## INQUIRY APPLIES TO ALL ALDERMEN

Investigation of Meredith-Hodgson Affair Proceeds on Monday.

DISCLAIMS ANY CHARGE

Ald. Meredith Says Statements About Ald. Maguire Were Only Hearsay.

Feeling that the opportunity had arrived, council yesterday unanimously adopted the recommendation of the board of control that Judge Denton be asked to investigate the Meredith-Hodgson affair. An amendment was added and the investigation will be wide open, covering every member of the council, and anything effecting the good government of the city and the conduct of its business. Any charges made by reputable citizens concerning members of the 1915 council will be thoroughly investigated.

The amendment making the investigation wide-open was moved by Ald. Ramsden. Ald. Meredith, who spoke first to the recommendation, asked that the investigation be a wide open in order that he might not be made the scapegoat of the city council, because it had been unable to appoint a fire commissioner. Speaking in regard to his remarks about Ald. Maguire, Ald. Meredith claimed that he was not in charge, as he had only quoted the remarks of one Hodgson, and they could not be construed as coming from him. "Hodgson is one of Ald. Roden's henchmen," At this Ald. Wickett objected, whereupon Ald. Meredith stated that the matter was investigated. He said that he believed the defeat of certain candidates for the position of fire commissioner was brought about by a misconception on the part of some of the oaths of office. He characterized Ald. Meredith's failure to demand an investigation when the charge was laid as evidence of weakness.

Ald. Weir told of how he had been spoken to by E. H. Deacon in the last office about Col. Langton, Ald. Roden being present.

Ald. Wickett thought it was a perfect scandal that nothing had been done by the city in the way of taking advantage of the difference in the price of the pound sterling between the United States and New York, but he was told that the treasury board had the matter under consideration.

**Debtors' Objections.**

The issue of debentures to raise \$75,000 for relief work done in the parks last year, and for \$74,462 for the cost of wiring the Exhibition grounds brought forth a protest from Ald. Cameron, who did not think that pos-

### MISSING A WEEK

The detective department is anxious to receive information that will lead to the finding of Lillian Smith, age 15 year, who left her home in Orillia on August 31, coming to Toronto. Her parents received a letter from Toronto notifying them of her safe arrival, also that she was staying at one of the big hotels. Enquiry at the hotel showed that she had never stopped there, consequently a search was instituted throughout the city, but nothing definite has yet been attained.

terity should pay for charity distributed at this time. This protest routed the ire of Ald. Gibbons, who drew attention to a statement made by Ald. Cameron last winter, favoring the raising of \$600,000 in debentures for relief work if the men would work for 20 cents per hour. This Ald. Cameron denied but, declaring that the labor people were misled "by slick-tongued politicians, who make statements and then deny what they say."

Yesterday afternoon Judge Denton stated that he expected to go on with the investigation on Monday, and that the assistance of George Wilkie of Corley, Wilkie & Duff would be entirely satisfactory to him.

Another Attempt.

Today the board of control will make another effort to nominate a fire commissioner, and if successful, a special meeting of the city council will be called for Friday. At yesterday's council meeting a committee was appointed, consisting of the mayor, Ald. Walton, Wickett, Cameron, Dunn, Roden and Ryding. These will meet with the controllers in an effort to come to an arrangement that will make for a settlement of the present unsatisfactory conditions in connection with the fire commission.

Dr. Hastings M. O. H., has been elected president of the Canadian Public Health Association.

Property Commissioner Chisholm, who is in charge of the Civic Employment Bureau, is sending carpenters and laborers to Parry Sound, where they will be employed in erecting a munitions factory.

Ald. Ryding yesterday presented a petition to the city council from the residents of Mavety street, West Toronto, asking that the Interurban Company be restrained from making so much noise.

### INVITATION MUSICALE.

A special musicale will be held this evening at 8 o'clock, for the benefit of those unable to attend during the day. Mrs. D. Stevenson will render three delightful songs: "Wind and the Lyre," "Harriet," "The Land of the Sky Blue Water," by Cadman, and "A Spirit Flower," by Campbell-Kipton. Accompaniments will be played on the Gourelly-Angelus.

A most delightful musicale was held yesterday afternoon in the magnificent ballroom of the Gourelly-Angelus, Limited, at 188 Yonge street. This program, selected from the great operas and the works of the classic masters, displayed a wide range of subjects and treatments, both instrumental and vocal. The playing of the splendid new electric Gourelly-Angelus Artio was magnificent. The pure tone and exquisite expression of the numbers on the Edison Diamond Disc Photograph were well appreciated, as was also the fine singing of Mr. Frank Oldfield.

These delightful musicales are held daily at 11 in the morning and at 3.30 in the afternoon. Today's programs promise to exceed even that given yesterday. Invitations may be obtained at the store, 188 Yonge street, or by phone.

## WATERPROOF TOGS FOR RAINY DAYS

Newest Rubber Fabrics Feature Smartest Designs for Wet Weather.

### FOOTWEAR IS MODISH

Chic Hats Are Also Fashioned in Waterproof Materials—New Showings.

A number of new and attractive features have been introduced in the designs now being shown for wear on rainy days in fall. Wet weather togs of unsightly materials and outrageous lines are no longer countenanced by women who value their appearance, and the crusade against ugly heavy rubber coats and rough boots, which were once donned on stormy days, has resulted in a thorough evolution in rainy weather gear.

Modes which lead in the fashioning of smart street costumes, and loose fall coats are also employed in the latest and most approved waterproof ulsters. Thin waterproof materials of attractive finish are now used, adapting themselves most satisfactorily to the styles desired for this season.

One of the newest and most popular fabrics chosen for its combined practicality and attractiveness is rubberized crepe de chine, which can be procured in all the popular autumn shades.

A very chic little outfit is designed from this material in a handsome dark inconspicuous shade of green, with dark bone buttons as the only trimming. The coat is loose-sided, long to the hem of the skirt and fastens close about the throat. The collar is adjustable and may be buttoned up or left open in rolling revers. Slash pockets inserted diagonally and deep-cuffed wrists are smart features.

The hat to be worn with this modish coat is of the favored conservative sailor variety, made of the crepe de chine rubber and entirely untrimmed. Strong but fashionable footwear is worn in the form of heavy waterproof tan kid boots, laced up the front and extending about six eyes higher than the usual laced boot. Heavy gloves, also waterproof, are worn, so that when the fashionable woman takes a walk on a rainy day she presents a chic, trim figure and does not even require an umbrella.

## ROSE DAY PROCEEDS GO TOWARDS HOSPITAL

No One Receives Any Commission on Money Collected.

Tomorrow will be Queen Mary Rose Day in Toronto. The public will be appealed to for subscriptions on behalf of the Queen Mary Hospital for Consumptive Children at Weston. Out of the 80 patients there 69 are from the City of Toronto.

Mrs. Baker of 615 Huron street, who will direct tomorrow's campaign, and who also directed the Alexandra Rose Day campaign, emphatically states that there is no truth whatever in the report that she received any commission from the money subscribed by the public on Queen Alexandra Rose Day. She gave her services entirely free.

The campaign tomorrow will also be directed by Mrs. Baker, without remuneration. The following committee of prominent Toronto men will supervise the receiving and depositing of the money: A. E. Ames, W. P. Gundy, J. M. Godfrey and Ald. Ramsden and Warren.

### WOMAN LOST IN WOODS.

Mrs. Strain of Penetang Missing Since Sunday.

PENETANG, Sept. 7.—Word reached here yesterday from Go-Home Bay, N. B., that Mrs. Frank Penetang, of that place, had been lost in the woods since 10 o'clock Sunday morning. Search parties were sent out Sunday afternoon and night, and by noon Monday no trace of the missing woman had been found.

Mr. Penetang was in Toronto attending the Exhibition, but hurried home Monday to assist in the search. Mr. and Mrs. Strain, formerly lived in Midland.

## Gas In The Stomach Is Dangerous

Physicians Recommend the Use of Magnesia.

Sufferers from indigestion or dyspepsia should remember that the presence of gas or wind in the stomach invariably indicates that the stomach is troubled by excessive acidity.

This acid causes the food to ferment and the fermenting food in turn gives rise to noxious gases which distend the stomach, hamper the normal functions of the internal organs, cause acute headaches, interfere with the action of the heart and charge the blood stream with deadly poisons, which in time ruin the health. Physicians say that to quickly dispel a dangerous accumulation of wind in the stomach and to stop the fermenting action which creates the gas, acid of the stomach must be neutralized, and that for this purpose there is nothing quite so good as a teaspoonful of pure bisulphate of magnesia taken in a little water immediately after meals. This instantly neutralizes the acid, thus stopping fermentation and the formation of gas, and enables the inflamed, distended stomach to proceed with its work under normal conditions. Bisulphate of magnesia is obtainable in powder or tablet form from any druggist, but as there are many different forms of magnesia it is important that the bisulphate which the physicians prescribe should be distinctly asked for.

## WHITE ROSE DAY WILL HELP KIDDIES

Tubercular Children in Queen Mary Hospital, Weston, Will Benefit.

### COLLECT ON THURSDAY

Building is Greatly in Need of Improvement and Enlargement.

Queen Mary Rose Day, to be celebrated throughout the city on Thursday of this week, has been organized in the interest of the Queen Mary Hospital for Tubercular Children, which is situated at Weston. The small sum of five cents will be asked from every passer-by and every interested friend. You will be asked, your little gift is needed, and even if you have been tagged a million times this summer, don't go past the girl with the white roses if you have a nickel in your pocket. The cause for which White Rose Day has been organized is an urgent one and cannot be ignored. The work of the Queen Mary Hospital for the past two years has been a work of love and charity—the caring for and curing in many cases of little children tubercularly infected. The hospital is greatly in need of improvement and enlargement, equipment and additional convenience, which can only be effected if White Rose Day is supported by Toronto citizens.

The city has been divided into districts and organized on the principle of Queen Alexandra Rose Day, by Mrs. G. R. Baker. Those in charge of the various districts are:
