Sir Richard Cartwright.

Sir Richard Cartwright, Minister of Trade and Commerce, has come west to prepare for re-election on taking a seat in the new Liberal Cabinet. It is not believed that he will be opposed in North Oxford. Opposition, indeed, would but cause expense and trouble to the electorate, for the new Minister would be returned by a large majority. In the recent general election contest, the generalship of Sir Richard was exhibited in a marked degree in the constituencies east of Toronto which the member for North Oxford had under his charge. It has been remarked by a number of our contemporaries, and with truth, that the Liberals did extremely well in Eastern Ontario, and it is freely conceded that not a little of the success achieved was due to Sir Richard. Occasionally we see odd criticism of this able statesman. Sometimes the Conservative writers pitch into him for putting too much wax on his mustache; again disappointment is expressed that he is not funny enough in his public utterances, and once more it has been alleged that his views in regard to trade are too British to suit a certain class of Canadians. Sir Richard has strong views on many subjects, and some personal peculiarities, as have most eminent men:but it cannot be disputed that he is an able statesman, a convincing public speaker, a good friend of the people of Canada. There is much in the story which a noted opponent of Sir Richard Cartwright used to apply to himself. "It is invariably beneath the tree on which grows the best apples that the most stones can be found."

It was significant that when the Hamilton coterie endeavored to turn down Hon. Geo. W. Ross in the recent convention at Toronto, they were routed, horse, foot and artillery. First blood for the Hardy-Ross Government.

Salmon for Britain.

A delegation of wealthy Englishmen have come to Canada to investigate the propriety of opening up a large export trade for British Columbian salmon. Hitherto, salmon caught on our Pacific coast have, in small quantities, been conveyed to the British markets by way of the Cape of Good Hope, but the time taken in reaching the market, and the expense of the freight have been so great that an increasing trade by that route is out of the question. The proposal now is to ship the salmon in refrigerator cars over the C. P. R. to Montreal. in the summer, and to St. John, N.B., in winter. When necessary the salmon would be put in cold storage on shipboard, and thus it would reach the market in prime condition. Scotch salmon is preferred by the British trade, but its price always rules high, and the season ends in September, whereas the trade in Canadian salmon could be carried on into the winter, Mr. Bosworth, the freight manager of the C. P. R., who has communicated with the visiting capitalists, expresses the belief that with the facilities which his line can give, and with a study of the needs of the British markets, this trade can be firmly established.

Canadian salmon are second to none. and in the average season they are so plentiful that it should not be difficult to make the fish as popular with British buyers as is Canadian cheese. There seems to be no end to our resources as a country if they are properly developed.

In connection with the twaddle talk of reading a man like Hon. George W. Ross out of the temperance ranks. one is reminded of the reply of Sir John Macdonald, when asked to read somebody out of his party. "Why, bless my heart!" he said. "what I want to do is to read men into my party, not out."

Those Q. C.s.

The extraordinary list of Queen's Counsel, given to the press some time ago, though not gazetted, still remains in abeyance.

It has been reported that the men designated for the titles were selected by Hon. John Haggart and Dr. Montague, and this is given as the excuse why the late Government conferred, or attempted to confer, the title of Queen's Counsel on men who were not qualified for it. Men who Wales, Provincial and District Grand

remains ungazetted. One is to let it stand as an example of how the Government was conducted in the Tupper regime. Then a list, properly drawn up, could be issued in due course by the new Administration. Another way of remedying the injustice, and to rescue the profession from the ludicrous position in which it has been placed, would be to wipe out the recent list entirely, and issue one to do justice to the legal men, without regard to political proclivities.

The whole matter, it is satisfactory to know, is in the hands of the Minister of Justice, and Sir Oliver Mowat will doubtless reach a proper conclusion.

Is it not about time that Liberal papers, using plate matter, should see that their service is not purposely hostile to their friends? One of the services, used by some of our Liberal contemporaries, has been so flavored as to convey false views of the policy of Mr. Laurier and his chief supporters. The moral is obvious.

INCREASED DUTY ON SUGAR. Paris, July 20.-The Government is about issuing a decree increasing the laws by invading the territory of t custom duties upon all foreign sugars. A VETERAN SOLDIER.

London, July 20.-Sergt-Major Robt. Elliott, who is attached to Queen Victoria's personal guard, is on a 60 days' leave of absence, and will spend that time in visiting his sister in Montreal. He has seen 55 years of continuous service, and carries six decorations for bravery on the field. Among them are the Crimean, Turkish and Jubilee medals.

ANGLO-AMERICAN ARBITRATION. London, July 20 .- The Daily News publishes an interview with the Right Hon. James Bryce, M.P., the wellknown author of "The American Commonwealth," on the subject of Anglo-American arbitration. Mr. Bryce says that the dispatches exchaged by Lord Salisbury and Secretary of State Olnev show that each side is sincerely desirous of an agreement that will be satisfactory to both. Lord Salisbury, he holds, is over cautious.

gentine Republic. HEAT IN BRITAIN.

London, July 20 .- A welcome change of weather has come after a week of tropical heat and humidity. The long drought which has burned the lawns and meadows throughout England has been broken by showers, and in favored localities by a steady downpour of rain. While the temperature has not been above 87 degrees, the protracted burst of heat has caused great discomfort to man and Cab horses have fallen constantly on the streets and omnibus passengers have sweltered. The fall in tempera-ture was 30 degrees in 24 hours.

Quite a number of appointments are likely to be made.

BALFOUR EXPLAINS.

London, July 20 .- Mr. Arthur Balfour made a speech Friday night at the banquet of the United Club, in

state of the Government business, and that no Government ever succeeded at the first session of a Parliament in passing more than a sixth part of its programme. The moral he drew was that until the method of procedure was fundamentally reformed, it would only be possible to pass short bills, and that great questions could be dealt with only by short bills in suc-

JAMESON'S RAID.

Cape Town, July 20.-The committee of the Cape Assembly which has been engaged in investigation of the circumstances of the raid by Dr. Jameson and his followers into the Transvaal last winter have presented a majority report, declaring that Cecil Rhodes was aware of the intention of Jameson to invade the Boer country, but that the directors of the British South Africa Company in London were not aware, though they ought to have had their suspicions aroused, seeing that large payments of money were being made for alleged purposes of flotation, which really amounted to

revolution. London, July 20.—It is stated that President Kruger, of the Transvaal, has telegraphed to Colonial Secretary Chamberlain saying that he has no vindictive feeling towards Dr. Jameson, the leader of the raid into the Transvaal, and that he hopes his trial in London will not result in severe punishment for him.

BLUEJACKETS TO THE RESCUE. London, July 20 .- A dispatch from Canea, Crete, reports that a panic occurred there on Sunday, owing to the breaking out of a fire. The conflagration was mistaken for a signal for the beginning of a massacre of Christians by the Turks, and the houses of the inhabitants were immediately barricaded. Marines from the British and Austrian warships lying off the port were landed before the error was discovered. Confidence was quickly restored among the alarmed people.

THE SOUDAN.

England Will Not Abandon Egypt-Sal isbury Urged to Say So.

London, July 20 .- A remarkable article in the Edinburgh Review, demanding the frank avowal that we never mean to abandon Egypt, probably written by Sir Alfred Milner, is exciting plentiful abuse in European capitals of "Perfide Albion." The foreign minister at Santiago has Salisbury's equally remarkable speech on the Soudan expedition in the House of Lords strengthens the belief that despite its solemn pledges to Europe, the Government is not concerned so much with the Dervishes as with the creating of a strong British interest in North Africa, from which no European jealousy can dislodge them. The Spectator strongly urges the Government to tell the simple truth. and say plainly that "conditions have changed since we pledged ourselves to evacuate Egypt, and that we mean to stay and make Egypt a self-supporting part of the Empire." It says that Lord Salisbury probably will not accept this advice, because European diplomats urgently desire England to keep silence. They know that England cannot, and will not, leave Egypt, but fear that the frank avowal of her intention to stay would lead to popular outbursts, compelling war.

Mismanagement Aiready Revealed in the Departments.

The Ex-Deputy Speaker May Be Unseat-

ed and Disqualified.

A BAD STATE OF AFFAIRS. Ottawa, July 20.-The condition of the departments as left by the outgoing Ministers illustrates their utter inability to manage the affairs of the country. They were simply neglected shamefully. Matters that should have been attended years ago are still unsettied. No wonder that business men lost all confidence in the late Administration and its predecessor. One man posed restrictions of the Oleomargar- tendered for a contract amounting to a large sum, and deposited as security oleomargarine, either in imitation of was no appropriation for it, and yet margarine and butter be held ille- after month. REPORTED ARRANGEMENTS. A Quebec dispatch says: It is stated here that the Manitoba School Commission will be composed of Sir Oliver Mowat, Sir Henri Joly de Lotbiniere, and Hon. R. W. Scott, and that as the Laurier Government intends dealing at once with the fast Atlantic service question, Sir Richard Cartwright and the Hon. R. R. Dobell have been entrusted with the task of completing

The Ottawa correspondent of the Toronto Mail-Empire says: With referto the dismissals from Public Works Department, Mr. Tarte said to your correspondent tonight that there had not been a single dismissal from the departmental staff or the workshops. Some workmen and laborers for whom there was no more work at present had been dispensed with. That is all. Mr. Tarte has ordered a list prepared of all the employes in the Public Works Department, with details of appointment, duties, salaries, ets., but this, he intimates, does not by any means indicate an intention on his part to order any wholesale dismissals, but is for the purpose of his getting some personal information with respect to the working of his department

THE PREMIER'S MOVEMENTS. A Montreal dispatch says: Mr. Laurier is expected to be in Montreal today to make arrangements in connection with Mr. Tarte's election in St. Johns-Iberville. He will visit the constituency, and will then proceed to Arthabaska and Quebec to look after his own election. The will deliver speeches at Premier Brome, Port Neuf, Quebec county, and Quebec East, and is expected to make some important announcements.
