

PART II.—ADVANCED COURSE.

BOOK VIII.—RELATIONS BETWEEN ALGEBRAIC QUANTITIES.

Functions and their Notation, 221. Equations of the First Degree between Two Variables, 224. Notation of Functions, 230. Functions of Several Variables, 232. Use of Indices, 233. Miscellaneous Functions of Numbers, 235.

BOOK IX.—THE THEORY OF NUMBERS.

CHAPTER I.—THE DIVISIBILITY OF NUMBERS, 238. Division into Prime Factors, 239. Common Divisors of two numbers, 240. Relations of numbers to their Digits, 245. Divisibility of Numbers and their Digits, 245. Prime Factors of Numbers, 248. Elementary Theorems, 251. Binomial Coefficients, 251. Divisors of a Number, 254.

CHAPTER II.—OF CONTINUED FRACTIONS, 258. Relations of Converging Fractions, 267. Periodic Continued Fractions, 270.

BOOK X.—THE COMBINATORY ANALYSIS.

CHAPTER I.—PERMUTATIONS, 273. Permutation of Sets, 275. Circular Permutations, 277. Permutations when Several of the Things are Identical, 279. The two classes of Permutations, 281. Symmetric Functions, 284.

CHAPTER II.—COMBINATIONS, 285. Combinations with Repetition, 287. Special Cases of Combinations, 289. The Binomial Theorem when the Power is a Whole Number, 296.

CHAPTER III.—THEORY OF PROBABILITIES, 299. Probabilities depending upon Combinations, 300. Compound Events, 305. Cases of Unequal Probability, 310. Application to Life Insurance, 316. Table of Mortality, 318.

BOOK XI.—OF SERIES AND THE DOCTRINE OF LIMITS.

CHAPTER I.—NATURE OF A SERIES, 321. Notation of Sums, 324.
