Market Prices.

(From The Trade Review.)

CODFISH—We have reliable information that very strong efforts are being made to get our Exporters to refuse to make shipments to foreign markets on consignment and insist on Contract sales for delivery before the fish leaves here.

Letters that we have seen show that the "Consorato" or Combine of Merchants in Italy have agreed to make purchases of their requirements and the only question remaining is the terms to safe guard buyers against any inferior quality that may be shipped.

This should be easily arranged as the Board of Trade have reliable inspectors who can issue certificates regarding satisfactory way.

Important buyers on the Greek market have made contract purchases for the past seven years and will no doubt continue this method of doing business which is the only satisfactory way.

In former years Contract sales for cargoes to Spain, were often arranged, but the Nid. Agents in London now state that this is impossible owing to Nid. shippers sending too much fish on consignment to that market. It is reported that Mr. Geo. Hawes our Trade Commissioner in Spain is a passenger on S.S. Digby due shortly from England. All hope he will arrange in future for Contract Sales and do away with this consignment and retail business which is a relief of past ages.

Iceland shippers make their Contracts for sale of fish to Mediterranean Markets, three or four months in advance of shipment and they are paid by Bank Credit against B. of L. with certificate of weight. This Iceland fish is washed clean and has a white appearance but it is even damper and softer cure than our Labrador. Shipments have often shown seven per cent. loss of weight on passage when arriving in Italy, but the buyer has to stand this loss of weight as the fish is bought f.o.b. Iceland.

It is about time that our Merchants took a lesson from the Iceland fisherman and insisted on sales in advance. Then Newfoundlanders will obtain their own terms and not be swindled as they have so often been in the past.

COD OIL—There have been many enquiries received here from the American markets but very little business doing. The shipments arriving on local markets have been limited and fishermen are hoping to get \$250 per ton. This is practically about \$1.00 per gallon and a very good price for the ordinary product that has not been tanked. It is hard to say whether any large quantity can be sold at this figure as conditions on American market are far from good. There has been a steady decline in the United States for animal oils such as tallow and greases which takes the place to a great extent for our Cod Oil in the manufacture of leather.

There are no Government contracts to sustain the market such as we had last year and we believe the limit has been reached.

The very latest advices from New York state the market condition is far from good, with little or no business doing.

COD LIVER OIL—There is no change in the market. Considerable shipments have arrived on the local market. We hear of some refiners who have done very poorly as compared with last year, but then again there are some localities that never did so well before.

The price \$2.00 per gallon has been sustained so far, and although we hear of some parties who say they can get a few cents more we are certain that the principal buyers are not paying higher.

The United States market is buying from hand to mouth believing they will get it cheaper shortly. The English market is the only one with any life but the Bank charges for Sterling Exchange is equivalent to over fifty cents per gallon, which is a thing unheard of and makes business with Europe almost prohibitive.

LOBSTERS—The price in St. John's is to-day \$33 per case of 48 one-pound tins. On the West Coast more have been given in the keen competition at Bonne Bay and St.

George's. As high as \$36.50 and in a few instances \$37 per case was paid by Halifax buyers. The foreign market on the other side of the Atlantic at present does not warrant this figure.

MOLASSES—Prices are unchanged except that further shading off in cash sales where large lots are involved discounts in some cases bring the prices down to 93c. per gallon. The regular rates are 94 to 95c. per gallon for punchon lots 95 to 97c. for terces and 98c. to \$1.00 in barrels. Two cargoes arrived this week from Barbados. The total is now 8,844 punchons.

SUGAR—We have word that the authorities in Barbados have placed an embargo preventing shipments of sugar from there.

FLOUR—The Canadian Government have arrived at a satisfactory agreement with their farmers and we will no doubt have offers of more flour from Canada shortly. Manitoba high Patents are selling for \$14.25 to \$14.50 according to brand and quality.

It is reported that some of the so called pre-war white flour is not any better than recent war grade. The real white flour will be arriving very soon in large quantities but Mills are asking extra prices for it. S.S. Yarmouth arriving Thursday is reported with 5000 barrels of Windsor Patent. The American spring wheat crop is reported as a complete failure not one third of average quantity. Standard is now \$13.30 to \$14.00 and White \$14.50 to \$15.

PORK—The market took a serious drop of about \$2.75 per barrel in Chicago caused principally by President Wilson and various congressmen together with the municipalities throughout the Country in energetic endeavours and a Nation-wide movement to reduce the high cost of living forcing the big packers to liquidate their stocks.

Since then a strong feeling has set in and market has regained its loss showing how strong the market really is. Ham Butts has sold here for \$62.00 per barrel whereas it would cost over \$64.00 to import it to-day.

BEEF—The price of Beef is unchanged in the higher grades but weaker in the lower. Boneless this week is going at \$38 to \$40 per barrel, wholesale. The higher grades run from \$47 to \$49 per barrel. There is very little doing in Beef just now. The imports to date are 13,132 brls. against 17,460 brls. at a corresponding date last year.

HAY, OATS, POTATOES—Oats firm at \$5.20 to \$5.30 per sack. Imported potatoes (new) the only kind in the market, have dropped to \$7.50 per barrel. No local yet. Hay down to \$50 per ton, wholesale.

Air Knight Wedding.**MARRIAGE OF SIR ARTHUR WHITTEN BROWN.**

The successful crossing of the Atlantic by aeroplane was recalled on Tuesday by the marriage of Lieutenant Sir Arthur Whitten Brown, of Manchester, the navigator of the Atlantic machine, to Miss Marguerite Kennedy, of Ealing. The ceremony took place at the Chapel Royal, Savoy, and in addition to the fortunate guests who found a place in church large numbers of people crowded Savoy-street in the hope of getting a glimpse of the Atlantic airman and his bride.

There were rousing cheers when Captain Sir John Alcock, who was Sir A. W. Brown's companion in the successful flight, approached the church, but the bridegroom slipped in unnoticed by the waiting crowds.

Miss Kennedy was given away by her father, Major Kennedy, who is also an officer in the Royal Air Force. Her gown was of ivory champagne, with a short train and an old Brussels lace veil. Her bouquet was tied with a hand of ribbon in the colours of the R. A. F. The bridesmaids, Miss Eileen Kennedy, the sister of the bride, and her little cousin, Miss Biddy Tucker, also carried bouquets bound with the R. A. F. colours.

The decoration of the chapel was carried out in white marguerites, and the R. A. F. wings, done in white flowers, were placed over the altar.

When Sir Arthur Whitten Brown—Lieut. Brown of Atlantic flight fame—was married to Miss Marguerite Kennedy at the Chapel Royal, Savoy,

on Tuesday, he was faced with an ordeal probably more trying than that of his Atlantic flight, for not only did crowds hang on the railings to catch a glimpse of the procession, but, after the ceremony, about forty press photographers and cinema men were in waiting to get a picture of the couple leaving the church.

Captain Sir John Alcock, of Atlantic flying fame, is to visit Amsterdam to-morrow. The Amsterdam papers state that he will be welcomed with great festivities, and that a tour of decorated motor cars through the town has been planned.

Bereft Parent Writes.**THE G. P. CEMETERY DISGRACE.**

Editor Evening Telegram
Dear Sir, I was gratified to read the letter of "Decency" in your paper last week, backing up what I had previously written on the subject of the disgraceful condition of the West End Cemetery. It gave me both pleasure and encouragement to find that there is one citizen, at least, who sees eye to eye with me on this question and that there is one who has the courage to help me to expose the disgraceful neglect of the Cemetery Committee. Their apathy and inactivity is provocative of the same indignation in him as in myself and with his help I trust that we shall succeed in waking them up to a sense of their duty in this matter. It is the tendency of human nature to remain passive till some strong impelling action is made to arouse it and this, with the help of "Decency," I hope to accomplish. If it were some great financial scheme for profiteering that was launched that awaited their activity I wonder would they be so slow to move? I trow not. They would be working overtime night and day to accomplish their undertaking. This is a sad commentary on human nature in general and their own intelligence in particular. They, as a committee, seem, by their neglect, to be sadly lacking in their appreciation of the sense of esteem to which their efforts, if made, would entitle them, amongst their congregations, which cannot be measured by mere money. If they want a suggestion, the working out of which would not cost them any money and little loss of time, I would say to them—Get the clergymen of the various denominations concerned to appeal from their pulpits to their congregations and to name a Sunday for a collection. Once the gravity of the situation was made known to the people through their pastors they would I have no doubt see that the Committee do the work for which they are appointed or else make them resign and have their places filled by better men.

Yours truly, BEREF PARENT.

Had to Call In the Neighbors for Assistance**Mrs. Rock Was So Run-Down Couldn't Do Housework—Restored By Tanlac.**

"This is the only medicine I've ever taken that does just what they say it will do," said Mrs. J. L. Rock, R.F.D., No. 4, Platt, Ill., in telling her experience with Tanlac.

"For eleven years," continued Mrs. Rock, "I suffered with stomach trouble and was in a general run-down condition, but it's all different with me now, for three bottles of Tanlac almost made a new woman of me. I lost my appetite and so that actually I would get sick at the smell of food cooking. What little I did manage to force down would cause gas to form, and press up around my heart so bad at times I could hardly get a good breath. I would have cramping pains in the pit of my stomach which would last for many hours, then to make matters worse my kidneys became affected and I had terrible pains in my back and sides and at times could hardly turn over in bed. I finally got so weak and run-down I couldn't do my housework and had to call in the neighbors to help me. I was so nervous the least little noise would upset me, and I could sleep but very little at night."

"I was in this very condition when I heard about Tanlac and asked my husband to get me a bottle, and to my surprise and delight I started to improve right from the start. I have taken three bottles now and I'll tell you it's wonderful the way this medicine helped me. The pains in my back and sides have all left me. My nerves are quiet and I sleep fine now, all night long and when I get up in the mornings I am rested and refreshed. I no longer know what it is to have a headache now. I have a splendid appetite and feel perfectly well in every way and I want everybody to know what a great medicine Tanlac is."

Tanlac is sold in St. John's by M. Connors, under the personal direction of a special Tanlac Representative.

The Bottle.

What robs the human form and face Of every beauty every grace, Till naught is left but what is base? The bottle.

What sears the conscience, turns the brain, What fills the mind with thought that's vain, And makes the wisest man insane? The bottle.

What takes the hungry children's bread, And gives them filth and rags instead Till every joy of life has fled? The bottle.

What makes of honest people knaves The pure defiles, the free enslave; What fills the land with drunkard's graves? The bottle.

What tempts the young from wisdom's way To list to what the tempter says For which with life he often pays? The bottle.

What blights the home, the home, the church, the state, What bids the golden age to wait? What is it that all men should hate? The bottle.

Mutt and Jeff.

(London Express.)

To-morrow the Express will introduce to England a humorous whose work is the delight of millions of his fellow-countrymen in America. The learned, the busy, the young, the old, even the illiterate, delight in Mutt and Jeff, for the pictures of these two inseparables make an irresistible appeal, even apart from the accompanying stories. What is it in Captain "Bud" Fisher's art that gives it so wide a hold? The answer is not far to seek. He has the human touch. The things that happen in Mutt and Jeff and the things that they say to one another might happen to or be said by us all. The artist gives these common human experiences just that touch which makes a humorous story out of an ordinary incident. That is why "Bud" Fisher's success is so wide and so deserved. His art is clean and it is human. What does a man not deserve who can make a continent laugh and not be ashamed.
