Dyspepsia

Is difficult digestion, due to a weakened condition of the stomach and its inability to properly churn the food; or to unhealthy condition of the gastric juice, too much or too little acid, too much or too dittle pepsin.

Hood's Sarsaparilla relieves all the distressing symptoms of dyspepsia because it promotes the muscular action of the stomach and intestines, aids nature in the manufacture of her own digestive secretions, which are far better than any artificial pepsin, unlocks the bowels, stimulates the kidneys and

tones up their mucous membranes. So prompt is its effect in many cases that it seems to have almost a magic touch.

Begin to take it NOW.

Suffered Everything—"I was troubled with dyspepsia, suffered everything but death, could not eat without terrible distress. Since taking Hood's Sarsaparilla I eat heartily and I am well." MRS. EUGENE MURPHY, Danbury, Conn.

PRESBYTERY OF LONDON

In Regular Session at the First Presbyterian Church.

Rev. R. McIntyre Appointed Moderator -After 43 Years in the Ministry Rev. Mr. Milloy Wishes

The Presbytery met at 10:30 a.m. in the lecture room of the First Presbyterian Church, Tuesday, J. F. Scott, moderator, presiding.

Mr. R. McIntyre was appointed moderator for the ensuing six months, and the retiring moderator was thanked for his diligence in office during his The clerk reported that, having ob-

tained authority, he had signed min-utes of Presbytery for those who had served as moderators and who were now at a distance. His action was indorsed. In regard to those gentlemen who are deceased, the clerk moved that a reference be made to the synod. This was carried.

A communication was read from the session of New Westminster, asking information concerning a gentleman who was once a member of the Presbytery of London. The document was laid on the table. A communication was read from

Rev. John Milloy, stating his desire to resign his charge by the second Sunday in June. Mr. Milloy is in his 80th year and the 43rd of the ministry. It was resolved to cite the congregations to appear for their interests at the May meeting of the Presbytery.

A communication was read, stating the arrangements made by North Ekfrid for their share of the manse property owned by the charge of Appin and Tait's Corners, and now the property of Appin and North Ekfrid. The arrangement was made amicably by the two congregations concerned, and was ratifled by the Presbytery, and satisfaction expressed.

A reference was heard from the Appin session in regard to a member who had been suspended, and who had united with another denomination without any correspondence with the The reference was received and the request contained therein granted.

A reference as to deficiency in finances was read from the Wardsville congregation. A committee was appointed, consisting of Dr. Johnston, Mr. Geddes and Mr. Bryan, elder, to meet with the minister and report in the afternoon.

Mr. Clark made a statement in regard to the century fund to the Presbytery, and moved, seconded by Mr. Currie, and resolved, "The Presbytery strongly urges all members and congregations within its bounds to make a special effort to fully remit their respective undertakings toward the century fund, and endeavor if possible to supplement the pledges made, in view of the fact that this last published statement indicates that the common fund is some \$100,000 short of the amount aimed at, and that the

time limit expires on May 1. On motion of Dr. Johnston, the name of Dr F Beattie was recommended to the board of Knox College, to fill the chair of apologitics and homiletics. Dr. Johnston brought up his motion

of which he gave notice in January, that the standing order of business be on amended to allow the reports church life and work to be received at the March meeting. It was decided that the reports be taken up at a conference preceding the January meeting of Presbytery.

THEORIES ABOUT FOOD

Also a Few Facts on the Same Subject.

We hear much nowadays about health foods and hygienic living, about vegetarianism and many other fads, along the same line.

Restaurants may be found in the large cities where no meat, pastry or coffee is served, and the food crank is in his glory, and arguments and the ories galore advanced to prove that meat was never intended for human stomachs, and almost make us believe that our sturdy ancestors who lived fourscore years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of

A healthy appetite and common sense are excellent guides to follow in matters of diet, and a mixed diet of grains, fruits and vegetables is undoubtedly

As compared with grains and vegetables, meat furnishes the most nutriment in a highly concentrated form, and is digested and assimilated more quickly than vegetables and grains.

Dr. Julius Remmson on this subject says: Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets because they supply the pepsin and diastase necessary to perfect digestion, and every form of

That large class of people who come under the head of nervous dyspeptics should eat plenty of meat, and insure its proper digestion by the daily use TO CURE THE GRIP IN TWO DAYS like Stuart's Dyspepsia Tablets, composed of the natural digestive principles, pepsin, diastase, fruit acids and salts, which actually perform the work of digestion. Cheap cathartic medicines masquerading under the name of dyspepsia cures are useless for indigestion, as they have absolutely no effect upon

the actual digestion of food. Dyspepsia in all its many forms is simply a failure of the stomach to digest food, and the sensible way to solve the riddle and cure the dyspepsia is to make daily use of a preparation like Stuart's Dyspepsia Tablets, which is indersed by the medical profession and known to contain active digestive principles.

The new law grants immunity from prosecution, except under the United States statute, to all persons living in polygamy. The federal status applies only to the celebration of a plural marriage. The avowed object of this act, which is passed at the dictation of the Mormon Church, is to allow men now having several wives, to live with them undisturbed. In consequence, preparations are already being made to resume openly polygamous relations. The measure, which is known as the Evans bill, passed the senate yesterday. It will be put through the house on Monday, probably under "gag" rule.
