The Joint Note Now in a Position For Discussion by the Powers-The Appointment of Chang Chih Tung-Prince Ching Does Not Want Him as a Partner in the Negotiating Business-Railway Cession Denied.

Pekin, Sunday, Jan 13 .- The joint note of the powers has finally been signed by the Chinese Peace Com-missioners. Prince Ching signed yes-terday, and Li Hung Chang, who is

terday, and Li Hung Chang, who is better, signed to-day.

It is understood that the malady from which Li Hung Chang is suffering is Bright's Disease. He was feeling worse yesterday, and therefore postponed the affixing of his signature, but Prince Ching was hopeful that he would be able to age to-day, which proved to be the case.

Case.

Prince Chipg has protested to the court against the appointment, said to be contemplated, of Viceroy Chang Chin Tung as a plenipoten riary in the place of Li Hung Chang. He thinks the latter's advice absolutely essential, although he be lieves it might be advisable to appoint a third plenipotentiary for China, and reiterates his desire for appointment of Sheng would be acceptable to the foreign

As to Chang Chil Jung.

So far as Chang Chih Tung is con cerned, the foreign envoys, who know him personally, say that, while he is strongly anti-foreign, and has never made any secret of his likes and dislikes, they believe he would be a satisfactory representative of the Chinese, and there would not be any objection to him on the score of his recent utterances. Indeed some any objection to him on the score of his recent utterances. Indeed, some of the Ministers think it would be wise for China to make Chang Chin Tung a plenipotentiary. Most of the envoys have received word from their governments that the negotiations must be conducted to Pekin, on the ground that for various reasons other places suggested would be objectionable. He Uses the Same Arguments as When the Kettle River Valley Bill Was Up-The People of B. C. Have a Right to All the Railway Connections They Can Get - Coal Areas Practically Inex haustible.

Montreal, Jan. 15.—Here is Hon. A. G. Blair's position on the railway question:

Committee of the Hoose of Commons before which such an application for a charter would have to come, it would be impossible for me to ex-press an opinion as to what course I would pursue with respect to any particular bill until I heard all the particulars, pro and con, that would be urged for and against the appli-cation. Speaking generally, Lowcation. Speaking generally, Low-ever, I stand to-day exactly where I stood when the Kettle River Valley Railway bill was under discussion. The same district was to be served The same district was to be served by a railway south of the boundary, and I supported it both in the House and in committee. I said then, and I say now, that the people of British Columbia have a perfect right to have all the railway connections, north, south, or any other way, that they believe necessary to the rapid and complete besary to the rapid and complete ment of the resources of that

DUNSMUIR IS AFTER MONEY.

ys British Columbia Has No Its Share at Federal Hands.

Montreal, Jan. 15 .- The British Columbians want more money from the Federal Treasury Premier Dunsmuir, who was in the city yes-terday, states that he will have an interview to-day with Sir Wilfrid Laurier and Hon. W. S. Fielding, re-lating to increased aid in the Pro-Laurier and Hon. W. S. Fielding, relating to increased aid in the Province. The Premier says that British Columbia has paid \$42,000,000 into the Federal Treasury since the Province came in, 23 years ago, and has received little, comparatively speaking, in return. The Province would like to aid the construction of the Coast-Kootenay road, as well as the Coast-Kootenay road, as well as the projected line to the Yukon, by

DRAWING A TOOTH.

It Was an Elephant's and Required Some Remarkable Tools.

Human dentistry is a difficult enough teeth troubles of animals is still more so. When the animal to be treated is an When the animal to be treated is all elephant, the problem becomes a big one in more senses than one. This was illustrated in the City of Mexico, where a mammoth sufferer called Columbus was successfully relieved of a raging tooth.

It is necessary to state that the troughly state that the troughly state that the constant of the control of the contr

It is necessary to state that the trou-blesome tooth was 12 inches long, the diameter at the root being no fewer than diameter at the root being no fewer than four inches. After the swollen gum had been thoroughly soaked with cocaine a three-quarter inch anger was used to make a hole through the offending tooth. To bore through solid ivory is by no means an easy task, and the veterinary surgeons had to handle the instrument in turns.

Even then the work had to be suspended every now and again, owing to the animal getting wrought up. On these occasions further doses of cocaine were injected, and after a couple of hours' isard work a hole had been successfully drilled through the tooth. A brief rest was then taken before the most important part of the work began. This consisted in running an iron rod through the hole, the ends of which protruded about four inches on either side.

A rope an inch in diameter which had been soaked in tar was then tied to each end of the bar and twisted about the tooth in such a fashion that it would not slip. Even then the work had to be sus-

The preparations were completed by

ranning part of the rope through a pul-ley, carrying it out and attaching it to the traces of four strong horses. The dramatic moment came when the rord was given to the driver to whip up

his horses.

Crack, crack! went the teamster's whip, and with a long, long pull and a strong, strong pull, accompanied by plenteous bellowing, out came the troublesome tooth.

Work of Gossips.

Men in large cities either do not marry at all or wait until late in life. This is the reason why people in small towns marry young: Two people commence going together. Within a month the gossips begin commenting on what a nice couple they are and predicting that they will marry. Things drift along this way until the gossips become impatient, and then they begin abusing the man and say that he is just fooling the girl and will cast her aside. The girl hears of this, tells her lover and suggests that they cast nor aside. The girl hears of this, tells her lover and suggests that they marry. The man gets mad at the gossips and marries the girl. Marriages are not made in heaven. They are made by the gossips in a small town. Not one man in ten wants to marry. The average man is in love with his liberty, independence and lack of responsibility, so if the girls want lack of responsibility, so if the girls want to marry they may consider the gossips their faithful allies.
