OUR ANNUAL REVIEW.

The publishers of this journal have sent out a large number of circulars to lumber manufacturers throughout the Dominion soliciting certain information regarding the lumber trade of 1903. This information is desired for the purpose of assisting us in compiling our annual review, and it is not the intention to associate the name of the manufacturer with the information given, but rather to use it as a basis for a general article, as in former years. Some manufacturers have not as yet returned the circular sent them, and as it is necessary that we should have their assistance in order to arrive at a thorough understanding of the conditions which prevailed in all localities, we respectfully request all who have not done so to send in the desired information promptly.
