

WASHINGTON IS STILL HANGING

Navy and War Departments Give No Indication of Preparations to Inevade Mexico.

WASHINGTON, Nov. 18.—(Can. Press).—Absence of any evidence that fresh instructions had gone forward from Washington to John Lind or Charge O'Shaughnessy was marked in official circles here today to mark the advent of another period of patient waiting for some decisive development in Mexico.

In spite of all the rumors of blockades and intervention coming from Havana and Vera Cruz there has been no sign of such activity at the navy or war departments as might be expected to precede adoption of any such radical steps by the administration. Moreover, it has been intimated in official quarters that only by direction of congress would such a step be taken.

Officials still decline to furnish information as to what has been accomplished in official quarters that only by direction of congress would such a step be taken.

Rebels in Strong Position.

State department advices made public today indicated that the insurrectionary movement is spreading rapidly not only in the north of Mexico, but to the south and east. This last development is regarded here as very important, because the success of the constitutionalists in obtaining possession of the rich oil fields in the east and some deep water ports on the Gulf coast would enormously strengthen them from a military point of view, the former insuring them a full treasury, and the latter an easy means of supplying themselves with munitions of war from Europeans in the West Indies.

GERMAN SENTIMENT VEERING.

BERLIN, Nov. 18.—(Can. Press).—The retirement of Gen. Huerta from the provisional presidency of Mexico is now the surest way to restore order at that country, German interests are so great, according to an editorial article in The Tageblatt, which heretofore had steadily attacked the policy of the United States in Mexico.

CHARGES COMBINATION IN RESTRAINT OF TRADE

Indictment Against John P. White and Others Promises a Stubborn Battle.

CHARLESTON, W. Va., Nov. 18.—(Can. Press).—John P. White, president of the United Mine Workers of America, and a number of associates today prepared to face Judge Keller and a jury in the United States district court in awaiting an indictment charging the maintenance of a combination in restraint of trade in the Kanawha coal fields, when the charges were announced. The questions involved in the indictment are of a far-reaching influence on the trades union movement and it was predicted that the case would be tried most stubbornly contested in recent years.

SOUTH LANARK TORIES STAND BY DR. HANNA

Proposal to Hold New Nominating Convention Met With Defeat.

SMITH'S FALLS, Nov. 18.—(Can. Press).—Probably on account of the split between Dr. Hanna of Perth, the nominee of the convention, and Colonel Balderson of Perth, who has announced his candidacy as an independent Conservative, there was a large attendance at the postponed annual meeting of the South Lanark Conservative Association. A resolution for a new union of the party, and a new nominating convention in the riding, was defeated. A vote of confidence in Premier Borden was adopted unanimously. Officers were elected for the ensuing year.

CONSTABLE HURT FELL FROM WINDOW

Was Investigating Scene of Suspected Burglary—Wooden Frame Gave Way.

While trying the locks on a rear window at the office of the Stone Lithographing Co., on West King street at midnight last night, Constable William Lewis (84) fell a distance of 15 feet, fracturing two ribs and sustaining several bad cuts and bruises on his head. He was taken in company with another officer, Constable Lewis had caught two men up the side lane, and pulling one of the window down from the top, decided to hold them and investigate for possible burglary. He climbed to the window, which was covered with a wire screen, and in pushing it inward to try the catch, fell inside when the window gave way. He first alighted on the roof of the engine house, and then rolled to the concrete floor, where he was picked up by a fellow officer. He was conveyed to the General Hospital in the police ambulance.

CHARGED WITH FRAUD.

Charged with fraud in connection with the sale of potatoes, which it is alleged they were selling under weight, Albert Speddie, 173 College street, and William Strickland, at Blackmore street, were arrested by Constables Sunderland and Johnston last evening.

STRUCK BY MOTOR CAR.

As a result of being struck by an automobile driven by John Haffray, 866 Clinton street, on Dufferin street, near the Exhibition grounds, at 4 o'clock yesterday afternoon, 15-year-old Morris Holler lies at the Western Hospital in a critical condition. The lad was crossing Dufferin street when the accident occurred, and was conveyed to the hospital in the car which struck him.

Piles Cured in 6 to 14 Days

Druggists refund money if PAIN-O-DRIVEN fails to cure itching, blind, bleeding, protruding piles. First application gives relief. 50c.

MAY BE DEFENDANT IN SLANDER ACTION

Hamilton's Chief Threatened With Suit for Fifty Thousand Damages.

LAKE DISASTER FUND

Mr. Justice Middleton Gives Judgment for County in Miller Case.

(Special to The Toronto World.) HAMILTON, Nov. 18.—That Mayor Allan may be sued for \$50,000 for alleged slander was the startling announcement made today by John Lennox, president of the centennial committee. This threatened action on the part of the committee, it was said, resulted from an article that appeared in last Thursday's publication of a local paper.

Today Mr. Lennox said that his worship had three courses open to him. He may be able to satisfy the gentlemen involved with a complete apology; he may settle the question so far as he is concerned by a reputation of the statements, or he will be given the opportunity to defend an action for slander for \$50,000.

“I don't like to say anything about it until we get the mayor's answer to our letter,” said Mr. Lennox, “but we have decided to institute proceedings against the proper party for damages to the extent of the above amount.”

Proving Allegiance.

Edward O'Connor, a former Dundas man, now residing in Omaha, Neb., is endeavoring to prove his relationship to the late John O'Connor, an old resident of the valley town in an effort to establish his claim to a fortune of between \$75,000 and \$100,000.

John O'Connor left Dundas forty years ago and went to the States, where he amassed a fortune. He died recently, Edward O'Connor claims to be a brother of the dead man and entitled to his estate.

Mr. Rastriek Complains.

F. J. Rastriek, a local architect, complained in a letter to the editor, before the board of control this morning. Mr. Rastriek alleged that there now exists a “combine,” as he termed it, of two architects who receive all or nearly all of the city work, to the exclusion of other local architects. He said it was a base attempt to corner all the city architectural work for the next ten or twenty years. No action was taken.

Not All Equipped.

It was pointed out to the controllers by City Solicitor Waddell that not all of the city street cars were equipped with air brakes. The board will take some action in the very near future.

The board of health today ordered all the people of the Caroline street public bath to be vaccinated in an effort to prevent the spread of smallpox.

Edwin James Wilson, for many years a prominent music dealer in this city, died at noon today, at his home, 117 East King street. The deceased was connected with the Nordheimer Music Company. The funeral will take place on Thursday afternoon.

Subscriptions Are Slow.

Local subscriptions in aid of families rendered dependent following the recent sale of the Great Lakes are arriving slowly. The city committee today reported a total of \$512.

Mayor Allan stated that it was unlikely the police would contribute anything to the fund, as it was more a matter for private philanthropy than for public funds. The board of health today ordered all the people of the Caroline street public bath to be vaccinated in an effort to prevent the spread of smallpox.

The police have been asked to locate Cecil Henderson, 14 years of age, who has been missing from his home on Belmont avenue since last Saturday. His parents are very anxious to find him, and any information concerning his whereabouts would be gratefully received by the local authorities.

In Stenographer's Party.

Great anxiety is felt here at George S. Malloch of Hamilton, who was chief geologist and photographer of the expedition to the Arctic regions. The young man is the son of Dr. A. Malloch, Duke Street. Justice Middleton gave three more judgments yesterday in connection with the recent Hamilton Assizes. The one of greatest interest, perhaps, is that in the case of Miller and Miller v. County of Wentworth, to recover \$10,000 for the death of Duncan N. Miller. His lordship gave judgment for the county and dismissed both actions.

Transient Traders' Licenses.

The recent action of the Elkan Fur Company in refusing to take out a trading license, despite the demands of the city council, has aroused the ire of the city fathers sufficiently to get at the root of the trouble.

Last week when the auctioneer, Wm. Bowerman, was asked who were behind the fur company, he said that C. M. Henderson of Toronto was the man. A summons was issued for Mr. Henderson to appear in court, but because it was not served on him personally he refused to appear.

The authorities are not to be baffled, however. Today a constable in uniform left for the Queen City to serve the paper, and it is expected that Mr. Henderson will be on hand before Magistrate Jeffs tomorrow morning.

The discovery of six buffalo robes and five dozen pairs of imitation Persian lamb gauntlets in a woodshed in the east end has furnished the police with the threads of another mysterious and so mysterious, in fact, that the press cannot refuse to give out any information to the newspapers.

Favor Compensation Act.

Many prominent Hamilton business men have expressed themselves as being entirely satisfied with the new Workmen's Compensation Act, as proposed by Sir William Ralph Meredith. It is their opinion as a whole that the act is pretty fair to both employer and employee.

Discussing the strange deaths of Miss Etta Forsyth and her sister, Mrs. Alice Griffin, as reported yesterday, Dr. Robert M.D.H., who is, perhaps, one of the best authorities on vaccination in this city, said this morning that the deaths of these two women, in his opinion, were not due to vaccine poisoning.

CRUSHED TO DEATH BY EXPRESS TRAIN

NORT BAY, Nov. 18.—(Can. Press).—In full view of hundreds of horrified spectators at the crowded Union station last night at 8 o'clock, a man stepped in front of the Soo express coming into the station and was crushed to death beneath the wheels. He was identified by letters in his pocket as S. M. Archibald of Brentwood, N.S., who had been visiting friends in Porcupine. He leaves a wife and family.

Many prominent Hamilton business men have expressed themselves as being entirely satisfied with the new Workmen's Compensation Act, as proposed by Sir William Ralph Meredith. It is their opinion as a whole that the act is pretty fair to both employer and employee.

Discussing the strange deaths of Miss Etta Forsyth and her sister, Mrs. Alice Griffin, as reported yesterday, Dr. Robert M.D.H., who is, perhaps, one of the best authorities on vaccination in this city, said this morning that the deaths of these two women, in his opinion, were not due to vaccine poisoning.

YARKER VISITED BY EARLY MORNING FIRE

YARKER, Ont., Nov. 18.—Yarker was visited by fire early this morning, and only by assistance of firemen and Italian workers on the new railway line the whole village could have been destroyed. By strenuous efforts the flames were confined to the few buildings, and in two hours all danger was past. The blaze originated in the corner store of D. V. Bowserman, who lost all his possessions, including cash and wearing apparel. Only yesterday he had stocked his store with a winter supply of clothing and other things.

FATHER LANGLAND IN FINE ADDRESS

Spoke in Place of Abbott Gasquet and Was Well Received.

REVISING LATIN BIBLE

Benedictine Order is in Charge of the Enormous Task.

Nothing less than the adjective brilliant can in any way do justice to the delightful address delivered by Rev. Father Langland at Columbus Hall last evening, and as His Grace Archbishop McNeil said at the close, those who were absent had indeed missed a treat.

It had been announced that the world-noted Abbot Gasquet would be the speaker, and a certain amount of disappointment was experienced when it was learned that owing to serious illness he would not be present. Archbishop McNeil voiced this disappointment when he said that a man who had written a series of books every one of the result of much investigation was looked upon as some one of more than ordinary importance and it was wished to see him. He had wanted to see Abbot Gasquet, but while he regretted the serious illness that prevented his coming, he felt that as far as the lecture was concerned there would be no room for regret.

Father Langland, who is associated with Abbot Gasquet in the work of the revision of the Scriptures at Rome, outlined their labors.

It was in May, 1907, that the Holy Father had begun the work of the revision of the Latin Bible, called the Vulgate, and Abbot Gasquet was appointed head of the commission. The Benedictine order were given charge, because as Father Langland explained, a man or men may die before the work is completed, but the order endures. The particular thing the commission has to accomplish is the restoration of the printed text of St. Jerome's version of the fourth century.

How Mistakes Occur.

The many ways in which by omission, additions or errors, but the order of the vulgar tongue that mistakes may occur were all explained, and the process by which the correct and correct version is to be obtained through search, entailing much traveling and comparison were also gone into in detail by the lecturer. The necessity for funds to carry on the work was the reason for the presence of Abbot Gasquet and Father Langland in America.

The scholarly address was brightened by several humorous stories, and a long and hearty applause was given to the lecturer at the close. The necessity for funds to carry on the work was the reason for the presence of Abbot Gasquet and Father Langland in America.

The archbishop expressed his thanks and appreciation for the information given in the course of the address and for the enjoyment it had given. Musical numbers were given by Mr. Leutenier and Mrs. Malone. F. Russell presided, and Rev. Father Burke, P.P., Dr. George Kennedy and Thomas Long were on the platform. A large number of the city clergy were also present. At the conclusion of the address it was announced that Father Langland would be the guest of Father Burke at Newman Hall, where he would be glad to receive any enthusiastically interested to call.

CANADIANS MUST GUARD DINOSAURS

“Hands Off” Will Be Warning to Enthusiastic Excavators From U.S.

CODERRE IS ROUSED

Legislation Will Prevent Prehistoric Remains From Enriching Foreign Museums.

(Special to The Toronto World.) OTTAWA, Nov. 18.—Hon. Louis Coderre, secretary of state, has lost no time in taking steps to prevent a recurrence of such an incident as recent acquisition by the American Museum of Natural History of New York of a complete skeleton of the prehistoric creature, the horned dinosaur, which was unearthed in Red River district of Alberta. This skeleton, the Monoclonius, as is scientifically termed, is the first complete specimen of this mammoth which has ever been secured. The creature stood about five feet high and was fifteen feet long. It flourished in the Red River region some three million years ago.

Mr. Coderre takes the view that there should have been legislation here to prevent this valuable specimen going outside of Canada.

The legislature of Alberta takes the same view and the Hon. J. R. Boyle, provincial minister of education, has asked the secretary of state to take steps to conserve to Canada further finds of a similar character. Mr. R. B. Bennett, M.P. of Calgary, has also exerted his influence to put a stop to what many regard as deprivations by the American Museum.

Protective Legislation.

Mr. Coderre has referred the matter to Mr. Brook, chief of the Geological Survey of Canada, for an opinion, and acting under the latter's advice, legislation will be enacted at the next session of parliament to render it impossible to take such finds out of the country without official sanction.

The wealth of the Red River district in the remains of prehistoric creatures has attracted so much attention on the part of foreign naturalists that safeguards are necessary. Nothing, however, will be done to impair scientific research.

LORD STRATHCONA'S GIFT.

VANCOUVER, B.C., Nov. 18.—(Can. Press).—Lord Strathcona has sent a contribution of \$5,000 to the funds of the Workmen's Compensation Act of Ontario. This money is the last of a total fund of \$250,000 raised within a year to double the size of the present building and increase the capacity of the work.

ONTARIO GIVES TEN THOUSAND

WYCLIFFE WON DEBATE.

Wycliffe College were the winners in the intercollegiate debate held with McMaster University last evening in the assembly hall of the latter college. Messrs. C. Williams and A. C. S. Trivet, M.A., of Wycliffe, upheld the affirmative side of the debate, which was “Resolved, that the proposed Workmen's Compensation Act of Ontario should include the requirement that workmen contribute to the accident fund.” While Messrs. C. V. Farnham and E. H. Locke, of McMaster, supported the negative.

COUNTER CHARGES AGAINST LIBERALS

Tories Will Fight Contestation Proceedings to Finish in Chateaugay.

MONTREAL, Nov. 18.—(Can. Press).—Counter charges of corruption against Liberal workers are expected to form the answer that Conservatives will make to the petition filed yesterday by five supporters of Hon. Sydney Fisher, defeated by James Morris in the recent Chateaugay by-election.

It is announced authoritatively that the contestation will be fought out to the bitter end, and his friends being confident that they will be able to disprove what they term the “trumped up” charges.

WOMAN JURY'S FOREMAN

Son of Man Killed on a Train Gets a Verdict of \$20,000.

SEATTLE, Nov. 17.—William Topping of Ashland, O., a minor, obtained a verdict of \$20,000 against the Great Northern Railway Company because his father, Edward Topping, was killed in the Wellington, Wash., snowslide disaster of March 1, 1910, when 92 persons perished. The father was a passenger on one of the wrecked trains. A woman was foreman of the jury that tried the case in Superior Judge Hughes' court.
