eut he was harded from the social circle duts the dark valley of the shadow of death. Perhaps it was best zo. His faune is established world-wide; his work was all but done, and now his memory will be untarnished by the intellectual decreptitude which so often overtakes men of genius in old age.

As a writer Charles Dickens is admitted to have done mere for English literature, pure and undeflied, thanany man in modern times. His imagination was wonderful in its unappreschable richness—his genius sorned personal bitterness as strongly as t did the shallow tricks of those who of late years have, in their movels, painted vice and crime in the most fascinating e dors, copering it, for virtues sake, with a sery thin vall of mawkish, false Christianity, and his industry was unbounded. From the timesthathestarted in literature as a newspaper reporter, until last week, as a newspaper reporter, until last week, his versatile pan was constantly busy. Work after work fullowed each other in rapid succession, such apparently, better than the last. And then too, what a rich galaxy of names he gave to the language, each representing a distinct character: Glorious old Sam Veller (spek with a We as his father insisted on having it.) Pick wick, Capt. Cuttle, Sairey Gamp, Bloffins, who Storous old Sam Veiler (spate with a We as his father insisted in having it.) Pick wick, Capt. Cuttle, Bairey Gamp, Bloffins, Podsnap and tamily, Micawber, whe was so punctual in noting accounts he could never pay for until something should turn up, Swiveller and Sawyer, Squeers, Fagin, Tiny Tim, who said grace over the Christmas cheer, saying: Oh. Lord, bless us one and all! Dickens wrote of and for the people—never, when he could help it introducing great lords and ladice into his nevels. He was also a social reformer on an extended scale. The poor houses, debtors' prisons, charity schools, chancery courts, all received such ascathing that the litritish people forced their sulers to effect valuable changes in the interests of humanity. In the broad field of genuine humor who so genial, racy, chaste and polished; in path's who so invariably effective or so often sublime.

Why extend this hrief notice? The matchless novels of Charles Dickens are rand and their author loved by millions wherever in this broad world there is a warm heart and an appreciative mind. Little need his spirit rock whether or not the lifeless body bo laid amongst the dust of the illustrious dead in Westminster. Abbys. His monuneant is built in the hearts of men and his memory will extend away through the ages of the future. Peace to his ashes!
