

7. Has any silver been sold in Canada to corporations or individuals not requiring silver in their business? If so, to whom and how much?

8. According to Press reports the major silver refineries will supply approximately 50 per cent of their output for 1946 for domestic requirements. Will this, plus one half of the silver by-product from the gold mines, provide sufficient for domestic requirements?

9. If the answer is no, then how is it proposed to give the small silver producers the export price for all their production as reported in the Press?

10. What is the estimated silver production for the year 1945?
