MAKING A GOOD TOWN.

A town must be a good place to live in and a good place to make a living in. The following four points are the essentials of a good town.

Production or Manufacture—
Transportation—
Trade—
Civic Welfare—

People congregate in a town for trade, and if the prosperity growing out of that trade is not directed along the lines of civic welfare, the town is not much good. Water supply, sanitation, streets, sidewalks, schools, and entertainment features are the essentials of civic welfare.

The average man does not realize what it means to bring people to his town, or what it means for people to go out of his town.

Your town is as big as the trade territory that you supply. If you reach out fifty miles, that is the size of your town. You want to protect that town front.

Some farmer's and towns people think that the merchants of the town are a nuisance, and send away for everything they want, forgetting that their property is more valuable because of its proximity to town facilities. They also ignore the fact that their children attend the town school, and their boy or girl works in the town stores.

These things enhance the value of the land located near the town, and the farmer owes the town something for increasing the value of his land.

The bigger the town is, the farther the influence on farm property extends. There are two kinds of people that are attracted to towns; one is the old man who has made his money, and the other is the young man who wants to make money.

Communities of the East are losing to the communities of the West, because the west have better towns. The spirit of the west makes it what it is. They are real boosters, and back their boosting with their money. The booster who does not back it with his money is a four flusher.

Good roads are needed to hold the people, and good roads are a factor that is developing and causing an evolution in other communities.

There are just two things a small town can do—either grow into a big town, or get off the map.

If a town has good transportation it is a good retail town. The support of the town comes from the dollars that go over the retail counter.

Retailers are the backbone of the community from an economic standpoint. It is not what a man earns—that is an individual asset, but what he spends—that is a community asset.

Money must go over the retail counter before you can have civic welfare. The trouble with the average town is smug-osity—smug meaning self-satisfied, and osity meaning bone.

Some towns furnish everything to make it a good town, but nobody is willing to furnish the time or energy. We have to get all the interests of the community together, as well as individual responsibility.

This co-operative work should be a part of your business and not a community duty. You help to gain by helping the other fellow to gain.

If we in Newcastle, wish to make our town a REAL TOWN, we would be well advised by the following:

"Real towns are not made by men afraid."

Lest somebody else gets ahead.

When everybody works and nobody shirks.

You can raise a town from the dead.

And if, when you make your personal stake.

Your neighbor can make one.

Your town will be what you want to see.

It isn't your town—it's YOU."

Stomach Trouble

Comes When the Blood is Weak and Watery

Thin blooded people generally have stomach trouble. But they seldom recognize the fact that thin blood is the cause of their indigestion, but it is.

Thin blood is one of the most common causes of stomach trouble. It affects the digestion very quickly. The glands that furnish the digestive fluids are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health nothing will more quickly restore the appetite, digestion and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles, and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite, and soon the effect of those blood-making pills is evident through out the whole system. You find that what you eat does not distress you, and that you are strong and vigorous instead of irritable and listless. You are on the road to sound, good health and care in your diet is all you need. If your appetite is tickle, if you have any of the distressing pains and symptoms of indigestion you should begin to cure yourself at once by taking Dr. Williams' Pink Pills.

These pills are sold by all dealers in medicine or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

COPENHAGEN

CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco.

Take a small pinch, for a start, and put it between the lower lip and gum, in the centre.

Afterwards you can increase the size of the pinch to suit the strength of the chew you desire.

Copenhagen is strong, because the tobacco of which it is made is one of the best grades, which makes it

strong and thoroughly satisfying.

Take a little pinch now and then, and you will find it is the best of all.

It is also one of the most economical, for it lasts much longer than other brands.

July Clearance Sales

A Clean Sweep Must be Effected of all Spring Goods, and Big Price Reductions Prevail on all Lines.

This time of year we start ridding our store of all spring goods. It is part of our policy that none are to be carried over from season to season, and we always aim to live up to it, to the letter.

Monday, July 28, to Monday, Aug. 4

One Big Week of fast selling that will make all warm weather goods step lively. Our advice to you is to hurry on the first day of this big sale, for the cream of the lots are apt to be all gone while you are thinking it over.

REMEMBER --- Sale starts July 28th ends Aug 4th

ALL GOODS FOR CASH—NO APPROBATION

Every article of Summer Goods reduced.
