

"YOU'LL SUFFER ALL YOUR LIFE"

That's what the Doctor told him

"Fruit-a-lives Cured Him"

CHESTERVILLE, ONT., Jan. 25th 1911
 "For over twenty years, I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life."
 I doctored with different medical men and tried many advertised remedies, but none of them suited my case.
 Nearly a year ago, I tried "Fruit-a-lives". I have been using this fruit medicine nearly all the time since, and am glad to say that I am cured.
 I give "Fruit-a-lives" the credit of doing what the doctors said was impossible.
 I am now seventy-six years old, and in first class health.

GEO. W. BARKLEY.
 In all the world, there is no other remedy that has cured so many cases of so-called "incurable" kidney disease, as "Fruit-a-lives".
 This famous fruit medicine acts directly on the kidneys—beating and strengthening them—and ridding the system of the waste matter that poisons the blood. 50c. a box, 6 for \$2.50, trial size, 25c. At dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

The C. P. R. and Truro

(Truro Sun)
 It is pretty safe to predict that Truro in the next five or six years will be a much more important and busier railway centre than it is today.

No person need be surprised if by that time two continental roads, or the traffic of two continental railways, pass through it to and from the sea, and in addition to that, two, at least, branch roads will touch here.

It is officially announced that the standard of the D. A. R., including the Midland, is to be brought up to the standard of efficiency of the C. P. R.

And it can also be pretty safely assured that that big corporation will not end its railway operations in Nova Scotia at that.

The big road and its tributaries go after business, therefore you can mark it down that the company will build the North Colchester railway, and thus get into touch with E. E. Island. Indeed Sir Thomas Shaughnessy, the president of the C. P. R. has already stated that in time they would get around to the building of that road.

In respect of railway accommodation, Truro must plan with an eye to the future, just as Halifax is planning for the future.

In matters of railway, Truro is indisputably the "Hub" of the province, and in that the bulk of her future success lies.

SENSIBLE GIFT GIVING.

Stop thoughtless giving. It is a waste of money, and no one thanks you. Far better an appropriate trifle than a costly present for which the recipient has no use.

MONEY

If money made the birds sing any sweeter.

Or made the skies a brighter, better blue;

If money made a summer's day complete

Or added to the sunset's gorgeous view;

If money made a meadow more entrancing.

A shady lane a better place to stroll;

If gold could add one bit to my romancing.

On money then I'd try to feed my soul.

If money made my true friends any truer;

If money could keep sorrow from the door;

If it could make her blue eyes any bluer,

Each day I'd rise to fight for more and more.

If money made my babies fond caresses

Sweeter to me, I'd spurn all play and rest.

Face dangers grim and dare all dire distresses,

For money then I'd sacrifice my best.

But since my joys are fixed and everlasting,

Since woods and trees can never greater be;

And since a stream, where idly I am casting,

Delights the rich no more than it does me,

I sing my little song and wander gayly,

Content with what I reap along the way;

Life's richest pleasures I may gather daily,

I do not need much money to be gay.

I need not bind my soul with any fetter,

Or wait for joy till I have wealth untold;

My baby's kiss would not seem any better,

Though I possessed a hoard of yellow gold.

The ones I love could not be any dearer,

No happier could be my hours of play.

And money could not bring me one step nearer

Life's real joys—for they are mine today.

A Des Moines man had an attack of muscular rheumatism in his shoulder.

A friend advised him to go to Hot Springs. That meant an expense of \$150.00 or more. He sought for a quicker and cheaper way to cure it and found it in Chamberlain's Liniment. Three days after the first application of this liniment he was well. For sale by druggists and dealers.

Don't let your Christmas go by without giving some sort of present to a child. The excuse that you know no children will not suffice. You can know plenty of them between now and the day of days.

WHY KEEP ON COUGHING?

Here is a Remedy That Will Stop It

Do you realize the danger in a neglected cough?

Then why don't you get rid of it? Yes, you can shake it off, even though it has stuck to you for a long time, if you go about it right.

Keep out in the fresh air as much as you can, build up your strength with plenty of wholesome food, and take Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne.

This reliable household remedy has broken up thousands of hacking, persistent coughs, which were just as troublesome as yours, and what it has done for so many others it will do for you.

Na-Dru-Co Syrup of Linseed, Licorice and Chlorodyne contains absolutely no harmful drugs, and so can be given safely to children, as well as adults.

Your physician or druggist can confirm this statement, for we are ready to send them on request a complete list of all the ingredients.

Put up in 25c. and 50c. bottles by the National Drug and Chemical Co. of Canada, Limited.

The Presbyterian Witness reports that the City Council of Halifax are taking prompt and active measures for the suppression of houses of ill-fame in this City. A large delegation from the Moral Reform Association waited upon the council last week, and were accorded a sympathetic hearing. The situation which has led to this campaign against vice was forcibly set before the council by the president of the Moral Reform Association, Rev. C. W. Vernon, Rev. John McInnis, and Rev. Fr. Foley. The council is now pledged to an attitude of uncompromising hostility towards those evil resorts, and the police have been instructed to close every one of them. The publicity given to conditions in the "red light" district of Halifax has been largely instrumental in arousing public sentiment to the point of demanding immediate action. Halifax is probably no worse than many cities in Canada in the matter of morality. We believe conditions here are not so bad as in some of the larger cities of the Dominion. Nevertheless, there was crying need for reform, and it is to the credit of the City Council that they have taken such prompt action in response to the representations made to them by the clergymen and other prominent citizens.

Quaint Effects in Pincushions.

A charmingly quaint little pincushion and one that can easily be made by the girl who can handle a needle, is the Browale cushion. Hunt up one of your long neglected friends, the ping pong ball, and with water-colors paint a weird looking face upon it. Then take a piece of saten the color you wish to dress Browale in and cut it five inches long by three inches wide. Sew this tightly at each end to form ears that stand away from the head and gather the rest up behind to make the little baldheaded cap, then paint in a little fringe of hair to peep

out underneath the cap, which will improve the looks of Browale.

A small, tight body is made out of a ball of raw cotton. This is so covered with saten to match the cap and sewed down fast in the back. Arms and legs are made by covering wide ribbon wire with pale pink satin ribbons. These are attached to the cotton body before the dress is put on, and they can be bent into any funny posture you wish. It is cunning to have Mr. Browale look as if he were sitting down in crossleg fashion like a tiny tailor.

In his two hands he holds a bow of narrow ribbon with a long loop attached. This serves to hang the little fellow up with if you wish to have him sit at the side of your dressing table. No one wants to stick cold steel into this dear little fellow, so at his back you sew fast a long narrow cushion in which you may run all the pins and needles you wish without marring the quiet looks of your little friend.

The doll cushion illustrated is a charming trifle made of ribbon and cream satin touched up with water-colors.

A Utility Square.

If you have a friend who lives in a boarding house she will appreciate the gift of a utility square.

This is simply a fifty-four inch square of china silk, cretonne, silk-line, linen or any soft material that will take little room in a suitcase and which is used to throw over a chair on which underclothing has been put to air when it is necessary to open the door to admit a helboy, maid or any stranger who may knock.

The edges of the square are either finished with a plain hem, hemstitched or fringed. Fringed edges are most graceful. If plain material is chosen a flower or some attractive conventional design is embroidered in each corner.

Manicure Set.

Women who manicure their own nails will enjoy having one of the new

manicure sets with the utensils enclosed in a generous sized buffer. The manicure set pictured is in this novel form carried out in celluloid—positively known as Ivory.

CHRISTMASY TRIFLES.

Make Somebody Happy by Giving Her a Reticule.

Every Christmas needleworker this year is making a reticule for somebody. There is a craze at present for these graceful bags, and styles range from simple affairs of linen for use with next summer's frocks to the most elaborate bags of satin and gold lace, to be carried with opera and theater costumes. Such a bag, if it is to be successful must be fashioned with the very best of materials, and a really handsome bag of this sort may easily cost \$4 or \$5 for the materials alone, though the finished models in the shops, especially the imported models, are tremendously expensive. The handsomest reticules are made of heavy, soft satin, lined with gold or metallic net and ornamented with the tiny ribbon flowers which may be bought all ready to apply. Simpler bags of satin, embroidered with silk or chenille and braided with gold or silver cord, are very effective also, and most dainty theater bags may be made of Dresden ribbon, lined with soft, heavy satin in a delicate pastel tint. The large reticule is always perfectly flat in shape and is usually in envelope style, with one side buttoning over the other at the top. A thin strip of wadding should be inserted inside the lining across the top of such a reticule.

EXPERIMENTAL FARM

Cleaner.—It is learned that the Dominion government agents have completed the purchase of the property owned by W. W. Boyce on the Wilsey road, a short distance below Fredericton. This property, which comprises about 110 acres, will be used in connection with the experimental farm for New Brunswick, which is being established here. This purchase practically completes the land required for the new farm, about 460 acres in all. The price paid for the Boyce property is said to be in the vicinity of \$4,000.

Henry Ward Beecher was once called upon to visit a family all of whom were ill. The good sister said: "Brother Beecher, I suppose it is the will of Him who knoweth best." Sarcely were the words uttered ere she met with the just reproof from her pastor: "It's no such thing, it's that stinking cabbage in your cellar."
