Berlin, July 29.—The people of Xanten, near Wesel, Prussia, are in an excited condition of mind over an alleged Jewish outrage. The story is the familiar one often heard in times of popular animosity against the Hebrews. The corpse of a Christian boy was found, it is said, near a Jewish butcher shop, and the news quickly spread that the Jews had killed the child as a part of their sacrificial rites. A general uprising against the Jews seemed imminent, but the police took strong measures, and succeeded in preserving order, though it has been necessary to maintain a constant guard over the Jewish residents, to protect them from the wrath of the Christians. As for the Jewish shops, they are absolutely boycotted.

Ottawa, July 30.—Col. Howard Viment delivered an able address at the city hall, this evening, on the subject of trade relations between Canada and the Mother Country. The chairman called upon Premier Robson, of British Columbia, who made a short, but telling speech. He said he felt a deep interest in this subject, and had done so for years. Therefore, he was doubly pleased to hear Col. Vincent's exposition of his views, which he considered clear, forcin ble, and carrying conviction with it. Hith evo Camada's relation with the Mother Country had only been one of sentiment loyalty to the British crown had already do darried Canada through many tight places, but now the time had come when the relationship should be of a more prefitable and practical character. Col. Vincent will shortly visit British Columbia.
