JOHN STARK & CO

26 TORONTO-STREET

TIPS FROM WALL-STREET.

John J. Dixon & Co. received the following despatch over their private wire from Henry Alien & Co. to-day:

New York, Dec. 19.—The Stock Exchange has had a wild jubilee to-day. Money has been loaning at all sorts of prices, at one time ruling, at 50 per cent. The rate for most of the day was 25 per cent. Again the banks have been discriminating against collateral. Distillers, Chicago Gas and most of the other Industrials have dropped from 6 to 12 points. Just at the close of the market there was something of a rully, the money rate dropping to 8 per cent, but none of the losses of the day were anything like regains. The money rate dropping to 8 per cent, but none of the losses of the day were anything like regains at in the afternoon, and that stock was knocked down somewhat. We believe that many of the most active stocks are now selling to 10 per cent, but none of the day were anything like regains at in the afternoon, and that stock was knocked down somewhat. We believe that many of the most active stocks are now selling to 10 per cent, but none of the day were anything like regains at in the afternoon, and that stock was knocked down somewhat. We believe that many of the most active stocks are now selling about it is generally believed they are still long a long time to bring about it is generally believed they are still long a long time to bring about it is generally believed they are still long a long time to bring about it is generally believed they are still long a long time to bring about the situation. Corn and oats have declined in the situation of the proper stocks. The short interest has been increased, and it looks as if the market was getting ready and increased in the looks as if the market was getting ready and increased in the looks as if the market was getting ready lones. 3780.

Rates are as follows: Bank of England rate, per cent; open rate for discount, 134 per nt; call oans in New York, 25 to 50 per cent.; Il loans in Toronto, 5 per cent.

METAL LOOP HOOKS AND EYES. Previous to this invention a great deal of labor was expended in making loops of thread, and in covering up the old fashioned unsightly eyes, which required to be sewn on. The new loops are so made as to be set to place instantly. They can be readily removed if necessary without disfiguring the fabric; very little, if any, sewing is necessary. Clothing manufacturers are united in praising them them, the larger sizes being just what they want for Cape Overcoats and Children's Suits. For Children's Dresses there is nothing else which does so well for a fastener and the Leading Dressmakers endorse them after a trial.

Provious our breakfast tables with a delicately flavored beverage with may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be such arti
