**GENERALLY STRONGER — MORE DISPOSITION TO BUY — MORRISON ADVANCES — VIRTUE STRONG — BUSINESS LIGHT.**

The market is firmer with indications of an advance in many directions. Buyers are giving a decided preference to the better class of stocks, but those in the cheap list which have good chances for development are by no means neglected. Among these are Canadian Gold Fields Syndicate, California, Big Three, Montreal Gold Fields and one or two others. The dividend payers were all in better request and the chances for an advance are good.

California is in fair supply, but every new buyer, at present figures, is a benefit to the stock. The selling is, on the part of those who have bought the stock, very low and are taking profits.

Virtue was scarce as evidenced by one sale being made at 42, and the stock closing at 43 1/2 bid. If Cumberland is worth 50 so is Virtue.

Golden Star was weak, the only sale made being at 41. This stock seems to be the freak of the Toronto Exchanges. Those who have it should keep it, and those who have none should buy it.

Montreal-London was traded in, in peddling lots. It maintains its late advance very well. The decline was largely due to buyers away up being unable to bear the burden, and as the stock declined so did their money and courage. It now sells at 48, which is equal to 200. It has a small capitalization which is greatly in its favor. Though by no means bearish on the property, we think for the present 50 is high enough for it.
