

Recommendation 2
The Commission has noted that the current definition of "firearms" in the Criminal Code is too narrow in view of the fact that many devices which are used in the commission of crimes are not covered by the current definition. It is recommended that the definition be broadened to include such devices.

B) Devices
Under Bill C-88, the definition of "firearms" was amended to extend to include those devices which have been used in the commission of crimes. The Commission is of the opinion that the definition should be broadened to include those devices which are used in the commission of crimes. It is recommended that the definition be broadened to include such devices.

By placing firearms which have been designed to be used in the commission of crimes in the semi-automatic category, the Commission is of the opinion that the definition of "firearms" in the Criminal Code should be broadened to include such devices. It is recommended that the definition be broadened to include such devices.

Recommendation 3
It is recommended that the Minister of Justice

should be authorized to include in the definition of "firearms" in section 84(1) of the Criminal Code those devices which are used in the commission of crimes. It is recommended that the definition be broadened to include such devices.
