

THE GOLDIE & MCGULLOUGH GO., LTD.

High Grade Modern Flour Milling

THE science of milling has of late made very rapid progress, and we invite all who aim at having the best machinery in this line to investigate our system. For general excellence of design, workmanship and material, and for attaining the very best results, we claim that our manufactures in this line are not anywhere surpassed.

Improved Dustless Purifier

Noah W. Holt's Patents

THIS MACHINE of which we are the sole manufacturers in the Dominion, will be found indispensable in every well equipped mill in the country. From careful investigation into its operation in the States, where other purifiers were used in the mill, and from our own experiments, we are satisfied that it supplies a long felt want in all modern mills and entirely obviates a constant source of danger from fire from the dust-laden air in and around all previously constructed purifiers. The power required to drive it is small, bearing no comparison with that required by ordinary machines.
