Funds Voted for Operation of the I. C. R.—\$250,000 To Be Added to Territory Loan.

Ottawa, Oct. 1.-In the House of Commons this morning a third reading was given to the bill to lend \$250,000 to the Government of the Northwest Territories in addition to the regular grant of \$1,046, 979. The loan is without limit as to time, and will be qharged up against the Territories in any future arrangement regarding the political status of the Territories. The house then went into committee of supply on the item of \$47,000 for a deep-

water wharf at Sorel, Que. The day was taken up almost entirely in considering the estimates. The items passed during the afternoon were \$47,000 for a deep-water wharf at Sorel; \$6.500.000 for working expenses on the I. C. R., and \$236,000 for the Prince Edward Island on the Intercolonial altered, by abolishing the capital account and charging all expenditure to reserve, and also to afford some means of ascertaining which sections of the road pay and which do not. The Government declined to accept the

suggestion. The evening was spent largely in a dis cussion of the items for litigation in connection with the canals.

Mr. Fitzpatrick stated that, although the amount of litigation has increased, the law costs have materially decreased because much of the work formerly done by outside counsel was being now done by the Department of Justice.

Several items in connection with the canals were passed, and the house adourned at 10:30 p.m.

THE SENATE.

Senator Scott moved the second reading of the bill to amend the act relating to ocean steamship subsidies. This bill provides for a subsidized steamship service between Canada and France. He explained that this law was rendered necessary by the treaty, which stipulated that Canadian goods should be carried direct to French ports.

Sir Mackenzie. Bowell expressed the hope that this bill might tend to increase the trade between Canada and France. goods in order for them to enjoy the French minimum tariff. Although the advantages would accrue to Canada, the lines so far had never been sufficiently successful to justify the expenditure of the subsidy. The subsidy was now increased, and if this caused the development of a good freight trade the expenditure would be justified. He spoke of the Australian line subsidy as being justified on opening a market for agricultural implements, British Columbia lumber and at times for Northwest grain. He hoped a good trade would spring up between Canada and France. There was no reame on its arrival from the Commons.

on to the contrary. He hoped there might be sufficient subsidies offered to pen up a good trade with South Africa. The redistribution bill was read a first The bill to provide for the construcon of a national transcontinental railway was received from the Commons and read a first time.

# **BULGARIA PREPARES**

Recruits Are Ordered Out Earlier Than Usual.

Sofia, Bulgaria, Oct. 2.—The war ministry has ordered out the annual contingent of recruits for October 14, instead of at the beginning of the year, as is usual. This step, though ford; Rev. J. B. Reed, Hamilton; councitquite constitutional, has occasioned some surprise, considering the reported improvement in the general sit-uation. While the conditions are undoubtedly more hopeful there is a strong belief in many well informed quarters that the Macedonian question is still very threatening, and can only be settled by war. The Bulgarian Government therefore continues preparations for eventualities.
