NEWS FROM THE RAILWAY TOWN.

Moncton is Dry Under Scott Act as Now Enforced. Interesting Discourse.

MONCTON, May 2.—The Scott Act continues to be enforced and will as long as the services of Chief Hildout are retained by the city.

Dr. Andrews of Mount Allison gave a very interesting discourse before the Canadian Club on Friday night on the value of economy in citizenship. Some good wholesome advice was given to an appreciative but not very large audience. It is a great problem why the young men of this city do not avail themselves of the privilege of further enlightenment by listening to the many instructive addresses which the Canadian Club treats its members to from time to time.

The Colonial Stock Co. will visit this city once more and those who like to attend real interesting and good shows, are delighted to know that they will have the privilege on Thursday, Friday and Saturday of listening to this company who always have something new. Not only new people but new plays. No better company ever visited this city.

Letters of administration have been granted Judson Black in the estate of his brother Leonard Black, deceased, who was killed at the station here while shunting. The estate consists of real estate \$1,500 and insurance \$2,500. Mr. Judson Black is the well known bookman who runs between Moncton and Campbellton on 23 and 24.

The Christian Brotherhood of the Baptist Church gave a concert here on the 11th inst. at their hall, which adjoins the Baptist church.

At the central Methodist church yesterday afternoon, there was a very interesting discussion by the men's League in regard to children. Mr. J. T. Hawke led in a fine address on "A Free for the Children." Mr. Hawke advocated that a great deal of the juvenile crimes were caused by the

lack of parents attending to a proper responsibility over their little ones. Corporal punishment is all right when deserved, and judiciously applied.

Parents should see their children attended school faithfully, and not uphold them in disobeying the teacher. Compulsory education should be adopted and enforced. The discourse was listened to throughout and a resolution of thanks passed and Mr. Hawke was asked by the unanimous vote of the audience to publish his address. After discussion by other members of the league they also decided by unanimous vote to ask the city Council to adopt compulsory attendance at school.

It is rumored here that the Ocean Limited will go on about June 5th. Rev. C. W. Corey, who has so acceptably filled the pulpit as pastor at the First Baptist Church during the winter, will sever his connection with this church soon to accept the pastorate of a church in British Columbia.

If your Stomach, Heart or Kidneys are weak, try at least a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the stomach, nor stimulate the heart, nor overburden the kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity fail. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success in leading druggists everywhere to give it universal preference. A test will surely tell. Sold by all dealers.

NEW POST OFFICE
A new post office has been opened at Grand Pabos Centre. This will be a great convenience to residents of that district.

AT NEW MILLS
Mrs. P. X. Russell will be at the home of Mrs. Russell Hickie, New Mills on the 10th and 11th May with a full line of millinery.

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice thereby inducing good digestion. Sold by all dealers.

Snappy styles of distinction that stand out from the ordinary clothes so decidedly that when you see them, buying will be irresistible.

D. J. BRUCE, THE CLOTHIER.

COUNCIL APPOINTS TOWN MARSHALL AND OTHER OFFICERS.

Lengthy Meeting Held Tuesday Evening and Much Business Transacted. Questions Asked. Water Rates Discussed.

NEW DUMPING GROUND.

The annual meeting of the Town Council was held in the Council Chamber Tuesday evening, May 4th. His Worship Mayor Murray and the full board being present.

The clerk read the application of A. Ferns and Jas. H. Pitt of St. John for positions on the police force, also an application from Chas. B. Gray for the position of Town Marshal. These were referred to the Police and Licensing Committee.

His Worship notified the Council that he had been served with a writ in an action for damages at the instance of Oliver Bourdieu, and that the case would be tried at Dalhousie in August.

On motion of Coun. McDonald the Town Marshal was instructed to take the necessary steps to defend the case. His Worship also notified the Council that he had been served with a notice of appeal from the decision of the Supreme Court of New Brunswick in reference to the Local Option election at the instance of Ferdinand Belanger and Henry Cormier.

The motion of Coun. Miller the town solicitor was instructed to take the necessary steps to defend.

Applications for junking licenses were read from Messrs. Wm. S. Young, Geo. Dunn, Geo. Main, Adam LeBlanc, J. Arthur O'Keefe.

Messrs. R. S. Chandler and P. S. Martin made application for auditors' licenses. Referred to police and license committee.

Applications for licenses for pool and bowling alleys were read from Messrs. W. R. Riddell and Scott & Marquis. Referred to police and license committee.

A petition was read from the residents of Lansdowne street praying that the council would without unnecessary delay repair that street and the new cottage on McMillan Terrace being built for Mr. Crowley would be \$1,000.00.

Coun. Mowat did not think that it was necessary at the present time to put in such a permanent system. A smaller pipe and connection with some other street might cost less.

The matter was held over for more information.

The following town officers were then appointed—Deputy Mayor—Councillor A. McLeod. Ex-Officio County Councillor—Coun. Mowat.

Town Clerk—John T. Reid. Town Treasurer—S. H. Lingley. Town Solicitor—Trueman & McKemie.

A BIT OF ADVICE
First—Don't Delay. Second—Don't Experiment.

If you suffer from headache, headache or dizzy spells; if you rest poorly and are languid in the morning; if the kidney secretions are irregular and unnatural in appearance, do not delay. The kidneys are calling for help. Slight symptoms of kidney troubles are but forerunners of more serious complaints. They should be given attention before it is too late.

Booth's Kidney Pills cure kidney trouble. They are recommended by thousands. Can Campbellton residents desire more convincing proof than the statement of a Moncton citizen?

Mrs. Thos. Bourque of 153 Robinson St., Moncton, N. B. says:—I was nervous and run down. Had suffered almost constantly with headaches. My back was very sore and painful. If I had occasion to stoop, it would take many seconds to straighten up again. My appetite was falling, the color left my face, I felt tired and languid with the least exertion. Had tried several remedies but found no relief, until upon advice of a friend I tried Booth's Kidney Pills. Only one box was used, but I have been a well woman ever since, in fact, am like a new person and cannot speak too highly of Booth's Kidney Pills.

For sale in Campbellton by Thos. Wren. Sold by all Druggists. Price 25 cents. The R. T. Booth Co. Ltd. Port Erie, Ont. sole Canadian Agents.

Town Auditor—Frank E. Blackmail. Auditors of School Accounts—R. M. Hase and M. M. Kelly.

Assessors—Ward One, W. H. Wallace; Ward Two, Bliss Lutz; Ward Three, Archibald Henderson.

Revisors—D. C. Firth, Wm. P. Gray, Board of Health—Geo. Vermette, J. White, A. McLeod, J. R. McKemie.

Commissioner of Public Charities—G. E. Asker.

Town Engineer—D. T. Black. Street Commissioner—Wm. Taylor. Building Inspector—Bryan Annett. Inspector of Plumbing—D. T. Black. Chief of Fire Department—Wm. J. Christie.

Engineer Fire Engine—Walter J. Appleton. Fireman of Fire Engine—J. Sargent. Carriage Town Horse—Wm. Noble.

On and after the 4th of June, the Campbellton banks will close each Saturday at 12 o'clock noon.

Don't let anyone dictate to you what you ask for—the genuine "D. & L." Menstrual Plaster, made for many years by Davis & Lawrence Co. for the quick relief of backache, headache, etc. Get the genuine.

DRIVERS COMING SLOWLY
The water in the many branches of the Restigouche has on account of the prolonged cold weather, fallen to very low pitch and the drivers are coming along slowly. J. Doucet, who was in charge of the drive on Burnt Island Brook has given up work and unless rain and warm weather comes soon these things will not get out this season.

Minard's Liniment Co., Limited. It was very sick with Quinsy and thought I would strangle. I used MINARD'S LINIMENT and it cured me at once.

I am never without it now. Yours gratefully. MRS. C. D. PRINCE. Nauviggawuk, Oct. 21st.

Manager Water and Sewerage System—Donald T. Black. Manager Electric Light System—Hiram G. D. Farrer.

Firemen Electric Light System—Chas. B. Scott and James Cantley. Town Marshal—Robert Crawford. Policeman—Wilfrid Brown.

Constables—Wm. Taylor, Robt. Gray, D. W. Doherty, J. L. McDonald, Chas. B. Gray, August Stevens, D. Downes.

The rate of payment for water charged the S. S. Canada received some attention and on motion the rate was fixed at \$2.50 per trip instead of \$2.50 as formerly.

The matter of providing a suitable dumping ground was also up for discussion. The lease of the present lot expires June 1st and could not be renewed.

The matter was referred to the Public Property and Streets Com. Coun. White asked when the town accounts would be issued and His Worship answered that they would be out very soon.

Coun. McNeill gave notice of a motion which he would move at the next meeting of the council to the effect that the engineer and firemen of the fire engine be paid by the hour for all work performed instead of a stated salary as at present. He said the fire engine was used very little now owing to the increasing pressure in the water system, and he thought it would be a saving to the town.

On motion it was decided to fix all salaries of town officers at the next meeting of the town council. The council then adjourned.

PHOSPHONOL
The Electric Restorer for Men. Restores every nerve in the body electric tension, restores vim and vitality. Premature decay and all sexual weakness averted at once. Phosphonol will make you a subject for the Price \$3.00 a box, or two for \$5.00 mailed to any address on receipt of price. The Robell Drug Co. St. Catharines, Ont.

Minard's Liniment Co., Limited. It was very sick with Quinsy and thought I would strangle. I used MINARD'S LINIMENT and it cured me at once.

I am never without it now. Yours gratefully. MRS. C. D. PRINCE. Nauviggawuk, Oct. 21st.

SIR WILFRED AND MR. GLADSTONE.

London Journal Says There is Striking Resemblance Between the Two Statesmen

LONDON, May 4.—The Times says Sir Wilfrid Laurier's insight is equal to his great experience. He has never been excelled in clearness of vision and the felicity of his phrase suggests, wherein on Tuesday he outlined the relations between the British governors-general system and national self-government Laurier speaks on all constitutional topics with something of the fervor and imagination of Gladstone.

The Morning Post objecting in the interests of the agriculturists, to free the colonial wheat which may ultimately mean the loss of £2,000,000 revenue.

The Mail, agent Laurier's remarks on the choice of a viceroy, says coming from a statesman of great experience and French descent, these reflections are flattering to our national pride and any departure from the present practice may be productive of harm.

AGAIN OFF THIS BASE
The Tribune's editor in his report of the Council proceedings says: "Councillor McDonald then suggested the rate for steam boilers be lowered. He said the work could be done much quicker when the new four-inch pipe was laid down to the wharf. The stream from the present two inch pipe (which was the size of the Tribune's water motor supply pipe) was only a dribble, and the men attending the service were kept there entirely too long waiting to give the vessels the necessary water, where as with the new four inch pipe proposed to be laid much time would be saved and the work would be done much cheaper, and in consequence the town could lower the rate and make just as much money out of it."

See the stress he puts on the size of the Tribune's water motor supply. If Coun. McDonald had been properly quoted or if Mr. Crockett had consulted engineer Black (if he wished to be fair) he would have told his readers that the pipe supplying vessels at the government wharf is only an old one inch pipe, very much corroded and nearly filled with rust, that it runs five hundred feet before it reaches the water motor and after runs one hundred and fifty feet through rubber hose to the vessels' tanks. No wonder the water runs slowly.

There is no comparison even if it were a two-inch pipe, between this service and the Tribune's supply, which has only a few feet to run from the town main, and consequently has little friction to overcome.

Water Off.
Water will be turned off the whole town from 4 a. m. on Sunday, May 8th, and turned on at 8 a. m. the same day to make connections.

D. T. BLACK.

BEECHAM'S PILLS

A FINE ATTRACTION FOR NEXT MONDAY NIGHT.

The Climax, a play in three acts by Edward Locke, with music by Joseph Carl Reel, will be seen here for the first time at the Opera House on Monday evening, May 9. The Climax comes as a final argument to the much discussed question whether the stage is as well as entertainment.

Mr. Joseph Weber who stands sponsor for the delightful little play during the run at his own theatre New York was constantly in receipt of applications from college professors and clergymen requesting that some arrangement be made by which their followers could see the play.

The melody-drama, as it has been termed is founded upon a subject familiar to the inhabitants of even the smallest hamlets. It is told in the simplest language of the people it is supposed to depict, and while that language is expressive and in many cases almost epigrammatical, it is the simple conversation of real people.

The story is of a young woman, Adeline von Hagen, who comes to New York from the middle West to study music and to develop her voice as a singer. She resides in the household of her instructor Luigi Goldanti, and is beloved by his son Pietro. She is also beloved by John Raymond, a young physician from her home town. A minor operation becomes necessary to relieve her throat. It is performed by a specialist after which Adeline is left in the care of Doctor Raymond. Previously however, the girl has rejected both suitors in order to follow the delightful will-o-the-wisp of a stage career. Dr. Raymond employs mental suggestion to destroy the girl's ability to sing.

The situation is intense although natural and unobtruded. There is an unusual comedy relief, the two together forming what has been pronounced the best play in years.
