Strikers at the Canada Cycle and Motor Co. plant, Weston, with their sympathizers, paraded at noon yesterday still determined to continue the strike of the polishers and buffers, who will not submit to the reduction of wages. "Halibut costs 32 cents a pound, which could be easily sold at a good profit at 12½ cents." she said. Regarding the flood of literature from the food controller's office sent broadcast thruout the country, Mrs. J. Goddard was of the opinion that any mother of a family in Earlscourt could not live up to the recipes sent out at double the income which they receive. "A housewife in Earlscourt knows how to make a dollar go farther than any food controller," she said. "His duty is to fix the prices of food for us." Mrs. Frank Powell and Mrs. Walter Thompson were appointed a deputation to interview the Dominion Food Board.

The discussion regarding the fixing of tood prices: was of a prolonged character, and considerable discussion ensued regarding the visit of the six Toronto women to a conference at Ottawa.

"What have the women been called to Ottawa for?" enquired Mrs. J. Wiseman. "Is it to appeal to the government to reduce the prices of foodstuffs?" she asked.

The president could give no definite information on the point, but thought the conference was of a political character and in the interest of food conservation of the summer and strongly urges the general adoption of that course.
