

Dr. P. is an original member of Bishop's College Faculty of Medicine, and holds now the chair of Surgery. He is considered a successful lecturer. He is also the Medical Secretary of the Western Hospital, to which Institution he devotes much attention.

JAMES C. CAMERON, M.D., M.R.C.P.I.

This gentleman, whose residence is in Belmont Park, possesses one of the, if not *the*, nicest office in the city. He has a large practice, yet takes an active part in what may be termed Medical life. He has been a member of Bishop's College Faculty for some years, and this winter lectures for the first time on "obstetrics." So far as I can learn, he is an excellent lecturer. He is also a good speaker, and sets forth his arguments with logical precision. He takes an active interest in the Medico-Chirurgical Society, of which last year he was one of the office bearers. He married a few years ago, the only daughter of James Dakers, Esq. The mansion in which he resides is one of the finest and most beautiful in Montreal.

GEORGE W. MAJOR, M.D.

My friend Major is now a specialist, and a good one I believe. I think he is to be congratulated on both these points. On the first, because it enables him to get fees, which makes the good old-fashioned family doctor's teeth water, and on the second because some specialists are humbugs. Dr. Major was for the first thirteen years of his life a general practitioner, and such men are generally the best specialists. He is also a bachelor. It has often struck me how many Bachelor Doctors we have in Montreal. At one time it was thought a Doctor should be married, but, judging from the success which attends our Bachelor physicians, such is not the prevailing opinion now. Still a wife is a good possession for any man to have, and I don't think Doctors any exception to the rule.

RICHARD A. KENNEDY, M.D.

Dr. Kennedy is a most conscientious practitioner, and has attained a large measure of success. His patients with good reason place great reliance on his judgment. His friends regret that of late years his health has been such as to necessitate that he should husband it. From this cause he had this year to cease active work in the Medical Faculty of Bishop's College, with which he has been connected from its organization.

FRANK J. SHEPHERD, M.D., M.R.C.S.E.

This gentleman is, I understand, devoting himself largely to Surgical practice, and since his connection with the General Hospital, now nearly two years, has shown that he is well qualified for such work. His position at McGill, and his family connections are sure to assist in his elevation. His present position is more than good, with every prospect of much advancement.

G. E. ARMSTRONG, M.D.

This gentleman may be styled "a pronounced success." Already he has as much to attend to as one man can conveniently look after. Such a measure of success does not come to any man unless he deserves it. The inference is that Dr. Armstrong deserves it, and I believe he does. He has a clear head, and a steady hand, which latter makes him peculiarly suitable for a Surgeon. He is one of the Attending Physicians to the Western Hospital, and is Professor of Physiology in Bishop's College. His weakness is a good horse, and he does not mind changing his animal as often as once a month, if in the change he thinks he is getting a better one. To have a horse which requires to be mastered is a fascination to him.

C. ALBERT WOOD, M.D.

This gentleman is a graduate of Bishop's College, and although not more than eight years in practice is already one of the busiest men in the city. He may be styled what is known as a bright man. In the suburb of the city where he resides he finds time to take a leading part in everything which tends to the elevation and amusement of its people. My friend is still a Bachelor. From some of the amusements in which I have lately seen his name figuring I don't think he can remain long so, or his heart must be harder than steel.

J. B. McCONNELL, M.D.

A comparatively young man, giving good promise of ere long taking a leading position. His reputation of a Botanist is, I think, only excelled by one or two men in the Dominion. He is Professor of Materia Medica and Therapeutics in Bishop's College.

A. LAPHORN SMITH, B.A., M.D., M.R.C.S.E.

Dr. Smith is the son of the Deputy Minister of Marine and Fisheries, and is among the rising young Physicians of our city. That he possesses determination of character was well illustrated by
