BETTER BUSINESS.

Outlook for the Steel Industry Markedly Improved.

CLEVELAND, O., Feb. 8.—The Iron Trade Review says to-day: The market for soft steel has furnished further encouraging indications the past week, and an advance of from 50 to 75 cents over the lowest prices touched has taken place. Pittsburgh and Chicago have recorded heavy transactions in billets, while prices have advanced to \$16 in Pittsburgh and \$18 50 in Chicago.

The heavy demand for wire rods is a further feature, and the refusal of an eastern order by a western mill indicates how well sold ahead are the rod mills of both sections—a condition that contrasts strangely with that of a few months ago.

The call for nails and for barb wire, which has been responsible for much of the business in billets, shows a starting of things in a retail way—the beginning of buying that must be looked to as a basis of any general revival.

From the standpoint of the mills the situation is better than at any time in months. Whether the process is one of building up to a basis of permanent betterment can be better determined in a few weeks hence.

No appreciable improvement has taken place in pig iron.

Byron's Shrine.

"Shrine of the mighty, if it be
That this is all remains of thee?"

—BYRON.

See a woman once rosy and bright, fair and beautiful, light of heart, quick of step, dainty in form, the very light and life of the house, and you see a picture that might be called a bit of Paradise. See that same woman worn by disease, pale and haggard, heavy of heart, speaking seldom, casting a shadow of gloom throughout the house by her presence, and you have a picture of Paradise Lost. Alas, she suffers from the curse that thousands of women know. Tell her that Dr. Pierce's Female Prescription is a certain cure for feminine weakness and derangement, it will restore health and good spirits and make her once more a blessing to her family and the world.

What Could Be Plainer.

"Jim, what is steam, anyhow?"
"It's a sort of vaporous sweat wot the millions of hanimacula wot's in the water throws out in their hanguish at bein' sealed to death."
"Wot a gilly I om! I might ha' knowed as much."

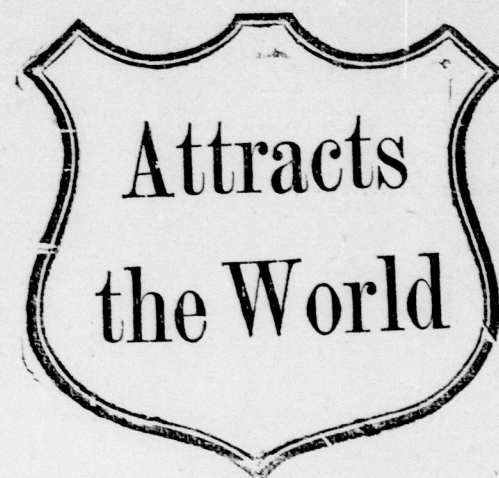

Simply—Soak,
Boil and Rinse
Then it's easy
enough—and safe
enough, too. Mill-
ions of women
are washing in
this way.
Are
you?

Soak your clothes in Pearline and water (over night is best); boil them in Pearline and water twenty minutes; rinse them—and they will be clean.

When you think what you save by doing away with the rubbing, the saving of health, the saving of clothes, the saving of hard work, time and money—then isn't it time to think about washing with Pearline?

Beware of imitations. 355 JAMES PYLE, N. Y.
