

FROM NORTHERN NORWAY.

A VALUABLE DISCOVERY MADE IN THAT FAR-OFF LAND.

The Wonderful Remedial and Nourishing properties of Cod-Liver Oil—A Priceless Gift from the "Land of the Midnight Sun"

There has been nothing discovered by medical science to take the place of Cod-liver Oil. It is somewhat singular that there should be obtained from the livers of cod fish a nourishment and remedial agent which cannot be supplanted by some other food-medicine, but, nevertheless, such is the undisputed fact.

How Cod-liver Oil was discovered is not definitely known. It is certain, however, that up in the cold regions of the North the natives long ago made use of all parts of the fish they caught that could possibly be made available for food, and it is probable that the Lapps of Northern Norway have known the virtues of Cod-liver Oil for a century. They found that in Cod-liver Oil were nourishing powers not possessed by any other food or medicine within their reach, and they were not slow to avail themselves of the benefits of a substance so easy for them to obtain.

About fifty years ago, the medical world in civilized countries became impressed with Cod-liver Oil, and by close observation and experiment, physicians found that Cod-liver Oil could be made a wonderful help to their profession. The result of investigation proved that after Cod-liver Oil was taken into the system it became an emulsion, just as milk is an emulsion of butter. This knowledge resulted twenty years ago in the appearance of Scott's Emulsion, which has now become a world-famed preparation.

Scott's Emulsion has taken the place of Cod-liver Oil, that is in its raw state. Scott's Emulsion and Cod-liver Oil are of course one and the same thing, except that in Scott's Emulsion the taste of the oil is completely disguised and all of the objections advanced by a nervous person with a weak stomach are entirely overcome. Scott's Emulsion saves the digestive organs the work of converting the oil into an emulsion, but it does not result in any unnatural process of digestion and assimilation.

Scott's Emulsion aids the digestion of other foods in the stomach, and is then passed on and assimilated in the natural way. Anything which is either digested or assimilated in an unnatural manner should be taken only on a doctor's prescription.

The endorsement by physicians of Scott's Emulsion is no bombast or buncombe. In all diseases or unhealthy conditions indicated by excessive wasting, Scott's Emulsion aids medical science more than any other nourishment. Scott's Emulsion helps a dyspeptic person by aiding the digestion of other foods, and to a person who is failing in health it gives increased appetite and promotes the making of solid flesh and gives vital strength. It enriches the blood, makes new lung-tissue and overcomes all wasting tendencies.

In cases of inflammation of Throat and Lungs Scott's Emulsion has no equal in power to afford quick relief. It cures the most stubborn cough, soothes and cures sore throat, and overcomes all the early stages of consumption.

In the wasting of the vital elements of the blood Scott's Emulsion also works wonders. Anemic or scrofulous persons are made well by it, and there is restored the pure skin and healthy color.

It is almost useless to refer to Scott's Emulsion as a nourishment for babies and children. Its name is a household word in hundreds of thousands of families where there have been thin babies and children who were thin and pale. Babies and children thrive on Scott's Emulsion. It insures a healthy growth. Scott's Emulsion is for sale by all druggists at 50 cents and \$1. Pamphlet mailed free on application to Scott & Bowne, Belleville.
