribbon. It was evident that the victim had been dead for about a year. The skull was intact, showing no marks of violence. It is impossible to ascertain whether it is a case of suicide or of a mysterious murder.

ST. MARK'S LITERARY.

A well-attended meeting of St. Mark's Literary Society was held on Monday evening, the chief feature of the programme being an interesting debate, "Resolved: That Money Has More Power in the World Than Learning." The affirmative was upheld by Mr. Fladon and Miss Edith Woodford, and the negative by Charlie Lonsfield and Miss Rhea Graham. Mr. Martin acted as judge. Both sides were ably upheld, and the judge had considerable difficulty in coming to a decision. He decided in favor of the negative. Mr. Thresher contributed a pianissimo solo in his usual brilliant style, and Mr. Britton added to the enjoyment of the evening by a well-rendered song.

COBALT MILK.

Lord's Day Alliance Did Not Interfere with Milk Delivery. Toronto, Oct. 20.—Rev. W. G. Hanna, E. A., secretary of the Lord's Day Alliance, makes the following statement: "Regarding the paragraph which recently appeared in the press to the effect that the Lord's Day Alliance interfered to prevent the delivery of milk on Sunday to the hospital at Cobalt, Dr. A. E. Munro, the president of the Cobalt branch, writes: 'The rumor is unfounded and absolutely untrue. The Cobalt Nuts get states, it was simply the act of Mr. Stans. The Alliance had no concern with Lord's Day people are not at all to blame in the matter.' "These facts should make the public hesitate to credit rumors circulated about the work of the Lord's Day Alliance until they are assured of their truthfulness.

Further evidence at Nanapan is being taken.

As Attempt Will be Made to Have Them Play an Exhibition Game in Hamilton—They Will Play in Toronto.

They will be introduced to President Taft at Washington. F. H. Milnes, who acts as captain and manager, has had previous experience of football in America and after his return from the last trip, four years ago, he published a brochure of considerable interest. He was born in Sheffield, but he has played the game in many cities other than Ontario. At Baltimore the game was played at midnight by the aid of numerous powerful electric lamps and the home team were routed to the extent of fourteen goals to nil. The match with All America for the Cochrane Cup will be played towards the end of this month, and the tour will conclude a month later, the party being due to reach England on December
