

REPORT ON THE

PROGRESS OF THE

WORK DURING THE YEAR 1900

The following report contains a summary of the work done during the year 1900. It is divided into two parts, the first of which deals with the general progress of the work, and the second with the results of the various investigations.

The first part of the report deals with the general progress of the work. It shows that the work has been carried out in accordance with the programme of work laid down in the report for the year 1899. The various investigations have been carried out in a systematic and thorough manner, and the results have been carefully recorded and analysed.

The second part of the report deals with the results of the various investigations. It shows that the work has been carried out in a systematic and thorough manner, and the results have been carefully recorded and analysed. The results of the various investigations are given in detail, and are accompanied by a number of tables and diagrams.
