### Footballers' Annual Meeting.

The annual meeting of the Football League occurred last night. Mr. Mark Chaplin, the President, occupied the chair. On the first day this year on which the stores close at 6 p.m. the first League match will be held. After the reports had been discussed and when President Chaplin had retired from the chair, Mr. J. Croft, president and conducted the election of officers, in which the former executive were appointed to office. These are as follows: President, M. Chaplin; Vice-President, E. M. Jackson; Treasurer, C. Ellis; Secretary, W. J. Higgins; Auditors, Messrs. Croft and Jardine.

### REPORT FOR SEASON 1911.

Our sixteenth season has closed, and we are glad to be again able to announce a successful term. The teams of the preceding year again participated in the Championship Competition, and the order on the table of points at the conclusion of the series was: Collegians, Star C.E. Casuals, B.I.S., St. Bon's and Fieldians. The Collegians, for the first time in their history, thus became entitled to a marking on the Championship trophy. This result was very generally popular for two reasons, first, because this club richly deserved the honour by reason of their consistent good play throughout the past season, as well as the fact that on different occasions in the past the position has been lost by the team through an unduly large share of hard luck; and secondly because the result of the past season starts interest in the cup again. The Stars by their win for two successive years had every indication of repeating their record and becoming the absolute owners of this trophy, but in the end the Collegians rose to the occasion and like the C. E. I. in the memorable struggle of '98, stopped the onward march of the cup-seekers. The value of an athletic trophy, and particularly a football championship emblem, is largely represented by its history; its age and change of holders, and the new life given to the present trophy by the will of the collectors; its year is generally to be appreciated. The Stars played with their customary dash and enthusiasm, and, as usual, whilst not in receipt of "the first place honours" they were in the foreground at the end of the season. The C. E. I. made good strides on the upward journey, and showed the first signs for some time past of former greatness. The Casuals' play was about the same standard as in the previous season, whilst the B. I. S. slightly improved in their showing. The St. Bon's and Fieldians progressed in the wrong direction, the latter club taking charge of the spoon. Generally the games were an improvement on those of 1910, a little more practice being in evidence at the opening matches. The championship was won largely because of this element being attended to, and the lesson taught should not be lost on the aspirants for honours in the coming season. Too much attention cannot be paid to this necessary aspect of our competitions, because apart from the interests of the individual clubs the future of the game depends almost entirely upon the sufficiency of training obtained by the contesting teams before they present themselves to the public. In the Brigade Section the Championship again fell to the Catholic Cadet Corps, who were closely followed by the Nfld. Highlanders, play off being necessary to decide the holders of the Cup for the year. The Methodist Guards and Church Lads Brigade were not up to the playing standard of the two first mentioned teams. Whilst congratulating the Cadets on their well deserved win—a victory which was particularly merited in the deciding match—we desire to compliment the Highlanders on the marked improvement in play, judged by their work in seasons past, their was a sudden jump into fame, but their continuous good play throughout their fixtures last summer made their fine showing only a natural result. Now that they have moved away from the position at the reverse end of the table, we trust they will continue to furnish the right quality of play, as their keeping in the game, despite their ill-luck in the past, makes their prosperity now all the more appreciated. The financial result of the season worked out slightly better than for the year previous. The total receipts from all sources were \$1,432.83, as compared with \$1,383.93 in 1910, and expenses of \$1,413.00 compared with \$1,398.65. This showing is satisfactory when it is borne in mind that in 1910 the sum of \$106.50 was obtained from matches outside the regular league games—a source of income which does not appear last year. The total amount now to the League's credit is \$2,814.92. We are sorry that we had not our usual games with the Naval teams during the past summer, due to H. M. S. Cornwall being unexpectedly ordered away. It was generally regretted that our annual "test" could not take place, as so far these games form

our only means of noting the progress or otherwise of our play. The arrangements as to a joint use of the field with the St. John's Cricket Association, outlined in our last report as possible, did not materialize, and so far the present revival of the League generally for their continued co-operation, we have to impress upon the representatives of the various clubs the necessity of putting some new life in the different teams. The strength of the League depends on the individual efforts of its members, and if we are to expect the game to retain its popularity, we must see that it deserves it by way of supplying good competition. On behalf of the officers: HARK CHAPLIN, President. W. J. HIGGINS, Secretary.

### "Be Sober and Watch."

The members of the T. A. & B. Society assembled in large numbers last night in their spacious hall. Precisely at the hour appointed, President W. J. Ellis, Esq., took his seat and was greeted with a ovation after his absence of several months' sojourn in the United States and Canada where he had gone in the interest of his health. He stated last night he never felt better in all his life than he did at the present time. The object of the meeting was to discuss important resolutions introduced by J. M. White, Esq., on behalf of the old and faithful "standard bearers" of the Rev. Theo. Matthew who for the past forty years have continuously kept the pledge of Total Abstinence. After an interesting debate the measure passed. Now, all members of forty years standing are exempt from further taxation. The other resolution was to establish "A Charity Fund." Was if ever occasion require to enable the President and two others "only" to be in a position to succeed any member who may through accident or sickness become in need of assistance. President Ellis availed of the opportunity to congratulate the introducer, Mr. White, on this measure, stating that it met with the unanimous approval of the Executive, for in a manner it was bringing back one of the objects for which the Society was established for over fifty years ago, viz., to aid its members in times of need. The motion being put by the President was carried amidst great applause. It was shown by several speakers that it was necessary that a complete review of the rules of the Society take place to incorporate the amendments just passed. A committee will be formed at Sunday's monthly meeting which will be so important that every member is requested to attend. Improvements in Gas. The Old Year is closed, and in looking back to the advent of Gas we have no cause for complaint; indeed, it has been a year of great progress in this industry. Each year householders realize more and more what Gas (intelligently) use can do for them in Cooking, Heating and Lighting. A great improvement in gas appliances is shown in all directions and the growth of knowledge as to how Gas may be used to the best advantage is one of the most satisfactory features of the past year. May 7, 11, 14, 18, 21, 25, 28, June 1.

### "Clean-Up" Day.

This ideal movement inaugurated at the suggestion of Councillor Coaker was taken up for discussion at yesterday's meeting of the Council Board. After much debate it was decided to make Thursday, May 23rd, "clean up" day. This year it is expected to have "the work done more expeditiously than last. Each member of the Council will provide a horse, citizens generally will be asked for their kindly support and co-operation, and to facilitate matters the people will be asked to have all refuse ready for the sanitary men when they come and in a convenient spot. We would however, suggest in addition that citizens generally burn all refuse that is "com-bustible."

### Ask your Druggist for SERRAVALLO'S TONIC (Bark and Iron Wine).

Cures: ANAEMIA, CHLOROSIS, DEBILITY, Delightful Taste. LEFT BARBADOS. — The baronet, Evelyn left Barbados yesterday with a cargo of molasses for this port.

### Croup Comes Suddenly

ABOUT midnight the child awoke coughing—that peculiar, metallic cough called croup, and which strikes terror to the mother's heart. Then begins the struggle for breath, and if relief is to be obtained treatment must be prompt and effective. Anyone who has tested Dr. Chase's Syrup of Linseed and Turpentine as a cure for croup will not hesitate to pronounce it an unqualified success. It is wonderfully prompt in loosening the tough, clearing the air passages of the head, and soothing the excited nerves. There are imitations of Dr. Chase's Syrup of Linseed and Turpentine. Be sure you see the portrait and signature of Dr. A. W. Chase, the famous receipt book author, on the bottle you buy. 25 cents a bottle; family size, three times as much, 60 cents; at all dealers, or Edmondson, Bates & Co., Limited, Toronto.

### BOARD OF DIRECTORS.

- N. CURRY, President Canadian Car and Foundry Co., Ltd., Director of Bank of Nova Scotia, etc.
- HON. M. G. WINTER, of T. & M. Winter, St. John's, Newfoundland.
- G. A. MOULTON, Secretary Canadian Investors Ltd., Director Scotia Foundry Co., Ltd., Halifax.
- PERCY C. BLACK, President Amherst Boot and Shoe Co., Ltd., Amherst.
- J. W. MCKAY, Managing Director Nova Scotia Carriage and Motor Car Co., Ltd., Halifax.
- JOHN W. REGAN, Manager Canadian Investors Ltd., Director Wentzells Limited, Halifax.
- BANKERS:—The Canadian Bank of Commerce. SOLICITORS:—McInnes, Mellich, Fulton & Kempy.
- HECTOR McINNES, K.C., Director Bank of Nova Scotia; Vice-President Eastern Trust Co., Halifax.
- J. H. DOUGLAS, President Douglas & Co., Ltd., Amherst.
- W. H. TENNANT, Director Maritime Investors Ltd., Amherst.
- H. W. WENTZELL, President Wentzells, Ltd., Halifax.
- D. C. MCKAY, Sales Manager Nova Scotia Carriage and Motor Car Co., Ltd., Kentville.
- COLONEL E. F. WIRTELE, Chartered Accountant, Quebec, P. Q. TRUSTEE—Prudential Trust Company, Ltd.

OBJECTS.—To take over as a going concern the business of manufacturing carriages and motor cars of the Nova Scotia Carriage Co., first established in 1868 at Kentville, and transfer same to Amherst as a better distributing and manufacturing centre and erect a modern plant at the latter place to be ready for occupation Jan. 1, 1912. Meanwhile the manufacturing operations will continue without interruption at the Kentville plant where the output this year will be in the vicinity of \$475,000 against \$292,000 in 1911. The estimated output for the first year in the new plant is \$1,089,500.

MARKET.—This is the only concern manufacturing fine carriages and motor cars in the Maritime Provinces. The company has an established market in the Maritime Provinces, West Indies, Newfoundland, Quebec and Western Canada, with a promising field in British Columbia and overseas.

ADVANTAGES.—The combination of carriages and motor cars gives a busy season the year round. The company enjoys the benefit of a good labor supply, cheap hardwood and water transportation. Ample capital will now be available.

MANAGEMENT.—Messrs. J. W. McKay and D. C. McKay, two practical carriage builders, who built up the old company, are large shareholders in the present company and have entered into service contracts for five years from Dec. 1, 1912. Mr. N. Curry writes:—

"There is a great future in Canada for the automobile, also the motor truck for freight purposes. I understand that the company has excellent management and I see no reason why this industry should not in a few years be one of the largest and most prosperous in the Maritime Provinces."

NET EARNINGS.—As certified by Mr. R. Carter, chartered accountant, for three years, the net earnings were: 1909, \$37,949.35; 1910, \$22,860.15; 1911, \$54,848.07. Total for three years, \$115,657.57, an average of \$38,552.62. Heavy expense was incurred in 1910 in introducing the manufacture and sale of automobiles.

J. W. McKay, managing director of the company, estimates net profits for the current year, Nov. 30, 1911 to Nov. 30, 1912 at \$90,650, and for the following year 1912-1913 at \$166,800.

The net earnings for 1911 were sufficient to pay bond interest and sinking fund charges and dividend on preferred and leave a surplus. The net earnings last year were over six times the bond interest. The estimated net earnings this year are ten times the bond interest, or sufficient to show 6 per cent. on common stock after paying bond interest and dividend on preferred for past year. According to Mr. McKay the surplus next year (1913) will exceed 12 per cent. on common stock. Some of the successful motor car companies are making even more than this.

The fixed and current assets (including proceeds of present stock and bond issue) exceeded \$600,000,—more than four times the issued bonds.

### SAMPLE PURCHASES.

\$400 will buy—Four 7 per cent. preference and two common shares—total \$600 par value.
\$500 will buy—One \$500 bond and one common share—total \$600 par value.
\$800 will buy—Eight preference and four common shares—total \$1200 par value.
\$900 will buy—One \$500 bond, four preference shares, three common shares—total \$1200 par value.
\$1000 will buy—Ten preference shares and five common shares—total \$1600 par value.
\$2000 will buy—Twenty preference, ten common shares, total \$3000 par value; or that amount will buy one \$1000 bond, ten preference and seven common shares, total \$2700 par value.
\$5000 will buy—Fifty preference and twenty-five common shares—total \$7500 par value; or \$5000 will buy two \$1000 bonds, thirty preference and nineteen common shares, total \$6900 par value.

TERMS.—25 per cent. with application, 25 per cent. on allotment and 50 per cent. three months thereafter. The right is reserved to reduce or reject any application. Application is to be made for listing. ADDRESS

## CANADIAN INVESTORS LIMITED, 165 HOLLIS STREET, HALIFAX.
