JUDGMENT IN THE SACRED HEART CASE

the members of the A. O. F. with their Grounds Upon Which Their Lordships Allowed Appeal of the Defendants.

The following is the text of the judgment in the case of Archer vs. the Sacred Heart, which was dismissed with costs by Moss, C. J. O., Osler, Maclennan, Garrow and Maclaren, J. J. A. It will be remembered that the plaintiff won her case in th assize court in London, but the Sacre laughter at his explanation and ex- Heart appealed the case, and the a peal was allowed.

"I think that the action was pre-

perly dismissed as against defendant the Mount Hope Institute. That de fendant is clearly a separate corpora entity, incorporated by a Canadia statute. And with it as a separa corporation there is no pretense saying that plaintiff ever had contract or other connection w ever. And I think, also, for a s reason, that the action should h been dismissed against defendant Elizabeth Sheridan (superior of convent in London). Plaintiff never had a contract of any kind with her. The jury have by the verdict absolved her from all liability in tort, and the result must be that she, too, is entitled to be dismissed from the action. By the vow of poverty she (plaintiff) promised to divest herself of all her property of every kind, present and future, retaining absolutely nothing for herself. And by the vow of obedience she promised implicit obedience at all times in all things to the order whether reasonable or unreasonable or the superior.

"The plaintiff was not importune nor coerced, nor in any way impos upon by the society or its agents concludes the judgment in deali with the matter of the docume signed by Miss Archer in which agreed to forgo all claims against Sacred Heart on the payment by the latter to her of \$300.
"The appeal of defendants against th awarding of \$5,000 damages is therefore allowed, the cross appeal of plain tiff against the decision of Chancello plaintiff dismissed with costs."
